**Yesterday's Toys** Teruhisa Kitahara,1989 A pictorial review of vehicle toys operated by spring, friction, battery, or electricity.

Wind-ups, Tin Toy Dreams Teruhisa Kitahara,1985 Shows antique wind-up toys, including cars, robots, motorcycles, buses, fire engines, monsters, cowboys, street cars, airplanes, boats, and animals.

**Anime's Media Mix** Marc Steinberg,2012 Untangles the web of commodity, capitalism, and art that is anime

Millennial Monsters Anne Allison,2006-06-30 Millennial Monsters explores the global popularity of Japanese consumer culture--including manga (comic books), anime (animation), video games, and toys--and questions the make-up of fantasies and capitalism that have spurred the industry's growth.

**Toys and American Culture** Sharon M. Scott,2009-12-09 Tracing developments in toy making and marketing across the evolving landscape of the 20th century, this encyclopedia is a comprehensive reference guide to America's most popular playthings and the culture to which they belong. From the origins of favorite playthings to their associations with events and activities, the study of a nation's toys reveals the hopes, goals, values, and priorities of its people. Toys have influenced the science, art, and religion of the United States, and have contributed to the development of business, politics, and medicine. Toys and American Culture: An Encyclopedia documents America's shifting cultural values as they are embedded within and

transmitted by the nation's favorite playthings. Alphabetically arranged entries trace developments in toy making and toy marketing across the evolving landscape of 20th-century America. In addition to discussing the history of America's most influential toys, the book contains specific entries on the individuals, organizations, companies, and publications that gave shape to America's culture of play from 1900 to 2000. Toys from the two decades that frame the 20th century are also included, as bridges to the fascinating past—and the inspiring future—of American toys.

**Robots** Teruhisa Kitahara, 1983

**English Style** Suzanne Slesin, Stafford Cliff, 1984 Like English literature and English manners, the English style of decorating has been copied and admired for generations around the world. It is a style that can be found in a simple cottage with gabled roof and stucco walls, or in a grand country house filled with antique furniture and family heirlooms. It may be reflected in an elegant town house with gleaming brass Art Deco appointments, a Victorian terrace house with original William Morris wallpaper, a minimalist London flat or an attic studio furnished with graphic severity.

The Astro Boy Essays Frederik L. Schodt, 2007-07-01 The pioneering genius of Japan's "God of Comics," Osamu Tezuka (1928–89), is examined through his life's masterwork: Tetsuwan Atomu, also known as Mighty Atom or Astro Boy, a comic series featuring a cute little android who yearns to be more human. The history of Tetsuwan Atomu and Tezuka's role in it is a road map to

understanding the development of new media in Japan and the United States. Topics include Tezuka's life, the art of animation, the connection between fantasy robots and technology, spin-offs, and Astro Boy's cultural impact. Frederik L. Schodt is a translator and author of numerous books about Japan, including Manga! Manga! and Dreamland Japan. He often served as Osamu Tezuka's English interpreter. In 2009 he was received the The Order of the Rising Sun, Gold Rays with Rosette for his contribution to the introduction and promotion of Japanese contemporary popular culture.

Emerging Worlds of Anime and Manga Frenchy Lunning, 2006 This inaugural volume on anime and manga engages the rise of Japanese popular culture through game design, fashion, graphic design, commercial packaging, character creation, and fan culture. Promoting dynamic ways of thinking, along with a wealth of images, this cutting-edge work opens new doors between academia and fandom.

Space Fantasies 1:1 Fifo Stricker, 2020-10-06 This limited-edition collection of space exploration toys--from shuttles to space dogs--taps into the nostalgia and imagination of 20th-century science fiction Presented in this oversize publication are 146 aerospace-related toys from the collection of Rolf Fehlbaum, Vitra's chairman emeritus and the founder of Vitra Design Museum. Toys related to space exploration--rockets, robots and astronaut figurines--exploded in popularity in the 1930s with the success of space opera comic strips such as Buck Rogers and Flash Gordon, which portrayed

postwar fantasies of untold technological possibilities. From there, sci-fi only gained a wider audience as the Soviet/American space race began and people of all ages turned their gazes skywards to wonder about what marvels may exist beyond Earth's orbit. The toys in this volume are shown at their original size with the available packaging, organized into ten categories and arranged in chronological order by their manufacture dates. Some of the toys depict amusing conjectures for the future of aeronautical exploration such as space dogs, space elephants and even a space whale, while others are more realistic replicas of rockets in miniature. Infused with an undeniable nostalgia, this collection maintains the childlike wonder of the toys' initial audiences and invites present-day readers to both reflect on the era's technological advancements and look to the future for what discoveries may still be on the horizon.

**Hollywood Flatlands** Esther Leslie, 2020-05-05 With ruminations on drawing, colour and caricature, on the political meaning of fairy-tales, talking animals and human beings as machines, Hollywood Flatlands brings to light the links between animation, avant-garde art and modernist criticism. Focusing on the work of aesthetic and political revolutionaries of the inter-war period, Esther Leslie reveals how the animation of commodities can be studied as a journey into modernity in cinema. She looks afresh at the links between the Soviet Constructivists and the Bauhaus, for instance, and those between Walter Benjamin and cinematic abstraction. She also provides new

interpretations of the writings of Siegfried Kracauer on animation, shows how Theodor Adorno's and Max Horkheimer's film viewing affected their intellectual development, and reconsiders Sergei Eisenstein's famous handshake with Mickey Mouse at Disney's Hyperion Studios in 1930.

