The Boy Scouts with the Motion Picture Players Shaler Robert, 2016-06-21 Unlike some other reproductions of classic texts (1) We have not used OCR (Optical Character Recognition), as this leads to bad quality books with introduced typos. (2) In books where there are images such as portraits, maps, sketches etc We have endeavoured to keep the quality of these images, so they represent accurately the original artefact. Although occasionally there may be certain imperfections with these old texts, we feel they deserve to be made available for future generations to enjoy.

Sailor Talk Mary K. Bercau Edwards, 2021-03-01 This book investigates the highly engaging topic of the literary and cultural significance of 'sailor talk.' The central argument is that sailor talk offers a way of rethinking the figure of the nineteenth-century sailor and sailor-writer, whose language articulated the rich, layered, and complex culture of sailors in port and at sea. From this argument many other compelling threads emerge, including questions relating to the seafarer's multifaceted identity, maritime labor, questions of performativity, the ship as 'theater,' the varied

and multiple registers of 'sailor talk,' and the foundational role of maritime language in the lives and works of Herman Melville, Joseph Conrad, and Jack London. The book also includes nods to James Fenimore Cooper, Rudyard Kipling, and Robert Louis Stevenson. Meticulous scholarly research underpins the close readings of literary texts and the scrupulously detailed biographical accounts of three major sailor-writers. The author's own lived experience as a seafarer adds a refreshingly materialist dimension to the subtle literary readings. The book represents a valuable addition to a growing scholarly and political interest in the sea and sea literature. By taking the sailor's viewpoint and listening to sailors' voices, the book also marks a clear intervention in this developing field.

Godard Colin MacCabe, 2014-02-18 Jean-Luc Godard's early films revolutionized the language of cinema. Hugely prolific in his first decade--Breathless, Contempt, Pierrot le Fou, Alphaville, and Made in USA are just a handful of the seminal works he directed--Godard introduced filmgoers to the generation of stars associated with the trumpeted sexuality of postwar movies and culture: Brigitte Bardot, Jean Seberg, Jean-Paul Belmondo, and Anna Karina. As the sixties wore on, however, Godard's life was transformed. The Hollywood he had idolized began to disgust him, and in the midst of the socialist ferment in France his second wife introduced him to the activist student left. From 1968 to 1972, Europe's greatest director worked in the service of Maoist politics, and continued thereafter to experiment on the far peripheries of the medium he had transformed. His extraordinary later works are little seen or appreciated, yet he remains one of Europe's most influential artists. Drawing on his own working experience with Godard and his coterie, Colin MacCabe, in this first biography of the director, has written a thrilling account of the French cinema's transformation in the hands of Truffaut, Rohmer, Rivette, and Chabrol--critics who toppled the old aesthetics by becoming, legendarily, directors themselves--and Godard's determination to make cinema the greatest of the arts.
