The Worlds of Sherlock Holmes Andrew Lycett, 2023-10-05 Questing was Sherlock Holmes's business. He famously adopted the latest forensic techniques, channelled the Victorian passion for enquiry, kept abreast of the key scientific breakthroughs of his age, and conducted his investigations in an enigmatic and stylised manner. And the brains behind it all was, of

course, the great Arthur Conan Doyle. In this deep dive into the contemporary world of Holmes and Conan Doyle, biographer Andrew Lycett explores all that encompasses the world of the great detective – tracing the infamous character's own interests, personality and mythologised biography alongside that of his creator's. From the Victorian crazes for detection and séance, to contemporary developments in science and psychology, Lycett weaves together everything that inspired Conan Doyle in creating the world's most famous detective and one of fiction's most enduring, enigmatic and recognisable characters.

The Adventures of Sherlock Holmes is a collection of twelve short stories by Arthur

Conan Doyle, first published on 14 October 1892. It contains the earliest short stories featuring the consulting detective Sherlock Holmes, which had been published in twelve monthly issues of The Strand Magazine from July 1891 to June 1892. The stories are collected in the same sequence, which is not supported by any fictional chronology. The only characters common to all twelve are Holmes and Dr. Watson and all are related in the first-person narrative from Watson's point of view.

We Must Have Certainty J. Kenneth Van Dover, 2005
We Must Have Certainty surveys the development of the genre of the detective story from its origins in the mid-nineteenth century to its current profile in the early twenty-first century. It locates a principal appeal of the genre in the nature of the world that the detective necessarily inhabits: a world of more or less realistic violence and excitement and, at the same time, a world that always, in the end, makes sense. It suggests that there is a significance to a popular narrative formula that requires that an initial world of suspicion and uncertainty be inevitably transformed by the detective into a world of clarity and order. Though scholarship in the field is acknowledged, the author's citations are most often from detective stories themselves. The essays are written in an accessible style; those who have read a few novels in the genre, as well as those who have read many, will find the book stimulating and provocative.

56 Sherlock Holmes Stories in 56 Days Charlotte Walters, 2016-12-15 To celebrate the release of her novel *Barefoot on Baker Street*, Charlotte Anne Walters undertook the task of reading and reviewing one of the original Sherlock Holmes short stories every day until she had completed all 56. The reviews were posted daily on her blog and attracted viewers from all over the world. The

reviews are full of humour and Holmesian insight, ending in a score out of ten for each story. This book contains all 56 blogs plus additional material including reviews of Sir Arthur Conan Doyle's four Holmes novels. Although it was a pleasure for a life-long Holmes admirer to re-visit the stories, trying to do this on top of holding down a busy full-time job and family commitments was a big challenge - resulting in some stressful but comical moments detailed in the blogs. Even Mr Walters couldn't resist throwing in a few comments of his own. Charlotte is donating all her royalties from this publication to the Undershaw Preservation Trust, a charity striving to protect and restore the former home of Sir Arthur Conan Doyle - saveundershaw.com.

Doctors' Stories Kathryn Montgomery

Hunter, 2020-06-30 A patient's job is to tell the physician what hurts, and the physician's job is to fix it. But how does the physician know what is wrong? What becomes of the patient's story when the patient becomes a case? Addressing readers on both sides of the patient-physician encounter, Kathryn Hunter looks at medicine as an art that relies heavily on telling and interpreting a story--the patient's story of illness and its symptoms.

His Last Bow Sir Arthur Conan Doyle, 2009-01-01 Arthur Conan Doyle's *His Last Bow* collects together eight Sherlock Holmes stories. Originally called *Reminiscences of Sherlock Holmes* and not containing the title story *His Last Bow*, later editions of this book added that final story and changed the title. When the *Memoirs of Sherlock*

Holmes were first sold America, the publishers removed *The Adventure of the Cardboard Box*, considering its dealing with adultery to be too scandalous for the American public. The story was not released in the United States until year later, when it was included in *His Last Bow*.

Cinema of Collaboration Mariana Ivanova, 2019-10-03 From their very inception, European cinemas undertook collaborative ventures in an attempt to cultivate a transnational "Film-Europe." In the postwar era, it was DEFA, the state cinema of East Germany, that emerged as a key site for cooperative practices. Despite the significant challenges that the Cold War created for collaboration, DEFA sought international prestige through various initiatives. These ranged from film exchange in occupied Germany to partnerships with Western producers, and from coproductions with Eastern European studios to strategies for film co-authorship. Uniquely positioned between East and West, DEFA proved a crucial mediator among European cinemas during a period of profound political division.

