*The Entrepreneur's Information Sourcebook* Susan C. Awe, 2012-01-16 For 21st-century entrepreneurs, this book provides the practical guidance they need to overcome the often intimidating challenges of starting, organizing, and running a new business effectively and efficiently. The economic downturn has many individuals considering going into business for themselves, rather than

relying on an employer for their income. Unfortunately, according to data from the Small Business Administration, the odds of long-term success are against them: 69 percent of businesses do not last past seven years and 56 percent fail in less than four. This book provides entrepreneurs with a comprehensive guide to the resources they need or will likely want to consult when starting a small business—and in order to stay profitable over the long run. The Entrepreneur's Information Sourcebook: Charting the Path to Small Business Success, Second Edition provides the expert guidance and up-to-date print and web resources an entrepreneur may need to make his business thrive and grow, from inception and information gathering, to raising capital, to marketing methods and human resource concerns. Nearly half of the resources in this newly updated book are new, and the essays have also been updated to reflect current business practices. This book is an essential tool that provides quick and easy access to the information every small business owner needs.

*CEO Branding* Marc Fetscherin, 2015-06-19 CEO Branding advances our understanding of the importance and impact that CEOs have on companies. In recent years, there has been a growing body of interdisciplinary literature on this powerful aspect of branding, and Fetscherin has invited a leading panel of international scholars and practitioners to contribute original chapters in their area of expertise. The book introduces the concept of the CEO as a brand, and outlines the 4Ps of this branding mix – the CEO (person), personality, prestige (reputation), and performance. It discusses the CEO branding process, and demonstrates the many ways in which this 'human brand' affects the company in financial terms (such as performance, profit, and stock returns), as well as non-financial terms (reputation, trust, and firm

strategy). The book also includes 'lessons learned' and many examples that illustrate how companies can measure and manage the CEO brand. This comprehensive, authoritative volume will give students, researchers, marketing and communication managers, and CEOs themselves a thorough understanding of all aspects of the CEO brand. A must read for any CEO who is serious about developing, managing and measuring their own brand. For more information, visit [www.ceobranding.org](http://www.ceobranding.org)

*Leading with Marketing* Brian Gallagher, Kimberly Kayler, 2009-12 How do successful architecture, engineering, and construction (AEC) firms become leaders in their markets? While there is not one formula for all AEC firms, a common characteristic is effective marketing. These firms don't view marketing as an expense, but as a strategic approach to winning. *Leading With Marketing* embodies how an AEC firm approaches their business, their marketplace and their customers. When companies lead with marketing, they strategically choose which markets to target, what to offer, how to differentiate, how to communicate, and how to win. To truly lead with marketing, a firm's marketing strategy must be an ongoing, dynamic process. The process must enable a company to focus its resources on the right opportunities to increase profitability, while satisfying the customer needs and achieving a sustainable competitive advantage. *Leading With Marketing* will provide you with the insights, expertise and knowledge needed to lead with marketing. Having worked with Brian and Kimberly for many years and seeing the direct results of their wisdom help Structural Group grow to over

\$500 million in sales, now having their wisdom detailed in this great book will allow more of us to apply marketing strategies to our everyday business. I highly recommend this book to every Architectural, Engineering and Contracting company that desires a profitable growth strategy.- Peter Emmons, CEO, Structural Group Kimberly has helped ACI develop many successful communications and program-launch campaigns by integrating key message development, online and traditional marketing, public relations, and so much more. Brian helped guide ACI into and through several new promotion, search, and communications initiatives as member, then chair of our Marketing Committee. Their combined expertise in marketing and how to market concrete has been a huge asset to our organization and our members.- Kevin Mlutkowski, Manager, Marketing; American Concrete Institute [www.LeadingWithMarketing.com](http://www.LeadingWithMarketing.com)
