POK POK The Drinking Food of Thailand Andy Ricker,JJ Goode,2017-10-31 A cookbook featuring 50 recipes for Thai drinking food--an entire subset of Thai cooking that is largely unknown in the United States yet boasts some of most craveable dishes in the Thai canon, inspired by Andy Ricker's decades in Thailand and his beloved restaurant, Whiskey Soda Lounge. A celebration of the thrill and spirit of Thai drinking food, Andy Ricker's follow-up to Pok Pok brings the same level of authority, with a more laid-back approach. Just as America has salted peanuts, wings, and nachos, Thailand has its own roster of craveable snacks: spicy, salty, and sour, they are perfect accompaniments for a few drinks and the company of good friends. Here, Ricker shares accessible and detailed recipes for his favorites: phat khii mao, a fiery dish known as Drunkard's stir-fry; kai thawt, Thai-style fried chicken; and thua thawt samun phrai, an addictive combination of fried peanuts with makrut lime leaf, garlic, and chiles. Featuring stories and insights from the Thai cooks who taught Ricker along the way, this book is as fun to read as it is to cook from, and will become a modern classic for any lover of Thai cuisine.

Hot Thai Kitchen Pailin Chongchitnant,2016-03-08 The definitive Thai cookbook from a YouTube star! Growing up in Thailand, Pailin Chongchitnant spent her childhood with the kitchen as her playground. From a young age, she would linger by the stove, taking in the sight of snowy white coconut being shredded, the smell of lemongrass-infused soups, and the sound of the pestle pounding against the granite mortar. Years later, as a Cordon Bleu-educated chef in San Francisco, Pailin vividly remembered the culinary experiences of her youth. And so, on YouTube, Hot Thai Kitchen was born. Combining her love of teaching with her devotion to Thai food, Pailin immediately connected with thousands of fans who wanted a friend and educator. In this much-anticipated cookbook, Pailin brings her signature warmth and impressive technique to Thai food lovers everywhere. She begins by taking readers on a beautifully photographed trip to Thailand to explore the culinary culture and building blocks central to Thai food. With foolproof and easy-to-follow instructions, Pailin breaks down the key ingredients, flavours, equipment, and techniques necessary to master authentic Thai cooking. Then, she shares her must-make recipes for curries, soups, salads, and stir-fries, including entire chapters on vegetarian and vegan dishes, dips and dipping sauces, and sumptuous Thai desserts. With QR codes to video tutorials placed throughout the book, you'll be able to connect with Pailin online, too. Military Modernisation in Southeast Asia after the Cold War Shang-Su Wu,2024-04-01 Southeast Asian countries represent a wide range of approaches to military modernisation due to their great diversity in politics, economies, geography and other factors. Bounded by the Pacific and Indian Oceans and located between China and India is the setting for the geostrategic impacts of military modernisation in Southeast Asian countries. Differing from previous research focused on military acquisition, this book additionally covers retention of assets and carefully examines the ageing issues that affect readiness and capabilities. In doing so, it provides a comprehensive view of military modernisation. This book also compares each country's situation in the region in terms of military strength and security challenges to elaborate on the geostrategic impacts of military modernisation. The ten cases of military modernisation in the post-Cold War context provide rich content for readers to explore the evolution of military modernisation in developing countries after 1991. This book sheds light on security studies of Southeast Asia and is a useful resource for academic researchers, policy-makers and defence practitioners.

Branding Authoritarian Nations Petra Alderman,2023-07-28 Branding Authoritarian Nations offers a novel approach to the study of nation branding as a strategy for political legitimization in authoritarian regimes using the example of military-ruled Thailand. The book argues that nation branding is a political act that is integral to state legitimization processes, particularly in the context of authoritarian regimes. It applies its alternative reading of nation branding to eight different sectors: tourism, economy, foreign direct investment, foreign policy, education, culture, public relations, and the private sector. The author explains that nation branding produces specific kinds of applied national myths, referred to as 'strategic national myths.' She shows that nation branding is an inherently inward-looking strategy aimed at shaping the social attitudes and behaviours of the nation's citizens in line with the government's domestic agenda and legitimization needs. Providing the first comprehensive analysis of nation branding in Thailand and the first book-length account of the country's political developments since the 2014–2019 military rule, the book is primarily aimed at academics in the disciplines of politics, international relations, communication, and area studies as well as business, cultural, and intercultural studies.

