**Mules and Men** Zora Neale Hurston, 2009-10-13 Zora Neale Hurston brings us Black America's folklore as only she can, putting the oral history on the written page with grace and understanding. This new edition of *Mules and Men* features a new cover and a P.S. section which includes insights, interviews, and more. For the student of cultural history, *Mules and Men* is a treasury of Black America's folklore as collected by Zora Neale Hurston, the storyteller and anthropologist who grew up hearing the songs and sermons, sayings and tall tales that have formed an oral history of the South since the time of slavery. Set intimately within the social context of Black life, the stories, "big old lies," songs, voodoo customs, and superstitions recorded in these pages capture the imagination and bring back to life the humor and wisdom that is the unique heritage of Black Americans.

*Invisible Man* Ralph Ellison, 2016-08-18 *Invisible Man* is a milestone in American literature, a book that has continued to engage readers since its appearance in 1952. A first novel by an unknown writer, it remained on the bestseller list for sixteen weeks, won the National Book Award for fiction, and established Ralph Ellison as one of the key writers of the century. The nameless narrator of the novel describes growing up in a black community in the South, attending a Negro college from which he is expelled, moving to New York and becoming the chief spokesman of the Harlem branch of the Brotherhood, and retreating amid violence and confusion to the basement lair of the *Invisible Man* he imagines himself to be. The book is a passionate and witty tour de force of style, strongly influenced by T.S. Eliot's *The Waste Land*, Joyce, and Dostoevsky.

**The Bizarre Careers of John R. Brinkley** R. Alton Lee, 2022-08-16 By 1926, it seemed that John R. Brinkley's experimental rejuvenation cure—transplanting goat glands into aging men—had taken the nation by storm. Never mind that Doc Brinkley's medical credentials were shaky at best and that he prescribed medication over the airwaves via his high-power radio stations. To most in the medical field, he was a quack. But to his many patients and listeners, he was a brilliant surgeon, a savior of their lost manhood and youth. His rogue radio stations, XER and its successor XERA, eventually broadcast at an antenna-shattering 1,000,000 watts and not only were a megaphone for Brinkley's lucrative quackery but also hosted an unprecedented number of then-unknown country musicians and other guests. *The Bizarre Careers of John R. Brinkley* tells the story of the infamous Goat Gland Doctor—a controversial medical charlatan, groundbreaking radio impresario, and prescient political campaigner—and recounts his amazing rags-to-riches-to-rags career. A master manipulator and skilled con artist, Brinkley left behind a patchwork of myths and unreliable personal accounts that many writers have merely perpetuated—until now. Alton Lee brings Brinkley's infamous legacy to the forefront, exploring how he ruthlessly exploited the sexual frustrations of aging men and the general public's antipathy toward medical doctors. Lee leaves no stone unturned in this account of a man who changed the course of American institutions forever.

**Born to Run** Christopher McDougall, 2010-12-09 A New York Times bestseller 'A sensation ... a rollicking tale well told' - *The Times* At the heart of *Born to Run* lies a mysterious tribe of Mexican Indians, the Tarahumara, who live quietly in canyons and are reputed to be the best distance runners in the world; in 1993, one of them, aged

57, came first in a prestigious 100-mile race wearing a toga and sandals. A small group of the world's top ultra-runners (and the awe-inspiring author) make the treacherous journey into the canyons to try to learn the tribe's secrets and then take them on over a course 50 miles long. With incredible energy and smart observation, McDougall tells this story while asking what the secrets are to being an incredible runner. Travelling to labs at Harvard, Nike, and elsewhere, he comes across an incredible cast of characters, including the woman who recently broke the world record for 100 miles and for her encore ran a 2:50 marathon in a bikini, pausing to down a beer at the 20 mile mark.

**Cities of Salt** 'Abd al-Raḥmān Munif, 1988 Spell-binding evocation of Bedouin life in the 1930s when oil is discovered by Americans in an unnamed Persian Gulf kingdom.

*Handbook of Brewing* Hans Michael Eßlinger, 2009-04-22 This comprehensive reference combines the technological know-how from five centuries of industrial-scale brewing to meet the needs of a global economy. The editor and authors draw on the expertise gained in the world's most competitive beer market (Germany), where many of the current technologies were first introduced. Following a look at the history of beer brewing, the book goes on to discuss raw materials, fermentation, maturation and storage, filtration and stabilization, special production methods and beer mix beverages. Further chapters investigate the properties and quality of beer, flavor stability, analysis and quality control, microbiology and certification, as well as physiology and toxicology. Such modern aspects as automation, energy and environmental protection are also considered. Regional processes and specialties are addressed throughout the entire book, making this a truly global resource on

brewing.

Sure, Best of Chicago will tell readers who has the best holiday-themed theatrical production. But it also has the best hipster-free bar in Wicker Park. The best Middle Eastern restaurant, the best Montreal-style poutine in Chicago, the best place to drink in the forest preserves, the best unrecognized landmark to Chicago's gay community, the best place to meet strangers over breakfast, and so on, through more than 500 entries. Entries are organized in five broad categories, including City Life, Culture & Nightlight, Food & Drink, Goods & Services, and Sports & Recreation. And not only will readers discover places to go in Chicago, but they'll learn about the city's history while enjoying a laugh or two throughout.

**Urban Rituals in Sacred Landscapes in Hellenistic Asia Minor** Christina G.

Williamson, 2021-08-04 In *Urban Rituals in Sacred Landscapes in Hellenistic Asia Minor*, Christina G. Williamson examines the phenomenon of monumental sanctuaries in the countryside of Asia Minor that accompanied the second rise of the Greek city-state in the Hellenistic period. Moving beyond monolithic categories, Williamson provides a transdisciplinary frame of analysis that takes into account the complex local histories, landscapes, material culture, and social and political dynamics of such shrines in their transition towards becoming prestigious civic sanctuaries. This frame of analysis is applied to four case studies: the sanctuaries of Zeus Labraundos, Sinuri, Hekate at Lagina, and Zeus Panamaros. All in Karia, these well-documented shrines offer valuable insights for understanding religious strategies adopted by emerging cities as they sought to establish their position in the expanding world.

**The Managerial Imperative and the Practice of**

**Leadership in Schools** Larry Cuban, 1988-01-15 With this significant new work, Larry Cuban provides a unique and insightful perspective on the bridging of the long-standing and well-known gap between teachers and administrators. Drawing on the literature of the field as well as personal experience, Cuban recognizes the enduring structural relationship within school organizations inherited by teachers, principals, and superintendents, and calls for a renewal of their sense of common purpose regarding the role of schooling in a democratic society. Cuban analyzes the dominant images (moral and technical), roles (instructional, managerial, and political), and contexts (classroom, school, and district) within which teachers, principals, and superintendents have worked over the last century. He concludes that when these powerful images and roles are wedded to the structural conditions in which schooling occurs, managerial behavior results, thus narrowing the potential for more thoughtful, effective, and appropriate leadership. Cuban then turns to consider this situation with respect to the contemporary movement for school reform, identifying significant concerns both for policymakers and practitioners. This honest, thought-provoking book by a leading scholar, writer, and practitioner in the field represents an invaluable resource—an insightful introduction for those just entering the field and a fresh, new perspective for those long-familiar with its complexities. Cuban's ethnographic approach to the development of his own career and viewpoint, as well as his highly readable style, make this a work of lasting value.
