**101 Best Ways to Get Ahead** Michael E. Angier,Sarah Pond,2004-12 Readers can get tips on getting ahead from individuals--such as Donald Trump, Oprah Winfrey, and Tiger Woods--who were nominated for the 101 Most Successful and Respected People in the World Today list by SuccessNet.

Carolyn 101 Carolyn Kepcher,2004-10-28 Known to the millions of viewers of the hit reality television show The Apprentice, Carolyn Kepcher attracted enormous media attention for her cool demeanor and her no-holds-barred assessments of the show's candidates in the boardroom each week. In particular, she was not shy about speaking out about her disappointment with the professional conduct of the female candidates, whom she felt too often resorted to using their sex appeal to move ahead and gain the favor of Donald Trump. But if anyone knows what to do to impress Donald Trump, it's Carolyn, his longtime employee and trusted adviser. In Carolyn 101, she reveals the secrets of her own success and provides readers with guidance for their professional lives. By looking at the types of people most often encountered in the workplace, she illustrates her advice with examples from her career -- largely within The Trump Organization -- showing readers how to: • ace an interview • ask for a raise or promotion • maintain a healthy balance between work and home life • deal with a difficult boss • spot and seize potential business opportunities • dress for success • be a strong team member or team leader Inspirational to both recent college graduates entering the workforce for the first time as well as seasoned employees looking to distinguish themselves, Carolyn 101 will show ambitious professionals what they need to do to get ahead and take their careers even further than they had imagined.

**101 Damnations** Ned Boulting,2014-11-06 Join Ned Boulting as he reports on his dozen-th Tour de France, an event in which blokes do amazing things on bikes, and, we're oft told, the biggest annual sporting event in the world. 101 Damnations is a chance to relive the 2014 race, stage for stage, fall after fall, tantrum by tantrum; just the good bits mind, without all the aerial shots of castles. Or sunflowers. (Though it does wax lyrical about some stunning Alpine scenery . . . and, with the race starting in Yorkshire, even some stunning scenery not far from Bradford). From Leeds to Paris (how often do you say that?), Ned details the minutiae of his encounters with the likes of Vincenzo Nibali, David Millar, Chris Froome, Chris Boardman (or 'Broadman' as some would have it), Marcel Kittel, Mrs Cavendish (Mark's wife), Peter Sagan and the rest. Their endeavours, achievements, humour and occasional rancour, sit alongside his own decade-long quest for the ideal end-of-race T-shirt. Ned weaves together the interesting, amusing and unheralded threads of the race itself, and reflects on his own perennial struggle to get round, get on and get by. 101 Damnations encapsulates all that is incredible -- and incredibly ordinary -- about the greatest race on earth.

*Optimizing Oracle Performance* Cary Millsap,Jeff Holt,2003-09-16 Oracle system performance inefficiencies often go undetected for

months or even years--even under intense scrutiny--because traditional Oracle performance analysis methods and tools are fundamentally flawed. They're unreliable and inefficient. Oracle DBAs and developers are all too familiar with the outlay of time and resources, blown budgets, missed deadlines, and marginally effective performance fiddling that is commonplace with traditional methods of Oracle performance tuning. In this crucial book, Cary Millsap, former VP of Oracle's System Performance Group, clearly and concisely explains how to use Oracle's response time statistics to diagnose and repair performance problems. Cary also shows how queueing theory can be applied to response time statistics to predict the impact of upgrades and other system changes. Optimizing Oracle Performance eliminates the time-consuming, trial-and-error guesswork inherent in most conventional approaches to tuning. You can determine exactly where a system's performance problem is, and with equal importance, where it is not, in just a few minutes--even if the problem is several years old. Optimizing Oracle Performance cuts a path through the complexity of current tuning methods, and streamlines an approach that focuses on optimization techniques that any DBA can use quickly and successfully to make noticeable--even dramatic--improvements. For example, the one thing database users care most about is response time. Naturally, DBAs focus much of their time and effort towards improving response time. But it is entirely too easy to spend hundreds of hours to improve important system metrics such as hit ratios, average latencies, and wait times, only to find users are unable to perceive the difference. And an expensive hardware upgrade may not help either. It doesn't have to be that way. Technological advances have added impact, efficiency, measurability, predictive capacity, reliability, speed, and practicality to the science of Oracle performance optimization. Optimizing Oracle Performance shows you how to slash the frustration and expense associated with unraveling the true root cause of any type of performance problem, and reliably predict future performance. The price of this essential book will be paid back in hours saved the first time its methods are used.

**Paratrooper: My Life with the 101st Airborne Division** Michael B. Kitz-Miller, 2015-08-17 Paratrooper is the autobiography of a young man's time with the famed 101st Airborne Division "Screaming Eagles." With not the finances to finish his senior year in college and a looming draft, it leads to his enlisting in the U.S. Army. With thoughts of Officer's Candidate School, Private Michael B. Kitz-Miller heads for a newly designed Basic Training course for soldiers planning to attend Airborne School. High performance results in Leadership School and Acting Sergeant in Advanced Infantry School. At Airborne School he is a runner-up for Honor Graduate from his original class of 1,000 soldiers. Finally, the new paratrooper boards a bus for Ft. Campbell and the 101st. His first job is as an M-60 machine gunner, scoring expert his first time on the weapons range. Numerous operations follow - Cold Eagle, Swift Strike II, Desert Strike and the surprise Operation Delawar, jumping into Iran in 1964 as part of the U.S. STRIKE Command. All produce commendations and after winning the Division Soldier-of-the-Month competition a promotion to Sergeant. He soon becomes part of the Battalion Mountaineering cadre. The rigors of Recondo School and its incredible 35 percent graduation rate follow, offering a shot at Honor Graduate. Having won Battalion and Brigade competitions, the young paratrooper enters and finds himself a finalist in the Division's Soldier-of-the-Year competition. Tough career decisions follow. The story ends with Sergeant Kitz-Miller's opportunity, 50 years later to compare key issues that confronted him as a soldier with those of today. The evaluation of Officers and NCOs, leadership and mentoring are but a few. His final chapters on Just War Theory and current Rules of Engagement provide provocative ideas about how to address our current policies on terrorist states. Above all, it is the story of a very successful Paratrooper that loved the Airborne Infantry.

A Year In Vietnam With The 101st Airborne, 1969-1970 Harry G. Enoch,2015-10-30 The author was one of many reluctant soldiers who served in the Vietnam War. Drafted out of graduate school and trained in the infantry, he spent a year with the 101st Airborne. This work is a journal of the experience, a day to day description of what it was like in a grunt unit fighting in the Central Highlands, dealing with the heat, the bugs, the rain, the endless patrolling in the villages and mountains, the ever present boredom and occasional violence. It's not all exciting action but it's always real.
