Broadway and the Blacklist K. Kevyne Baar,2019-01-24 During the era often commonly known as McCarthyism, many motion picture and television creators were blacklisted for supposed communist ties. There remained, however, a creative outlet that still welcomed these artists--theatre. This book explores the role theatre played during this turbulent period, covering the formation of the Theatre Guild (which birthed the Group Theatre), the short-lived Federal Theatre Project, and the investigations of the motion picture and television industries, and Broadway, by the House Un-American Activities Committee (HUAC). Appendices discuss McCarthy's role and present the memos of investigator Dolores Faconti Scotti, along with a list of prominent witnesses in HUAC's Broadway hearings, and reactions by artists' unions in the decades following the blacklist.

Film Criticism, the Cold War, and the Blacklist Jeff Smith,2014-03-26 Film Criticism, the Cold War, and the Blacklist examines the long-term reception of several key American films released during the postwar period, focusing on the two main critical lenses used in the interpretation of these films: propaganda and allegory. Produced in response to the hearings held by the House Committee on Un-American Activities (HUAC) that resulted in the Hollywood blacklist, these films' ideological message and rhetorical effectiveness was often muddled by the inherent difficulties in dramatizing villains defined by their thoughts and belief systems rather than their actions. Whereas anti-Communist propaganda films offered explicit political exhortation, allegory was the preferred vehicle for veiled or hidden political comment in many police procedurals, historical films, Westerns, and science fiction films. Jeff Smith examines the way that particular heuristics, such as the mental availability of exemplars and the effects of framing, have encouraged critics to match filmic elements to contemporaneous historical events, persons, and policies. In charting the development of these particular readings, Film Criticism, the Cold War, and the Blacklist features case studies of many canonical Cold War titles, including The Red Menace, On the Waterfront, The Robe, High Noon, and Invasion of the Body Snatchers.

The World and Its Double Chris Fujiwara,2008 Otto Preminger was one of Hollywood's first truly independent producer-directors. He sought to address the major social, political, and historical questions of his time in films designed to appeal to a wide public. Blazing a trail in the examination of controversial issues such as drug addiction (The Man with the Golden Arm) and homosexuality (Advise & Consent) and in the frank, sophisticated treatment of adult material (Anatomy of a Murder), Preminger broke the censorship of the Hollywood Production Code and the blacklist. He also made some of Hollywood's most enduring film noir classics, including Laura and Fallen Angel. More than anyone else, Preminger represented the transition from the Hollywood of the studios to the decentralized, wheeling-and-dealing New Hollywood of today. Chris Fujiwara's studious, informative, often astutely argued (Gerald Peary, The Phoenix) biography follows Preminger throughout his varied career, penetrating his carefully constructed public persona and revealing the many layers of his work.

Hollywood Exile, or How I Learned to Love the Blacklist Bernard Gordon,2013-04-15 In this memoir, the American screenwriter recounts his time spent on the Hollywood blacklist in the mid-twentieth century. The Hollywood blacklist, which began in the late 1940s and ran well into the 1960s, ended or curtailed the careers of hundreds of people accused of having ties to the Communist Party. Bernard Gordon was one of them. In this highly readable memoir, he tells an engrossing insider's story of what it was like to be blacklisted and how he and others continued to work uncredited behind the scenes, writing and producing many box office hits of the era. Gordon describes how the blacklist cut short his screenwriting career in Hollywood and forced him to work in Europe. Ironically, though, his is a success story that includes the films El Cid, 55 Days at Peking, The Thin Red Line, Krakatoa East of Java, Day of the Triffids, Earth vs. the Flying Saucers, Horror Express, and many others. He recounts the making of many movies for which he was the writer and/or producer, with wonderful anecdotes about stars such as Charlton Heston, David Niven, Sophia Loren, Ava Gardner, and James Mason; directors Nicholas Ray, Frank Capra, and Anthony Mann; and the producer-studio head team of Philip Yordan and Samuel Bronston. “Gordon’s story is one of triumphing over adversity, as he managed to make a decent living and live a rather exotic life peopled with colourful characters, while maintaining his moral integrity. It’s an inspiring, fascinating read.” –Reel Ink “Gordon never pulls his punches in this anecdotal autobiography, filled with intimate details and vivid novelistic passages. A born storyteller, he writes with warmth and humor, and there's an emotional edge to his razor-sharp recall.” –Publishers Weekly

