Auditory (re)habilitation for Adolescents with Hearing Loss Jill Duncan, Ellen A.

Rhoades, Elizabeth M. Fitzpatrick, 2014 The authors provide practitioners with key milestones considered fundamental to understanding adolescents with hearing loss as well as a pedagogical foundation and general intervention strategies for both planning and direct face-to-face (re)habilitation with adolescents. The authors summarize important issues related to the spoken language development of adolescents, focus on aspects of communication that are functionally relevant to adolescents with hearing loss, and provides strategies for facilitating auditory-based spoken communication skills.--Back cover.

Global Trends 2040 National Intelligence Council, 2021-03 The ongoing COVID-19 pandemic marks the most significant, singular global disruption since World War II, with health, economic, political, and security implications that will ripple for years to come. -Global Trends 2040 (2021) Global Trends 2040-A More Contested World (2021), released by the US National Intelligence Council, is the latest report in its series of reports starting in 1997 about megatrends and the world's future. This report, strongly influenced by the COVID-19 pandemic, paints a bleak picture of the future and describes a contested, fragmented and turbulent world. It specifically discusses the four main trends that will shape tomorrow's world: - Demographics-by

2040, 1.4 billion people will be added mostly in Africa and South Asia. - Economics-increased government debt and concentrated economic power will escalate problems for the poor and middleclass. - Climate-a hotter world will increase water, food, and health insecurity. - Technology-the emergence of new technologies could both solve and cause problems for human life. Students of trends, policymakers, entrepreneurs, academics, journalists and anyone eager for a glimpse into the next decades, will find this report, with colored graphs, essential reading.

Discipline and Punish Michel Foucault, 2012-04-18
A brilliant work from the most influential philosopher since Sartre. In this indispensable work, a brilliant thinker suggests that such vaunted reforms as the abolition of torture and the emergence of the modern penitentiary have merely shifted the focus of punishment from the prisoner's body to his soul.

Your Rainforest Mind: A Guide to the Well-Being of Gifted Adults and Youth Paula Prober, 2016-06-20
Do you long to drive a Ferrari at top speed on the open road, but find yourself always stuck on the freeway during rush hour? Do you wonder how you can feel like not enough and too much at the same time? Like the rain forest, are you sometimes intense, multilayered, colorful, creative, overwhelming, highly sensitive, complex, and/or idealistic? And, like the rain forest, have you met too many chainsaws? Enter Paula Prober, M.S., M.Ed., who understands the diversity and complexity of minds like yours. In *Your Rainforest Mind: A Guide to the Well-Being of Gifted Youths*

and Adults, Paula explores the challenges faced by gifted adults of all ages. Through case studies and extensive research, Paula will help you tap into your inner creativity, find peace, and discover the limitless potential that comes with your Rainforest Mind.

House of Evil John Dean, 2008-07-29 ***Please note: This ebook edition does not contain the photos found in the print edition.*** In the heart of Indianapolis in the mid 1960's, through a twist of fate and fortune, a pretty young girl came to live with a thirty-seven-year-old mother and her seven children. What began as a temporary childcare arrangement between Sylvia Likens's parents and Gertrude Baniszewski turned into a crime that would haunt cops, prosecutors, and a community for decades to come... When police found Sylvia's emaciated body, with a chilling message carved into her flesh, they knew that she had suffered tremendously before her death. Soon they would learn how many others—including some of Baniszewski's own children—participated in Sylvia's murder, and just how much torture had been inflicted in one HOUSE OF EVIL

Middle Range Theory for Nursing, Fourth Edition Mary Jane Smith, PhD, RN, FAAN, Patricia R. Liehr, PhD, RN, 2018-03-10 Three-time recipient of the AJN Book of the Year Award! Praise for the third edition: "This is an outstanding edition of this book. It has great relevance for learning about, developing, and using middle range theories. It is very user friendly, yet scholarly. Score: 90, 4 Stars -Doody's Medical Reviews The fourth edition of this invaluable publication on middle range

theory in nursing reflects the most current theoretical advances in the field. With two additional chapters, new content incorporates exemplars that bridge middle range theory to advanced nursing practice and research. Additional content for DNP and PhD programs includes two new theories: Bureaucratic Caring and Self-Care of Chronic Illness. This user-friendly text stresses how theory informs practice and research in the everyday world of nursing. Divided into four sections, content sets the stage for understanding middle range theory by elaborating on disciplinary perspectives, an organizing framework, and evaluation of the theory. Middle Range Theory for Nursing, Fourth Edition presents a broad spectrum of 13 middle range theories. Each theory is broken down into its purpose, development, and conceptual underpinnings, and includes a model demonstrating the relationships among the concepts, and the use of the theory in research and practice. In addition, concept building for research through the lens of middle range theory is presented as a rigorous 10-phase process that moves from a practice story to a conceptual foundation. Exemplars are presented clarifying both the concept building process and the use of conceptual structures in research design. This new edition remains an essential text for advanced practice, theory, and research courses. New to the Fourth Edition: Reflects new theoretical advances Two completely new chapters New content for DNP and PhD programs Two new theories: Bureaucratic Caring and Self-Care of Chronic Illness Two articles from Advances in Nursing Science documenting a

historical meta-perspective on middle range theory development
Key Features: Provides a strong contextual foundation for understanding middle range theory
Introduces the Ladder of Abstraction to clarify the range of nursing's theoretical foundation
Presents 13 middle range theories with philosophical, conceptual, and empirical dimensions of each theory
Includes Appendix summarizing middle range theories from 1988 to 2016

