**Four Ministries, One Jesus** Richard A. Burridge,2019 Combining the skills of a leading biblical scholar with the wisdom derived from years spent training candidates for ordination, Richard Burridge offers rich reflections on the four gospel portraits of Jesus and shows how they not only inform the calling to ordained ministry but also help sustain the practice of Christian ministry in its various dimensions. Four Ministries, One Jesus is for all who feel called to a life of Christian ministry and want to ground their calling in the teaching and example of Jesus, as provided in the four gospels. Burridge helps readers consider vital questions such as: how to sustain reading, Bible study, and theological reflection in ministry; how to extend pastoral care to people outside as well as inside the Christian community; how to care for self and family; and how to stay attuned to the Spirit by cultivating a fresh and vigorous life of prayer.

**The Allegheny Frontier** Otis K. Rice,2014-07-15 The Allegheny frontier, comprising the mountainous area of present-day West Virginia and bordering states, is studied here in a broad context of frontier history and national development. The region was significant in the great American westward movement, but Otis K. Rice seeks also to call attention to the impact of the frontier experience upon the later history of the Allegheny Highlands. He sees a relationship between its prolonged frontier experience and the problems of Appalachia in the twentieth century. Through an intensive study of the social, economic, and political developments in pioneer West Virginia, Rice shows that during the period 1730--1830 some of the most significant features of West Virginia life and thought were established. There also appeared evidences of arrested development, which contrasted sharply with the expansiveness, ebullience, and optimism commonly associated with the American frontier. In this period customs, manners, and folkways associated with the conquest of the wilderness to root and became characteristic of the mountainous region well into the twentieth century. During this pioneer period, problems also took root that continue to be associated with the region, such as poverty, poor infrastructure, lack of economic development, and problematic education. Since the West Virginia frontier played an important role in the westward thrust of migration through the Alleghenies, Rice also provides some account of the role of West Virginia in the French and Indian War, eighteenth-century land speculations, the Revolutionary War, and national events after the establishment of the federal government in 1789.

**The Making of the New Testament Documents** Edward Earle Ellis,2002 This volume identifies and investigates literary traditions and their implications for the authorship and dating of the Gospels and the letters of the New Testament. Ellis argues that the Gospels and the letters are products of the corporate authorship of four allied apostolic missions and not the creation of individual authors.

**Family Ministry Desk Reference** Patricia D. Fosarelli,2003-01-01 In groundbreaking fashion, physician and lay minister Pat Fosarelli provides this quick reference and how-to manual for pastors and church groups charged with the care of families facing difficult situations. Each chapter in this one-of-a-kind resource opens with a vignette illustrating a complex and prevalent problem facing families today and continues with a presentation of facts and figures about the problem and an outline of the physical, emotional, and spiritual challenges that are posed for family members. Immediate, suitable responses to these problems are proposed for pastors, church boards, and individuals committed to the care of families. In addition to its user-friendly format, this book includes a listing of resources to obtain even more information and an area for readers to write the names of resources in their own communities.
