

# Tempoteacher

**Stephen F. Moore, Julia Schnebly-Black**

Threading the Concept Debra Gordon Hedden, 2010-10-16 This book provides both preservice and seasoned music educators with a unique and powerful way of teaching. The premise of the book is to offer a pedagogical approach that emphasizes focus on conceptual learning that is sensory oriented. From the musical concepts we teach\_melody, harmony, rhythm, and form\_the teacher targets one concept per lesson (e.g., melody), and provides learning experiences in singing, listening, performing, moving, reading/writing, and improvising/composing that are all focused on only that concept. Essentially, the learners are bombarded visually, aurally, and kinesthetically, gaining a firm grasp of the concept because they have heard, sung, moved, performed, written, and created in that class, all in small time segments. The teacher has a greater ability to reach all students' learning needs and engage them in active learning in each class. The book not only offers background information about the learning process, but also specific lesson templates that serve as conceptual models for music classes.

**Rhythm Games for Perception & Cognition** Robert M. Abramson, 1997 Games are based on the principles of Emile Jacques-Dalcroze. Presents models on which teachers and students can invent their own variations ...

*Skill Building Sequence for Choral Ensembles* Jennifer Miceli, 2015-09-21 Skill Building Sequence for Choral Ensembles: Volume 1. Teacher's Guide for Children's Choir introduces an adaptable, literature-based choral music reading approach that empowers young singers with music literacy skills that point beyond the choral rehearsal and encourage independent and group music making for a lifetime.

**Teaching Music in the Twenty-first Century** Lois Choksy, 2001 For any undergraduate/graduate-level course in Music Education. Unique in both content and approach, this text offers a single-volume authoritative comparison of the four most popular music education methods used in North America--Jacques-Dalcroze, Kodály, Orff, and Comprehensive Musicianship. Its in-depth examination of the methods and underlying philosophies of each method--and its suggested lessons for each method at each grade level--will help students make educated curricular choices among methods.

**Rhythm: One on One** Stephen F. Moore, Julia Schnebly-Black, Dalcroze exercises are lessons of thrilling music improvisation. Teachers who experience Dalcroze Eurhythmics at workshops become motivated to share the experience with their students but are often unsure how to translate Dalcroze principles from group work into one-on-one activities. The authors saw this genuine need and wrote *Rhythm: One on One* to answer the question: How do I use Eurhythmics with only one?

Feel It! Robert M. Abramson, 1998 An activity book, including two CDs of musical accompaniment, from Robert Abramson, a leading authority in the principles and use of the Dalcroze method. *Feel It!* offers parents, teachers, and other caregivers a wide selection for developing behaviors that lead to cooperation, character, good listening, and body skills.

**Music in Childhood** Patricia Shehan Campbell, Carol Scott-Kassner, 1995 As inspirational as it is informative, this text combines the best of research and practical knowledge to give teachers the necessary tools to educate tomorrow's musicians. This comprehensive text presents contemporary theories and practices of music education including strategies for developing pitch, vocal, rhythmic, instrumental, listening, movement and creative responses in children. Includes chapters on technology, multiculturalism, special learners, assessment, and curriculum integration and development.

**A Program for Teaching Beginning Music Reading Skills in the High School Choral Class** Ellen Cecilia Henkel, 1976

**The American School Board Journal** William George Bruce, William Conrad Bruce, 1958  
*Gifted Children* Joy Gibson, Prue Chennells, 1976

**A Moving Experience** Jeanine M. Jacobson, 1995 The two volumes of *A Moving Experience* are correlated to The Music Tree series by Frances Clark and Louise Goss. In fact, a majority of the games are based on specific pieces from this series. The games can also be easily adapted to any

other beginning piano method. The activities presented are based on many facets of music, including: establishing a steady pulse \* distinguishing between quarter notes and half notes \* distinguishing between higher and lower \* repeated notes \* loud and soft \* phrases \* staccato and legato \* tempo \* syncopation and many more concepts.

**School Executive** ,1958