Managing Conflicts in a Globalizing ASEAN Mikio Oishi,2019-11-11 This book investigates the patterns of conflict management in contemporary Southeast Asia. The region has long been characterized by the twin process of state-formation and nation-building, which has been responsible for most of the region's intrastate and interstate conflicts. While this process is still ongoing, regional conflicts and their management are increasingly affected by globalisation, which not only serves as a new source of, or exacerbating factor to, conflict, but also makes new instruments available for conflict management. Employing the concepts of incompatibility management and mediation regime, the book analyses the management of seven conflicts in the region: the Rohingya crisis and the Kachin conflict in Myanmar, the Khmer Krom conflict in Vietnam, the West Papua conflict in Indonesia, the political conflict in Thailand, the Mekong River conflicts involving five Southeast Asian countries and China and the transboundary haze problem emanating from Indonesia. The efforts to manage each of them are imagined as constituting a mediation regime, and its effectiveness is assessed in terms of good governance. Among the findings of the book is that the measures of manoeuvring around incompatibilities are employed predominantly in managing regional conflicts. In intrastate conflicts, which mostly involve ethnic minorities, the authorities first aim to eliminate, or impose its own position on, ethnic parties. When this strategy proves unsuccessful, they have no choice but manoeuvre around incompatibilities, which may eventually open up a space for mutual learning. In interstate conflicts, the manoeuvring around strategy

works in a more straightforward manner, contributing to regional stability. However, the stability is achieved at the cost of local communities and the natural environment, which absorb the incompatibilities in conflict.

Video Verification in the Fake News Era Vasileios Mezaris,Lyndon Nixon,Symeon Papadopoulos,Denis Teyssou,2019-09-17 This book presents the latest technological advances and practical tools for discovering, verifying and visualizing social media video content, and managing related rights. The digital media revolution is bringing breaking news to online video platforms, and news organizations often rely on user-generated recordings of new and developing events shared in social media to illustrate the story. However, in video, there is also deception. In today's fake news era, access to increasingly sophisticated editing and content management tools and the ease with which fake information spreads in electronic networks, require the entire news and media industries to carefully verify third-party content before publishing it. As such, this book is of interest to computer scientists and researchers, news and media professionals, as well as policymakers and data-savvy media consumers.

Education in Thailand Gerald W. Fry,2018-11-01 This interdisciplinary book offers a critical analysis of Thai education and its evolution, providing diverse perspectives and theoretical frameworks. In the past five decades Thailand has seen impressive economic success and it is now a middle-income country that provides development assistance to poorer countries. However, educational and social development have lagged considerably behind its globally recognized economic success. This comprehensive book covers each level of education, such as higher and vocational/technical education, and such topics as internationalization, inequalities and disparities, alternative education, non-formal and informal education, multilingual education, educational policy and planning, and educational assessment. The 25 Thai and 8 international contributors to the volume include well-known academics and practitioners. Thai education involves numerous paradoxes, which are identified and explained. While Thailand has impressively expanded its educational system quantitatively with much massification, quality problems persist at all levels. As such, the final policy-oriented summary chapter suggests strategies to enable Thailand to escape "the middle income trap" and enhance the quality of its education to ensure its long-term developmental success.

Reinventing Thailand Pavin Chachavalpongpun,2010 From 2001 to 2006, Prime Minister Thaksin Shinawatra transformed Thailand's international role from one of obscurity into a kind of regional hegemon. Thaksin's diplomatic ambitions were reflected in his myriad of grandiose foreign policy initiatives, designed to locate Thailand at the forefront of regional politics and reinstall the Thai sphere of influence over weaker neighbouring states. He abolished the traditional bending-with-the-wind foreign policy, revamped the Thai Foreign Ministry, and empowered Thai envoys through the CEO Ambassadors programme. But in this process, Thaksin was accused of exploiting foreign policy to enrich his business empire. Thaksin's reinvention of Thailand as an up-and-coming regional power was therefore tainted by conflicts of interest and the absence of ethical principles in the country's foreign policy.

America Goes Hawaiian Geoff Alexander,2018-12-31 How did Hawaiian and Polynesian culture come to dramatically alter American music, fashion and decor, as well as ideas about race, in less than a century? It began with mainland hula and musical performances in the late 19th century, rose dramatically as millions shipped to Hawaii during the Pacific War, then made big leap with the advent of low-cost air travel. By the end of the 1950s, mainlanders were hosting tiki parties, listening to exotic music, lazing on rattan furniture in Hawaiian shirts and, of course, surfing. Increasingly, they were marrying people outside of their own racial groups as well. The author describes how this cultural conquest came about and the people and events that led to it.

Believing in Bits Simone Natale,Diana Pasulka,2019-09-02 Believing in Bits advances the idea that religious beliefs and practices have become inextricably linked to the functioning of digital media. How did we come to associate things such as mindreading and spirit communications with the functioning of digital technologies? How does the internet's capacity to facilitate the proliferation of beliefs blur the boundaries between what is considered fiction and fact? Addressing these and similar questions, the volume challenges and redefines established understandings of digital media and culture by employing the notions of belief, religion, and the supernatural.