Linux Firewalls Michael Rash,2007-09-07 System administrators need to stay ahead of new security vulnerabilities that leave their networks exposed every day. A firewall and an intrusion detection systems (IDS) are two important weapons in that fight, enabling you to proactively deny access and monitor network traffic for

signs of an attack. Linux Firewalls discusses the technical details of the iptables firewall and the Netfilter framework that are built into the Linux kernel, and it explains how they provide strong filtering, Network Address Translation (NAT), state tracking, and application layer inspection capabilities that rival many commercial tools. You'll learn how to deploy iptables as an IDS with psad and fwsnort and how to build a strong, passive authentication layer around iptables with fwknop. Concrete examples illustrate concepts such as firewall log analysis and policies, passive network authentication and authorization, exploit packet traces, Snort ruleset emulation, and more with coverage of these topics: –Passive network authentication and OS fingerprinting –iptables log analysis and policies –Application layer attack detection with the iptables string match extension –Building an iptables ruleset that emulates a Snort ruleset –Port knocking vs. Single Packet Authorization (SPA) –Tools for visualizing iptables logs Perl and C code snippets offer practical examples that will help you to maximize your deployment of Linux firewalls. If you're responsible for keeping a network secure, you'll find Linux Firewalls invaluable in your attempt to understand attacks and use iptables—along with psad and fwsnort—to detect and even prevent compromises.

21st-Century TV Dramas Amy M. Damico, Sara E. Quay, 2016-02-12 In its exploration of some of the most influential, popular, or critically acclaimed television dramas since the year 2000, this book documents how modern television dramas reflect our society through their complex narratives about prevailing economic, political, security, and social issues. Television dramas have changed since the turn of the 21st century—for the good, many would say, as a result of changes in technology, the rise of cable networks, and increased creative freedom. This book approaches the new golden age of television dramas by examining the programs that define the first 15 years of the new century through their complex narratives, high production value, star power, popularity, and enthusiastic fan culture. After an introduction that sets the stage for the book's content, thematic sections present concise chapters that explore key connections between television dramas and elements of 21st-century culture. The authors explore *Downton Abbey* as a distraction from contemporary class struggles, patriarchy and the past in *Game of Thrones* and *Mad Men*, and portrayals of the dark hero protagonist in *The Sopranos*, *Dexter*, and *Breaking Bad*, as a few examples of the book's coverage. With its multidisciplinary perspectives on a variety of themes—terrorism, race/class/gender, family dynamics, and sociopolitical and socioeconomic topics—this book will be relevant across the social sciences and cultural and media studies courses.

Youth in the Fatherless Land Andrew Donson, 2010-04 The first comprehensive history of German youth in the First World War, this book investigates the dawn of the great era of mobilizing teenagers and schoolchildren for experiments in state-building and extreme political movements like fascism and communism. It investigates how German teachers could be legendary for their sarcasm and harsh methods but support the world's most vigorous school reform movement and most extensive network of youth clubs. As a result of the war mobilization, teachers, club leaders, and authors of youth literature instilled militarism and nationalism more deeply into young people than before 1914 but in a way that, paradoxically, relaxed discipline. In *Youth in the Fatherless Land*, Andrew Donson details how Germany had far more military youth companies than other nations—as well as the world's largest Socialist youth organization, which illegally agitated for peace and a proletarian revolution. Mass conscription also empowered female youth, particularly in Germany's middle-class youth movement, the only one anywhere that fundamentally pitted itself against adults. Donson addresses discourses as well as practices and covers a breadth of topics, including crime, work, sexuality, gender, family, politics, recreation, novels and magazines, social class, and everyday life.

Cold War, Cool Medium Thomas Doherty, 2005-03-10 Conventional wisdom holds that television was a co-conspirator in the repressions of Cold War America, that it was a facilitator to the blacklist and handmaiden to McCarthyism. But Thomas Doherty argues that, through the influence of television, America actually became a more open and tolerant place. Although many books have been written about this period, *Cold War, Cool Medium* is the only one to examine it through the lens of television programming. To the unjaded viewership of Cold War America, the television set was not a harbinger of intellectual degradation and moral decay, but a thrilling new household appliance capable of bringing the wonders of the world directly into the home. The cool medium permeated the lives of every American, quickly becoming one of the most powerful cultural forces of the twentieth century. While television has frequently been blamed for spurring the rise of Senator Joseph McCarthy, it was also the national stage upon which America witnessed—and ultimately welcomed—his downfall. In this provocative and nuanced cultural history, Doherty chronicles some of the most fascinating and ideologically charged episodes in television history: the warm-hearted Jewish sitcom *The Goldbergs*; the subversive threat from *I Love Lucy*; the sermons of Fulton J. Sheen on *Life Is Worth Living*; the anticommunist series *I Led 3 Lives*; the legendary jousts between Edward R. Murrow and Joseph McCarthy on *See It Now*; and the hypnotic, 188-hour political spectacle that was the Army-McCarthy hearings. By rerunning the programs, freezing the frames, and reading between the lines, *Cold War, Cool Medium* paints a picture of Cold War America that belies many black-and-white clichés. Doherty not only details how the

blacklist operated within the television industry but also how the shows themselves struggled to defy it, arguing that television was preprogrammed to reinforce the very freedoms that McCarthyism attempted to curtail.
