

The Broken Meow

Lynne Rae Perkins

The Broken Meow ,

The Broken Cat Lynne Rae Perkins, 2002-03-26 There are times when hearing a familiar story -- even a story about how your mother fell and broke her arm when she was a little girl -- can be comforting. And so it was for Andy, and for his cat, Frank. Because the important thing is that injuries heal. When they have healed, they become stories -- and sometimes a story with a happy ending is exactly what is needed. If you are looking for the perfect book about love and families and intergenerational support (to say nothing of cats), look no further.

Cat's Meow Dale Mayer, 2020-02-15 Book 1 of the Broken Protocols Series After a year of hell, Dani Summerland's life is just getting better when she's tossed unceremoniously a few hundred years into the future with her orange Persian cat, Charmin Marvin, in her arms. With no way to fight it, no way to go back, things are only looking to get worse fast. Breaking protocol is cause for severe consequences in the time and world Levi Blackburn lives. But, after a year of government regulation, the crackdown is easing up and he begins to relax. Everything he's worked for is hinged on keeping his reckless brother in check. But, while he's been protecting Milo from falling under the government's ever-vigilant radar, his brother has been working on a surprise present for him, one that's the cat's meow... Dani is that gift--a woman from the past that Levi has been fixated on. Milo never anticipated having his brother's dream girl come to their time with a snarky cat that can not only talk but doesn't have a clue how or when to shut up!

The Cat's Meow Stormy Glenn, 2011-01-15 Being in the wrong place at the wrong time is not always a bad thing... Noah Anderson is odd and he knows it.

He has a strong obsessive compulsive disorder that keeps him organized but distances him from the world around him. He doesn't have any friends, family, or even a lover. He's never had a lover. When he finds himself in the wrong place at the right time, Noah discovers that the dangers posed by having sex for the first time pale in comparison to having sex with the assassin that comes to kill him, even if it means his life. Gage Tynan is a killer. It's what he's always been. And he excelled at his job until he jumped into the car of a passing motorist when his latest mission goes wrong. The man driving is so odd that Gage suspects he might have been sent to harm him. Gage has no idea that the little man that asks him to take his cat will change his life in ways he has no clue of. Gage is dragged into a world of shifters and exiled kings, one where his strength will be called upon to keep Noah safe from the pride soldiers sent to keep him from taking the throne.

Being a witch gifted by the Goddess to conjure spells won't protect her from the sexy warlock the Coven sends to assist her. Kale weaves a spell more powerful than any she's ever seen. While having the muscle around proves to be useful in her investigation, fighting her growing attraction for Kale is worse than a hex, especially considering the secrets she knows he's keeping. But when her

spells turn up clues that point to something far more sinister than slaughtered cats, the elusive warlock becomes the least of her worries. Libby finds herself in the midst of an uprising. She trusts no one and isn't safe—not from the warlocks stirring up trouble. Not from the worrisome rebellion she can't escape. And certainly not from Kale, who is weaving a very dangerous spell over her heart.

With nearly twenty-five years at a veterinary clinic combined with ten years spent on the Telegraph answering reader's questions and a weekly spot on Irish breakfast TV he has dealt with sick pets from the big to the small. Whether that is a giant tortoise or a budgie, there is no case too extraordinary for Pete. Drawing on his experience from his own veterinary practice Pete has a wealth of stories - heart-warming as well as heartbreaking - that are told with a witty and engaging turn of phrase. *Pet Subjects* is a collection of case studies where the reader works beside Pete to try and cure his patients. Once solved, Pete helpfully provides further Q&As to cover a wider range of ailments related to the main story. A captivating and essential read for anyone who cares for a pet of their own.

Gwen was Shelby’s high school teacher, and she’s sure her former pupil is innocent. But in that case, who was itching to take Babs out of the spotlight for good? As Nora and Gwen investigate, they find personal mysteries at odds with Babs’ public persona, all leading to a killer who’s not pussyfooting around . . .
