*Coercion* Kelly M. Greenhill, Peter Krause, 2018 In 'Coercion', leading international relations scholars Kelly M. Greenhill and Peter Krause have gathered together an eminent cast of contributors to produce what promises to be a field-shaping work on one of IR's most essential subjects: coercion, whether in the form of compellence, deterrence, or a mix of the two. The volume moves beyond these traditional premises and examines the critical issue of coercion in the 21st century, capturing fresh theoretical and policy relevant developments and drawing upon data and cases from across time and around the globe.

Additionally, many universities and educational institutions have their own digital libraries that provide free access to

PDF books and manuals. These libraries often offer academic texts, research papers, and technical manuals, making them invaluable resources for students and researchers. Some notable examples include MIT OpenCourseWare, which offers free access to course materials from the Massachusetts Institute of Technology, and the Digital Public Library of America, which provides a vast collection of digitized books and historical documents.
