*Beginning Microsoft Word Business Documents* James J. Marshall,2007-02-01 Even relatively experienced users of Microsoft Word are often frustrated when trying to create specialized documents such as newsletters, brochures, grant applications and proposals. While templates are available on the Internet, these rarely include instructions or show how to modify and customize the template. This book walks the reader through the creation of new business documents and the modification of templates, building on included samples. The reader gains a clear grasp of where to start, what to include, why charts are helpful - and how to create them - and the best ways to use fonts to show clear organization.

**Living Forward** Michael Hyatt, Daniel Harkavy, 2016-03-01 Each of us has but one life to live on this earth. What we do with it is our choice. Are we drifting through it as spectators, reacting to our circumstances when necessary and wondering just how we got to this point anyway? Or are we directing it, maximizing the joy and potential of every day, living with a purpose or mission in mind? Too many of us are doing the former--and our lives are slipping away one day at a time. But what if we treated life like the gift that it is? What if we lived each day as though it were part of a bigger picture, a plan? That's what New York Times bestselling author Michael Hyatt and executive coach Daniel Harkavy show us how to do: to design a life with the end in mind, determining in advance the outcomes we desire and path to get there. In this step-by-step guide, they share proven principles that help readers create a simple but effective life plan so that they can get from where they are now to where they really want to be--in every area of life.

**Technical Writing for Teams** Alexander Mamishev, Sean Williams, 2011-02-11 A unique, integrative, team-centered approach to writing and formatting technical documents Technical Professionals: Do you have difficulty producing high-quality documents with multiple contributors when faced with a tight deadline? Do you need a process that enables global team members to collaborate online as they produce sophisticated documents? Do you prefer the ease of a WYSIWG desktop publishing tool like Microsoft Word rather than more complex software like LaTeX? Professors and Graduate Students: Do you want to streamline the process of writing multi-investigator papers, reports, proposals, and books? Do you spend a lot of time formatting documents instead of thinking and writing? Do you write research papers in Microsoft Word and then need to convert them to LaTeX for your thesis? Do you write research papers in LaTeX and then need to convert them to Microsoft Word when embarking on collaborations with your colleagues from industry? Undergraduate Students: Do you need to write a research paper and don't know where to start? Do you need to collaborate with classmates on a long paper and find yourself lost in organizational details rather than immersed in the content? If you answered yes to any of these questions, Technical Writing for Teams: The STREAM Tools Handbook is for you. It provides an easy-to-learn system that streamlines individual and collaborative writing, allowing you and your teams to instantly become more productive and create the highest quality documents in a minimum amount of time.
