Cycling For Dummies - UK Gavin Wright,Ben Williams,2013-03-29 Whether you're looking to hit the open road, scream down the side of a mountain, or simply take the kids out for a ride, Cycling For Dummies, UK Edition, covers all your needs. Topics include choosing the right bike and accessories, staying safe — around town and on the trails — training to improve speed and endurance, making adjustments and repairs, and much more (including answering the basic questions you may be too embarrassed to ask in your local shop). Cycling For Dummies, UK Edition is the perfect place to start when you want to take up this great sport.

Ultra-Distance Cycling Simon Jobson,Dominic Irvine,2017-04-06 This expert guide to competitive ultra-distance cycling is all riders need to cycle a very long way, fast. Ultra-distance events are among some of the greatest challenges a cyclist can face, with riders spending hundreds of miles in the saddle over a 24-hour period, battling the elements and overcoming both physical and mental hardships. What was once elite is now commonplace, and today thousands of dedicated riders cycle up to and over 100 miles on ultra-distance rides every week. To add to this, the increasing profile of major events such as Race Across of America (RAAM), Race Across the Alps (RATA) and Ultracycling Dolomitica means that many more riders are being drawn to the challenge of 'non-stop' endurance cycling. Ultra-Distance Cycling is the first mainstream book to offer practical, authoritative guidance to cyclists looking to step-up to long-distance endurance events, as well as expert advice to established competitors seeking a competitive advantage. Written by a leading sports scientist and a record-breaking ultra-distance cyclist, this unique book is both science and experience based, offering practical and performance-enhancing insights on a wide range of areas. These include physical training and mental preparation, guidance on your support network, advice on PR and sponsorship, as well as all-important sections on equipment, nutrition and the major ultra-distance cycling events. This definitive manual provides riders with everything they need to ride longer and faster, and to excel at ultra-distance cycling events.

Digital Media Stacey O'Neal Irwin,2016-04-29 Digital Media: Human-Technology Connection examines what it is like to be alive in today's technologically textured world and showcases specific digital media technologies that makes this kind of world possible. So much of human experience occurs through digital media that it is time to pause and consider the process and proliferation of digital consumption and humanity's role in it through an interdisciplinary array of sources from philosophy, media studies, film studies, media ecology and philosophy of technology. When placed in the interpretive lens of artifact, instrument, and tool, digital media can be studied in a uniquely different way, as a kind of technology that pushes the boundaries on production, distribution and communication and alters the way humans and technology connect with each other and the world. The book is divided into two sections to provide overarching definitions and case study specifics. Section one, Raw Materials, examines pertinent concepts like digital media, philosophy of technology, phenomenology and postphenomenology by author Stacey O Irwin. In Section Two, Feeling the Weave, Irwin uses conversations with digital media users and other written materials along with the postphenomenological framework to explore nine empirical cases that focus on deep analysis of screens, sound, photo manipulation, data-mining, aggregate news and self-tracking.

Postphenomenological concepts like multistability, variational theory, microperception, macroperception, embodiment, technological mediation, and culture figure prominently in the investigation. The aim of the book is to recognize that digital media technologies and the content it creates and proliferates are not neutral. They texture the world in multiple and varied ways that transform human abilities, augment experience and pattern the world in significant and comprehensive ways.

Zen Between Two Bicycle Wheels: Eat, Pedal, Sleep Frosty Wooldridge,2020-05-26 The Ecstasy, The Energy And The Courage Of Your Journey A blank spot on the map dances with your imagination. What treasures might it hold? As you swing your leg over the top tube, your touring bike allows you unlimited freedom of flight for your body, mind and spirit. Slip your hands into your riding gloves. Grab those handlebars. Press your feet onto the pedals. Click the brake handles. Slide your derriere onto the saddle. Look toward the distant horizon that beckons your dreams. Feel the energy coursing through your body. Make that first pedal stroke downward as your thighs lift you onto adventure highway. Time means nothing now. It slips away as easily as grains of sand on a wind-swept beach. But those grains only trade places. On your bike, you move into that blank spot—new locations in the passage of time. The pedaling becomes incidental—like breathing. The hills and mountains come and go—your legs powering over them in a kind of winsome trance. Grappling with headwinds brings determination; while riding a tailwind fetches ecstasy. Rain drenches you during a bicycle adventure, yet promises a rainbow. Bicycle travel demands you dig deep into the art of living. Each challenge lets you know you're vibrantly alive. You transform into a state of bliss, much like an eagle gliding over majestic mountains. You see them soaring, just living. You soar with them as you glide down a mountain grade. Those moments present you with uncommon experiences that give your life eternal expectation. That's bicycle adventure!" Frosty Wooldridge, six continent world bicycle traveler.

