**The NCL Natural Constraint Language** Jianyang Zhou,2012-12-09 The NCL Natural Constraint Language presents the NCL language which is a description language in conventional mathematical logic for modeling and solving constraint satisfaction problems. NCL differs from other declarative languages: It models problems naturally in a simplified form of first-order logic with quantifiers, Boolean logic, numeric constraints, set operations and logical functions; it solves problems by mixed set programming over the mixed domain of real numbers, integers, Booleans, dates/times, references, and in particular sets. The book uses plenty of examples and tutorials to illustrate NCL and its applications. It is intended for researchers and developers in the fields of logic programming, constraint programming, optimization, modeling, operations research and artificial intelligence, who will learn from a new programming language and theoretical foundations for

industrial applications. Dr. Jianyang Zhou is the inventor of NCL and has worked for its industrialization for more than 10 years.

**Letters from Home** Cary Dufour,2005-02 Parents of adult children around the world will laugh and cry as they share in this Marine Corp Mom's journey through USMC Boot Camp.

Joining the United States Marine Corps Snow Wildsmith,2014-01-10 This book is for the teenager or young adult who is interested in enlisting in the United States Marine Corps. It will walk him or her through the enlistment and recruit training process: making the decision to join, talking to recruiters, getting qualified, preparing for basic training, and learning what to expect at basic recruit training. The goal of the McFarland Joining the Military book series is to help young people

who might be curious about serving in the military decide whether military service is right for them, which branch is the best fit, and whether they are qualified for and prepared for military service. Features include lists of books, web links, and videos; a glossary; and an index.

*This Recruit* Kieran Michael Lalor, 2010-11-11 Just before the dawn of the Global War on Terror, Kieran Michael Lalor left his career as a high school social studies teacher, endeavoring to fulfill his lifelong dream. Lalor followed his father and brothers footsteps into the United States Marine Corps. *This Recruit* presents Lalors nightly journal entries, beginning with the uneasy trip to the recruiters office and the eerily quiet midnight bus ride to Parris Island. Lalor describes the wicked combination of fatigue, nerves, disorientation, misery, loneliness, and homesickness that conspire to keep him from his goal along with the hours of close order drill, push-ups, hand-to-hand combat training, the pit, and the unrelenting mind games. Witness the nasty recruit-on-recruit infighting that results when young men struggle to survive while being pushed past their limits physically, mentally, and emotionally. Gaze at the target from the five hundred yard line on Qualification Day, when failure means at least an extra two weeks on the island and the added humiliation of failing the quintessential test of a Marine. Experience the rappel tower, night firing, the infiltration courses, and long, back-crushing humps. Struggle with Lalor and his platoon as they try to overcome the Crucible, the final obstacle before claiming the title of United States Marine.

*Tip of the Spear* Ryan Hendrickson, 2020-07-07 The inspiring true story of a US Special Forces soldier who was medically retired after stepping on an IED, and his incredible return to active duty. Sergeant First Class (SFC) Ryan Hendrickson is a brave, determined, and courageous soldier -- a Green Beret clearing the way for his twelve-man team while conducting combat operations against the Taliban. As the tip of the spear, his role is to ensure the route taken by U.S. and Afghan troops are free of IEDs -- improvised explosive devices. Many soldiers do not survive their last step; those who do often lose at least one limb. While rescuing an Afghan soldier outside a mud-hut compound in 2010 -- knowing that he was in uncleared territory -- Ryan stepped on an IED with his right foot. The device exploded, leaving his foot dangling at the end of his leg. American soldiers losing a limb

is an all-too-common occurrence. But what makes Ryan's story different is that after undergoing two dozen surgeries and a tortuous rehabilitation, he was medically retired but fought to return to active duty. Multiple skin grafts to his leg and right foot successfully reattached his lower leg, and he was aided in his recovery by wearing a new prosthetic device known as an IDEO (Intrepid Dynamic Exoskeletal Orthosis). Once he passed a series of crucial physical tests, Ryan was able to rejoin the Green Berets within a year and physically perform his duties, redeploying to Afghanistan in March 2012. In 2016, he volunteered to return to Afghanistan with Bravo Company, 2nd Battalion, 7th Special Forces Group. During a firefight with the Taliban, he risked his life under heavy enemy fire to rescue three Afghan soldiers cut off from friendly forces and return the bodies of two dead Afghan soldiers under the ethos that no one gets left behind. For his heroic efforts on the battlefield, SFC Ryan Hendrickson was awarded a Silver Star, the nation's third-highest award for valor. An engaging and harrowing account, *Tip of the Spear* tells the amazing story of one Green Beret's indomitable spirit.
