Stand Firm Svend Brinkmann,2017-02-27 The pace of modern life is accelerating. To keep up, we must keep on moving and adapting – constantly striving for greater happiness and success. Or so we are told. But the demands of life in the fast lane come at a price: stress, fatigue and depression are at an all-time high, while our social interactions have become increasingly self-serving and opportunistic. How can we resist today's obsession with introspection and self-improvement? In this witty and bestselling book, Danish philosopher and psychologist Svend Brinkmann argues that we must not be afraid to reject the self-help mantra and 'stand firm'. The secret to a happier life lies not in finding your inner self but in coming to terms with yourself in order to coexist peacefully with others. By encouraging us to stand firm and get a foothold in life, this vibrant anti-self-help guide offers a compelling alternative to life coaching, positive thinking and the need always to say 'yes!'

Black Cool Rebecca Walker,2012-02-07 Soft Skull Press proudly offers this tenth-anniversary edition of visionary essays exploring the glory and power of Black Cool, curated by thought leader and bestselling author Rebecca Walker, with a foreword by Henry Louis Gates, Jr. Originally published in 2012, this collection of illuminating essays exploring the ineffable and protean aesthetics of Black Cool has been widely cited for its contribution to much of the contemporary discussion of the influence of Black Cool on culture, politics, and power around the world. Curated by Rebecca Walker, and drawing on her lifelong study of the African roots of Black Cool and its expression within the African diaspora, this collection identifies ancestral elements often excluded from colloquial understandings of Black Cool: cultivated reserve, coded resistance, intentional audacity, transcendent intellectual and spiritual rigor, intentionally disruptive eccentricity, and more. With essays by some of America's most innovative Black thinkers, including visual artist Hank Willis Thomas, writer and filmmaker dream hampton, MacArthur-winning photographer Dawoud Bey, fashion legend Michaela Angela Davis, and critical theorist and cultural icon bell hooks, Black Cool offers an excavation of the African roots of Cool and its hitherto undefined legacy in American culture and beyond. This edition includes a new introduction from Rebecca Walker, a powerful meditation on the genesis, creation, completion, and subsequent impact of this landmark volume over the last decade.

Achtung-Panzer! Heinz Guderian,1995 This is one of the most significant military books of the twentieth century. By an outstanding soldier of independent mind, it pushed forward the evolution of land warfare and was directly responsible for German armoured supremacy in the early years of the Second World War. Published in 1937, the result of 15 years of careful study since his days on the German General Staff in the First World War, Guderian's book argued, quite clearly, how vital the proper use of tanks and supporting armoured vehicles would be in the conduct of a future war. When that war came, just two years later, he proved it, leading his Panzers with distinction in the Polish, French and Russian campaigns. Panzer warfare had come of age, exactly as he had forecast. This first English translation of Heinz Guderian's classic book - used as a textbook by Panzer officers in the war - has an introduction and extensive background notes by the modern English historian Paul Harris.

This Is How You Should Think. Otis Funkmeyer,2016-11-23 I'm Otis Funkmeyer and I wrote this book. This is the book that I always wanted to have. Something very short and very sweet. Something I could easily read in one sitting. Something I could read over and over just to be reminded of how reality works and about how I could live a joyous life with real depth and integrity. I go through it every so often and change something here or add something there. It's a living, breathing organism. That makes me happy. The findings in this book led me to being a street performer. Your mileage may vary.

Your Marketing Sucks Mark Stevens,2014-04-01 Marketing is always the primary force -- the catalyst, the driver, the tsunami -- for propelling the growth of a business. The problem is, the art and science of marketing is often poorly designed and terribly executed to the point that it just plain sucks. It fails to achieve the only legitimate goal for marketing: to drive a company's growth. In this Tenth Anniversary edition of Your Marketing Sucks, renowned CEO Mark Stevens guides the reader through the principles of successful, business-building marketing, expanding on and updating his global Best Seller with fresh new content focused on state of the art guidance for building a wired brand designed to thrive in the viral era. In this invaluable, time-tested book, the bedrock principles of extreme marketing are fused with the power of the Internet/social media to deliver exponential results. It is, in its totality, an idea whose time has come!

Fist of the North Star, Vol. 2 Buronson ,Tetsuo Hara,2021-09-21 Kenshiro takes on the Golan, a gang whose claims of genetic superiority he will put to the test. Later, as he continues his journey through the wasteland, he runs into a wily nomad warlord named Jackal. Until now, Ken's opponents have rarely used their heads—though many have lost them! How will he handle an enemy who relies on low cunning instead of brute force? -- VIZ Media

Bombingham Anthony Grooms,2002-10-01 In his barracks, Walter Burke is trying to write a letter to the parents of a fallen soldier, an Alabama man who died in a muddy rice paddy. But all he can think of is his childhood friend Lamar, the friend with whom he first experienced the fury of violence, on the streets of Birmingham, at the height of the Civil Rights Movement. The juxtaposition is so powerful—between war-torn Vietnam and terror-filled “Bombingham”—that he is drawn back to the summer that would see his transition from childish wonder at the world to his certain knowledge of his place in it. Walter and Lamar were always aware of the terms of segregation—the horrendous rules and stifling reality. Their paper route never took them to the white areas of town. But that year, everything exploded. And so did Walter's family. As the great movement swelled around them, the Burkes faced tremendous obstacles of their own. From a tortured past lingered questions of faith, and a terrible family crisis found its climax as the city did the

same. In the streets of Birmingham, ordinary citizens risked their lives to change America. And for Walter, the war was just beginning.
