*Astrology Activated* Serra Night,2019-09-07 Has anyone ever asked you, What's your sign? Do you answer them with your Sun sign? Or do you expand their knowledge by telling them not only your Sun sign, but also the signs where your Ascendant and Moon are? If you do, that's pretty impressive. If you don't, read on. If you want to learn about the art of Astrology and what the stars say about your Sun sign and the planets that influence how you act and interact with others, then this book, *Astrology Activated: Cutting Edge Insight Into the Ancient Art of Astrology (Understanding Zodiac Signs and Horoscopes)* is a must-read for you! Astrology was first created by astronomers in the 18th Century B.C. in Mesopotamia by the Babylonians. The first astronomers studied Astronomy and complemented their studies with Astrology. Astronomers created astrological charts to predict the change in seasons and celestial events that recurred every year. The combination of the astrological charts and the movements of the planets had led them to consider that astronomy and astrology were actually the same science for 2,000 years. In Astrology, the planets are the most important carriers of the role and destiny of a person's horoscope. Each planet has its own identity and impact of where they are at the time of a person's birth. Your Sun sign is the most prominent because it is the planet that is closest to the sun when you are born. So many aspects of your birth can be discovered by your natal chart. Physical appearance, constitution, and health, whether you're romantic, pragmatic, mysterious, full of energy, or slow. Also, plodding can be revealed when we learn about our fully drawn astrological chart. Today, millions of people follow and use Astrology for their own purposes, whether they want to have a natal chart drawn for themselves or a member of their family. They may also have their Astrology reading drawn twice a year-on their birthday and the new year. Horoscopes are printed in nearly every newspaper or can be found on a myriad of websites online to follow each day and are read by millions. There are some who plan their business dealings or trips abroad around what their horoscope says, while others read it on a casual basis out of curiosity. Some of the highlights of *Astrology Activated* are: How the Planets affect the Astrological chart and the Zodiac signs A review of the 12 signs of the Zodiac and which planet rules each sign How a natal chart is drawn, an explanation of the Houses, Zodiac signs, and each element that affects each sign Your Sun sign and how it relates to your birth and the characteristics that go with it How to determine your Moon sign and your Rising sign Find out if your birth date falls on a cusp and how you're affected by both signs Find out if you're reading your horoscope correctly-are you just focusing on your Sun sign? **Fundamentals of Astrology** M. Ramakrishna Bhat,2013-01-01 Astrology is both Science and Art. Hence only the talented can appreciate and understand it. Rightly Visnugupta declares that nobody other than a sage can master the ocean-like science of astrology. The great Varahamihira declares, No sin will creep into a place that is sanctified by the presence of a true astrologer. No person who studies and divines the course of destiny will ever be found in hell but will reside permanently in the world of Brahman.

This book brings to the fore not only the rationality of astrology but also the nature and structure of the correct knowledge that our forefathers possessed regarding the predictable influences of planets on human beings, and gives a spiritual bias to astrology. The reader is taken step by step in this work from the rudiments Viz., the distribution of constellations in the Zodiacal belt which is divided into twelve Signs, and the planetary hierarchy, through the method of calculating the ascendant and other houses of a natal chart, assessment of the strengths, influences, aspects, affliction, mutual relations etc., of the planets, to the final stage of reading the brighter and darker sides of the subject's life, his chances of success and failure, their periods, ingress of the soul into the mortal coil and exit there from as well as its departure to other worlds according to its karma. In this book, an attempt has been made to give a good account of the science of astrology, with a view to making the reader a good and true astrologer. It also shows that astrology does not make a man a fatalist, helpless automation in the hands of a merciless Fate. It should, on the other hand, help him to take to self-exertion and self-help. This hoary lore, according to the author, is to be practised not for selfish ends but to guide the needy and the distressed, to remove the cause of their suffering and to turn their attention towards God.

In *Learning Astrology*, Damian Sharp provides a fun, fresh approach to understanding this ancient art, making it easily accessible to those who are completely new to the subject and/or put off by older,

**First Zodiac Triangle** Aditya Kumar Daga, 2019-09-10 This Book is based on The First Golden Triangle in Astrology: It has been proved and accepted in whatever manner that the First Triangle of the Horoscope is the most vibrant, most deciding, most workable and most analyzing triangle in the community of Astrologers around the world. The First House, The Fifth House and the Ninth House- These three houses not only dominate the horoscope but dominate the whole life of the subject. Even it has been evaluated that the Past Birth and the Next birth could be clearly judged and predicted by the 9th and 5th Houses or alternatively by the 5th House and 9th House. It has been researched for long periods in the past consistently that the First triangle only shape and structure the person's life whether present or past or Future. Similarly the First Triangle shape and structure the present, past and Future in the

present life also . So the three house has been accepted as the benefic houses in all respect almost by the all astrologers in all religions and the countries. Because it even has power if strong and their lords placed in proper and good houses to suppress and eliminate the bad effects and impacts of the other houses and their lords.I have tried my best to present some new and some popular concepts o this houses in a compact manner. Since the First Zodiac triangle has three Fiery signs - Aries, Leo and Sagittarius so people belong to these three signs has almost similar habits, attitudes, diseases, life path and many other traits. So in last section I have elaborated the ARIES only to avoid many repetitions . I hope beginners, professional and consultants continue to work on other two zodiac signs of this Triangle -Leo & Sagittarius to develop their practice on the basis of my readings.My intention is to provide the readers a very comprehensive guide . Even after putting my sincere efforts in this regard if readers feel unsatisfied they are hereby requested to note & mention me lapses which might be there inadvertently. This is exactly not a Book but a research paper compiled in the form of of a Book based upon my many years of practical experience in this field preparing and reading Horoscopes as per true natal charts as well as charts based on Sun Signs as per Vedic and other beliefs. I have tried to mention here the most common and popular view of the great Astrologers. Though I myself find lot of anomalies and contradictions in this theory. But sometimes I find consistency and exactness of the vedic texts.A person can enlighten himself just by going through it once. A must Read Book For all Novice, Beginners & Professionals.Certain Complex Questions start revolving around you when you get shock from destiny without any of your fault and then you start realizing that there is some super power, some environmental string or something which you are unable to recognize which is controlling your day today life or life on occasions or intermittently and that something may be your Destiny or may be your negative energy or may be so called Lord or God or some super natural power but till you start realizing it there get much delay and you loss many a thing.