Understanding Violence Against Women National Research Council, Division of Behavioral and Social Sciences and Education, Commission on Behavioral and Social Sciences and Education, Panel on Research on Violence Against Women, 1996-06-07
Violence against women is one factor in the growing wave of alarm about violence in American society. High-profile cases such as the O.J. Simpson trial call attention to the thousands of lesser-known but no less tragic situations in which women's lives are shattered by beatings or sexual assault. The search for solutions has highlighted not only what we know about violence against women but also what we do not know. How can we achieve the best understanding of this problem and its complex ramifications? What research efforts will yield the greatest benefit? What are the questions that must be answered?
Understanding Violence Against Women presents a

comprehensive overview of current knowledge and identifies four areas with the greatest potential return from a research investment by increasing the understanding of and responding to domestic violence and rape: What interventions are designed to do, whom they are reaching, and how to reach the many victims who do not seek help. Factors that put people at risk of violence and that precipitate violence, including characteristics of offenders. The scope of domestic violence and sexual assault in America and its consequences to individuals, families, and society, including costs. How to structure the study of violence against women to yield more useful knowledge. Despite the news coverage and talk shows, the real fundamental nature of violence against women remains unexplored and often misunderstood. Understanding Violence Against Women provides direction for increasing knowledge that can help ameliorate this national problem.

Children, Adolescents, and the Media Victor C. Strasburger, Barbara J. Wilson, 2002-03-26 Taking an approach grounded in the media effects tradition, this book provides a comprehensive, research-oriented treatment of how children and adolescents interact with the media. Chapters review the latest findings as well as seminal studies that have helped frame the issues in such areas as advertising, violence, video games, sexuality, drugs, body image and eating disorders, music, and the Internet. Each chapter is liberally sprinkled with illustrations, examples from the media, policy debates, and real-life instances of media impact.

Cultural Formulation Juan E. Mezzich, Giovanni Caracci, 2008 The publication of the Cultural Formulation Outline in the DSM-IV represented a significant event in the history of standard diagnostic systems. It was the first systematic attempt at placing cultural and contextual factors as an integral component of the diagnostic process. The year was 1994 and its coming was ripe since the multicultural explosion due to migration, refugees, and globalization on the ethnic composition of the U.S. population made it compelling to strive for culturally attuned psychiatric care. Understanding the limitations of a dry symptomatological approach in helping clinicians grasp the intricacies of the experience, presentation, and course of mental illness, the NIMH Group on Culture and Diagnosis proposed to appraise, in close collaboration with the patient, the cultural framework of the patient's identity, illness experience, contextual factors, and clinician-patient relationship, and to narrate this along the lines of five major domains. By articulating the patient's experience and the standard symptomatological description of a case, the clinician may be better able to arrive at a more useful understanding of the case for clinical care purposes. Furthermore, attending to the context of the illness and the person of the patient may additionally enhance understanding of the case and enrich the database from which effective treatment can be planned. This reader is a rich collection of chapters relevant to the DSM-IV Cultural Formulation that covers the Cultural Formulation's historical and conceptual

background, development, and characteristics. In addition, the reader discusses the prospects of the Cultural Formulation and provides clinical case illustrations of its utility in diagnosis and treatment of mental disorders. Book jacket.

Haunting Experiences Diane Goldstein, Sylvia Grider, Jeannie Banks Thomas, 2007-09-15 Ghosts and other supernatural phenomena are widely represented throughout modern culture. They can be found in any number of entertainment, commercial, and other contexts, but popular media or commodified representations of ghosts can be quite different from the beliefs people hold about them, based on tradition or direct experience. Personal belief and cultural tradition on the one hand, and popular and commercial representation on the other, nevertheless continually feed each other. They frequently share space in how people think about the supernatural. In *Haunting Experiences*, three well-known folklorists seek to broaden the discussion of ghost lore by examining it from a variety of angles in various modern contexts. Diane E. Goldstein, Sylvia Ann Grider, and Jeannie Banks Thomas take ghosts seriously, as they draw on contemporary scholarship that emphasizes both the basis of belief in experience (rather than mere fantasy) and the usefulness of ghost stories. They look closely at the narrative role of such lore in matters such as socialization and gender. And they unravel the complex mix of mass media, commodification, and popular culture that today puts old spirits into new contexts.