Mastermind Maria Konnikova, 2013-12-31 The New York Times bestselling guide to thinking like literature's greatest detective. Steven Pinker meets Sir Arthur Conan Doyle (Boston Globe), by the author of *The Confidence Game*. No fictional character is more renowned for his powers of thought and observation than Sherlock Holmes. But

is his extraordinary intellect merely a gift of fiction, or can we learn to cultivate these abilities ourselves, to improve our lives at work and at home? We can, says psychologist and journalist Maria Konnikova, and in *Mastermind* she shows us how. Beginning with the “brain attic”—Holmes’s metaphor for how we store information and organize knowledge—Konnikova unpacks the mental strategies that lead to clearer thinking and deeper insights. Drawing on twenty-first-century neuroscience and psychology, *Mastermind* explores Holmes’s unique methods of ever-present mindfulness, astute observation, and logical deduction. In doing so, it shows how each of us, with some self-awareness and a little practice, can employ these same methods to sharpen our perceptions, solve difficult problems, and enhance our creative powers. For Holmes aficionados and casual readers alike, Konnikova reveals how the world’s most keen-eyed detective can serve as an unparalleled guide to upgrading the mind.

His Last Bow Sir Arthur Conan Doyle, 1917

The Critical Reception of Sir Arthur Conan Doyle

Laurence W. Mazzeno, 2023 Examines both academic and popular assessments of Conan Doyle's work, giving pride of place to the Holmes stories and their adaptations, and also attending to the wide range of his published work. Twenty-first-century readers, television viewers, and moviegoers know Arthur Conan Doyle as the creator of Sherlock Holmes, the world's most recognizable fictional detective. Holmes's enduring popularity has kept Conan Doyle in the public eye. However, Holmes has

taken on a life of his own, generating a steady stream of critical commentary, while Conan Doyle's other works are slighted or ignored. Yet the Holmes stories make up only a small portion of Conan Doyle's published work, which includes mainstream and historical fiction; history; drama; medical, spiritualist, and political tracts; and even essays on photography. When Doyle published - whatever the subject - his contemporaries took note. Yet, outside of the fiction featuring Sherlock Holmes, until recently relatively little has been done to analyze the reception Conan Doyle's work received during his lifetime and since his death. This book examines both academic and popular assessments of Conan Doyle's work, giving pride of place to the Holmes stories and their many adaptations for print, visual, and online media, but attending to his other contributions to turn-of-the-twentieth-century culture as well. The availability of periodicals and newspapers online makes it possible to develop an assessment of Conan Doyle's (and Sherlock Holmes's) reputation among a wider readership and viewership, thus allowing for development of a broader and more accurate portrait of Doyle's place in literary and cultural history.

The Late Victorian Gothic Hilary

Grimes, 2016-03-03 Examining the automatic writing of the spiritualist séances, discursive technologies like the telegraph and the photograph, various genres and late nineteenth-century mental science, this book shows the failure of writers' attempts to use technology as a way of translating the supernatural at the fin

de siècle. Hilary Grimes shows that both new technology and explorations into the ghostly aspects of the mind made agency problematic. When notions of agency are suspended, Grimes argues, authorship itself becomes uncanny. Grimes's study is distinct in both recognizing and crossing strict boundaries to suggest that Gothic literature itself resists categorization, not only between literary periods, but also between genres. Treating a wide range of authors - Henry James, Rudyard Kipling, Arthur Conan Doyle, George Du Maurier, Vernon Lee, Mary Louisa Molesworth, Sarah Grand, and George Paston - Grimes shows how fin-de-siècle works negotiate themes associated with the Victorian and Modernist periods such as psychical research, mass marketing, and new technologies. With particular attention to texts that are not placed within the Gothic genre, but which nevertheless conceal Gothic themes, *The Late Victorian Gothic* demonstrates that the end of the nineteenth century produced a Gothicism specific to the period.

Polish Film Charles Ford, Robert Hammond, 2015-05-07 When the Lumière brothers introduced the motion picture in 1895, Poland was a divided and suffering nation—yet Polish artists found their way into the new world of cinema. Boleslaw Matuszewski created his first documentary films in 1896, and Poland's first movie house was established in 1908. Despite war and repression, Polish cinema continued to grow and to reach for artistic heights. The twentieth century closed with new challenges, but a new generation of Polish filmmakers stood ready to meet them. Here

is a complete history of the Polish cinema through the end of the twentieth century, with special attention to political and economic contexts.