Travel Plans for New Residential Developments: Insights from Theory and Practice Chris De Gruyter,2016-09-01 This thesis explores the use of travel plans for new residential developments as a tool for managing car use and encouraging the use of more sustainable forms of transport. It provides coverage of the scale of travel planning practice for new developments, industry perspectives on their development and implementation, and an assessment of their quality and effectiveness. It combines implementation theory and planning enforcement theory to identify opportunities to enhance the effectiveness of travel plans for new residential developments and to guide future travel planning practice. This thesis is useful and will appeal to both researchers and practitioners involved in transport planning for new residential developments.

Inside Computer Understanding R. C. Schank,C. K. Riesbeck,2013-10-28 First published in 1981. This book has been written for those who want to comprehend how a large natural language-understanding program works. Thirty-five professionals in Cognitive Science, mostly psychologists by training, in a summer school were taught to grapple with the details of programming in Artificial Intelligence. As a part of the curriculum designed for this project the authors created what they called micro-programs. These micro-programs were an attempt to give students the flavor of using a large AI program without all the difficulty normally associated with learning a complex system written by another person. Using the authors' parser, ELI, or story understanding program, SAM, they also gave students the micro versions of these programs, which were very simple versions that operated in roughly the same way as their larger versions, but without all the frills. Students were asked to add pieces to the programs and otherwise modify them in order to learn how they worked.

How to Live a Life of Adventure Frosty Wooldridge,2011-11-11 Praise forHow to Live a Life of Adventure After reading the first 20 chapters, I was ready to tackle a grizzly bear, wrestle a sea lion and climb Mount Everest. Not only does Wooldridge inspire you to live a maximum life, he shows you how to do it. I loved the adventures between every instructional chapter. I appreciated how thorough he was with references, key points and guides. Roger Hamilton, teacher I am a tomboy. I travel and play sports. Im also bold and sassy. This book addresses women who love to try everything once, twice and more. Wooldridge covers everything women need to know about traveling, mountain climbing, rafting, horseback riding, backpacking and much more. Sarah Gingrich, rodeo cowgirl Emile Zola said, I'm here to live out loud! Those words reflect the spirited life and writings of Frosty Wooldridge. His book reminds us that whether we trek high into the mountains or bike up hills closer to home, adventure awaits around the bend. I recommend this book for aspiring travelers as well as armchair explorers. He shows you how to make your dreams come true. Dan

Millman, Way of the Peaceful Warrior Hands down! This is the best adventure book I have ever read with stories from all over the world. But wait! Wooldridge shows you how to go adventuring to make your own stories and fill your own scrapbook with memories. Its excellent in every way! Paul Margeletta, father, weekend warrior This book is extraordinary. The information is so valuable that it should be read daily for inspiration and guidance. I had to stop myself from underlining every sentence in the book. I want to buy this life-changing book as a gift for everyone I know, especially my kids. Susan Scollozi, housewife, traveler Half way through the concepts and practices in this profound book, I realized that the author may have meant to show readers how to live a life of adventure, but it occurred to me that this book shows anyone how to lead a very happy and successful life on a day to day basis. His concepts support mental, emotional, educational and spiritual health. Every adult and kid in America needs to read this book. Its that good. Arthur Daniels, teacher How the book will benefit you! You will discover your strengths, self-confidence and passions You may engage methodical steps for moving into your own fulfilling adventure-filled life You will build steadfast convictions and personal empowerment You will find others to share your adventures You will discover which kinds of adventures excite you Check lists for men and women for every kind of adventure You will never look back with regrets