Decolonizing Pathways towards Integrative Healing in Social Work Kris Clarke, Michael Yellow

Bird,2020-10-01 Taking a new and innovative angle on social work, this book seeks to remedy the lack of holistic perspectives currently used in Western social work practice by exploring Indigenous and other culturally diverse understandings and experiences of healing. This book examines six core areas of healing through a holistic lens that is grounded in a decolonizing perspective. Situating integrative healing within social work education and theory, the book takes an interdisciplinary approach, drawing from social memory and historical trauma, contemplative traditions, storytelling, healing literatures, integrative health, and the traditional environmental knowledge of Indigenous Peoples. In exploring issues of water, creative expression, movement, contemplation, animals, and the natural world in relation to social work practice, the book will appeal to all scholars, practitioners, and community members interested in decolonization and Indigenous studies.

"Their War Against Education" Lauren Seibert,2020 Armed Islamist groups allied with Al Qaeda and the Islamic State began attacking teachers and schools in Burkina Faso in 2017, citing their opposition to 'French' education and government institutions [This report] documents scores of attacks by armed Islamist groups on teachers, students, and schools in six regions of Burkina Faso between 2017 and 2020. The groups have killed, assaulted, abducted, and threatened education professionals; intimidated students; terrorized parents into keeping children out of school; and damaged, destroyed and looted

schools. The report also documents schools used by government security forces and armed groups for military purposes.--Page 4 of cover.

Inside the Cell Erin E. Murphy, 2015-10-06 a version less likely to play out on dramatic television shows. In Inside the Cell, Erin Murphy shows how DNA typing can be subject to misuse, mistake, and error, and lead to a police state run amok. Murphy shows the perils of a society in which stop-and-frisk becomes stop-and-spit, or in which police pose undercover to get a DNA sample from your discarded lunch. Already, police can collect DNA when making an arrest, sometimes before charging a person with a crime. The government is building a massive DNA database, stockpiling samples from as much as a third of the male population, and the laws regulating what they can and cannot do with them are weak. Murphy shows how this invites the riskiest kind of genetic surveillance imaginable. Just because DNA testing is good science does not mean that it is foolproof. Faulty forensic science is the number two factor leading to wrongful conviction, and yet we have done little to improve the use of science in criminal justice.

Team of Vipers Cliff Sims, 2019-01-29 THE INSTANT NEW YORK TIMES BESTSELLER Sims's vivid portrait of

Trump shrewdly balances admiration with misgivings, and his intricate, engrossing accounts of White House vendettas and power plays have a good mix of immersion and perspective. The result is one of the best of the recent flood of Trump tell-alls. —Publishers Weekly

The first honest insider's account of the Trump administration. If you hate Trump you need the truth; if you love Trump you need the truth. After standing at Donald Trump's side on Election Night, Cliff Sims joined him in the West Wing as Special Assistant to the President and Director of White House Message Strategy. He soon found himself pulled into the President's inner circle as a confidante, an errand boy, an advisor, a punching bag, and a friend. Sometimes all in the same conversation. As a result, Sims gained unprecedented access to the President, sitting in on private meetings with key Congressional officials, world leaders, and top White House advisors. He saw how Trump handled the challenges of the office, and he learned from Trump himself how he saw the world. For five hundred days, Sims also witnessed first-hand the infighting and leaking, the anger, joy, and recriminations. He had a role in some of the President's biggest successes, and he shared the blame for some of his administration's worst disasters. He gained key, often surprising insights into the players of the Trump West Wing, from Jared Kushner and John Kelly to Steve Bannon and Kellyanne Conway. He even helped Trump craft his enemies list, knowing who was loyal and who was not. And he took notes. Hundreds of pages of notes. In real-time. Sims stood with the President

in the eye of the storm raging around him, and now he tells the story that no one else has written—because no one else could. The story of what it was really like in the West Wing as a member of the President's team. The story of power and palace intrigue, backstabbing and bold victories, as well as painful moral compromises, occasionally with yourself. Team of Vipers tells the full story, as only a true insider could.

Some Wore Bobby Sox K. Schrum, 2019-06-12 Images of teenage girls in poodle skirts dominated American popular culture on the 1950's. But as Kelly Schrum shows, teenage girls were swooning over pop idols and using their allowances to buy the latest fashions well beforehand. After World War I, a teenage identity arose in the US, as well as a consumer culture geared toward it. From fashion and beauty to music and movies, high school girls both consumed and influenced what manufacturers, marketers, and retailers offered to them. Examining both national trends and individual lives, Schrum looks at the relationship between the power of consumer culture and the ability of girls to selectively accept, reject, and appropriate consumer goods. Lavishly illustrated with images from advertisements, catalogs, and high school year books, *Some Wore Bobby Sox* is a unique and fascinating cultural history of teenage girl culture in the middle of the century.
