Making Music with Emagic Logic Audio Stephen Bennett, 2000

The Speed of Change Jan Bart Gewald, Sabine Luning, Klaas Van Walraven, 2009 In the early 1900s the motor-vehicle (car, bus, lorry or motor-cycle) was introduced in sub-Saharan Africa. Initially the plaything and symbol of colonial domination, the motor-vehicle transformed the economic and social life of the continent. Indeed, the motor-vehicle is arguably the single most important factor for change in Africa in the twentieth century. A factor for change that thus far has been neglected in research and literature. Yet its impact extends across the totality of human existence; from ecological devastation to economic advancement, from cultural transformation to political change, through to a myriad of other themes. This edited volume of eleven contributions by historians, anthropologists and social and political scientists explores aspects of the social history and anthropology of the motor-vehicle in Africa.

Make Me a Star Anastasia Brown, Brian Mansfield, 2008-04-08 Talent is not enough to make it in the music business, and the insights, tips, and techniques in Make Me A Star will give readers the edge they need to stand out to even the toughest judges - on television or anywhere in the music business. Anastasia Brown, music producer and judge of Nashville Star, provides the insight anyone wanting to make it in the music business needs to know, whether through music contests or going the traditional route. From creating a memorable first impression to planning a winning strategy for sustained success, every step of the process is addressed. Behind the scenes stories of what worked (and what didn't) from such performers as Keith Urban, Reba McEntire, Carrie Underwood, and many more show the human side of the journey. Make Me a Star helps the reader determine his or her strengths and gives advice based on those strengths. Each chapter will also include insight from top producers, agents, publicists, and stylists. They say a smart man learns from his mistakes but a wise man learns from another's mistakes. Some pitfalls are necessary for an artist's development, but not all. The stories and advice within these pages are not merely rhetoric or theory - they are hard-fought and hard-won experiences from those who've been in the trenches. ---Keith Urban