**Listen! the Wind** Anne Morrow Lindbergh, 1956

**The Big Book of Tin Toy Cars** Ron Smith, William C. Gallagher, 2003-08-30  
Features hundreds of tin toy passenger cars, sports cars, concept or dream vehicles, and boxed car and trailer sets, all from toy makers around the world. The toys represent cars of the 1900s to the 1970s, with a major emphasis on toys produced in Japan during the 1950s and 1960s. Captions include the make, model, year, body style, size, graphic markings, operation description, producing company, country of origin, trademarks, scarcity ratings, and current values.

**The Big Book of Tin Toy Cars** Ron Smith, William C. Gallagher, 2004-01-01 This comprehensive and thoroughly enjoyable reference features hundreds of tin toy cars from toy makers around the world. Included are toys from Argentina, Brazil, Canada, China, France, Germany, Great Britain, India, Italy, Japan, Korea, Mexico, Spain, Taiwan, and the United States. The toys represent cars of the 1900s to the 1970s, with a major emphasis on toys produced in Japan during the 1950s and 1960s -- the peak period for toy cars made from tin. Showcased are commercial delivery and public service vehicles organized alphabetically by make, as well as hot rods, jalopies, and race cars. A

companion volume features passenger, sports, and concept vehicles. With over 1,140 photographs of toys and detailed information not previously published, this is the most complete work in the field. Each listing contains the make, model, year, body style, size, graphic markings, operation description, producing company, country of origin, trademarks, a scarcity rating, and current values based on condition. Many photos feature the original boxes. A list of the toy companies and their respective marks rounds out this valuable collectors guide. Return to your childhood with this delightful look at colorful toy cars produced in tin!

**Japan After Japan** Tomiko Yoda, Harry Harootunian, 2006-10-04 Scholars of history, anthropology, literature, and film explore the transformations in Japanese politics, culture, and society since Japans recession of the early 1990s.

**Japan in Print** Mary Elizabeth Berry, 2006-02-16 A quiet revolution in knowledge separated the early modern period in Japan from all previous time. After 1600, self-appointed investigators used the model of the land and cartographic surveys of the newly unified state to observe and order subjects such as agronomy, medicine, gastronomy, commerce, travel, and entertainment. They subsequently circulated their findings through a variety of commercially printed texts: maps, gazetteers, family encyclopedias, urban directories, travel guides, official personnel rosters, and instruction manuals for everything from farming to lovemaking. In this original and gracefully

written book, Mary Elizabeth Berry considers the social processes that drove the information explosion of the 1600s. Inviting readers to examine the contours and meanings of this transformation, Berry provides a fascinating account of the conversion of the public from an object of state surveillance into a subject of self-knowledge. *Japan in Print* shows how, as investigators collected and disseminated richly diverse data, they came to presume in their audience a standard of cultural literacy that changed anonymous consumers into an us bound by common frames of reference. This shared space of knowledge made society visible to itself and in the process subverted notions of status hierarchy. Berry demonstrates that the new public texts projected a national collectivity characterized by universal access to markets, mobility, sociability, and self-fashioning.

*Bicycle Citizens* Robin M. LeBlanc, 2023-09-01 While the typical Japanese male politician glides through his district in air-conditioned taxis, the typical female voter trundles along the side streets on a simple bicycle. In this first ethnographic study of the politics of the average female citizen in Japan, Robin LeBlanc argues that this taxi-bicycle contrast reaches deeply into Japanese society. To study the relationship between gender and liberal democratic citizenship, LeBlanc conducted extensive ethnographic fieldwork in suburban Tokyo among housewives, volunteer groups, consumer cooperative movements, and the members of a committee to reelect a female Diet member who used her own housewife status as the key to victory. LeBlanc argues that

contrary to popular perception, Japanese housewives are ultimately not without a political world. Full of new and stimulating material, engagingly written, and deft in its weaving of theoretical perspectives with field research, this study will not only open up new dialogues between gender theory and broader social science concerns but also provide a superb introduction to politics in Japan as a whole.

**Chinese Femininities, Chinese Masculinities** Susan Brownell, Jeffrey N. Wasserstrom, 2002 Chinese Literature: Lydia H. Liu

Mapping Early Modern Japan Marcia Yonemoto, 2003-04-21 Annotation This is a book about geographical imagination through the prism of maps, travel accounts, fiction, and other cultural works that helped fashion understandings of space and place in early modern Japan.

**Republican Beijing** Madeleine Yue Dong, 2003-08-04 The first comprehensive history of Republican Beijing, with a focus on social and cultural life in the city. This book examines how Republican Beijing, through the very processes of modernization and the material and cultural practices of recycling, acquired its identity as a consummately traditional Chinese city.
