Thirumalaisamy P. Velavancorresponding

The Business Year: Colombia 2021/22 , Colombia is undergoing a period of generation-marking adversity. And saying this of Colombia is a tall order given a tumultuous yesterday of armed conflict and internal mass displacement. Today's struggles are of a different nature, however. President Duque has had to give simultaneous management to the COVID-19 health crisis, the Venezuelan refugee crisis, and an expanding fiscal deficit situation that lost the country its investment-grade rating. All this against a backdrop of mass social discontent manifested by record-setting civilian protest. Considering this concoction of challenges, Colombian business leaders have demonstrated the exceptional traits of resilience that characterize this country's people. This edition of The Business Year: Colombia is dedicated to them. This 188-page publication aims to paint a picture of Colombia's current economic condition, examining each major sector through exclusive interviews, as well as news and analysis, from finance to energy and transport to tourism.

The Business Year: Nigeria 2020 Peter Howson, Research for this publication began in the wake of elections that saw the re-election of President Muhammadu Buhari, who was sworn in on May 2019. The result brought an end to a period of political uncertainty and added new vigor to Africa's largest economy. Nevertheless, despite this new-found stability, Nigeria is still struggling to overcome the impact of years of recession, not to mention the challenges of the low oil price environment and the effects of COVID-19 mitigation measures. This 188-page publication covers finance, gas and power, oil and exploration, industry, IT and telecoms, transport, construction, real estate, agriculture, health, entertainment, and tourism.

These interviews provide valuable insights into how businesses are integrating sustainability into their strategies, promoting responsible practices and contributing to Ecuador's sustainable development agenda. The Business Year: Colombia 2020 Peter Howson, The twin effects of the Saudi-Russian oil price war and the global COVID-19 pandemic in the first half of 2020 provided an extraordinary challenge for the already embattled Duque administration. What was meant to be a year of stable growth is virtually guaranteed to become the country's first recession since 1999. However, the quick and targeted government response at the onset of the pandemic and

Colombia's strong macroeconomic fundamentals have most projections in agreement that Colombia will weather the storm among the best in the region, giving way to a strong recovery period. The Business Year's country-specific publications, sometimes featuring over 150 face-to-face interviews, are among the most comprehensive annual economic publications available internationally. This 172-page publication covers finance, energy, mining, industry, security, IT, transport, infrastructure, real estate, agriculture, health, tourism, and entertainment. The report features dozens of interviews, including:

The Business Year: Oman 2023 , The Business Year has charted the course of the Omani economy for a decade, and this year we focused on the Sultanate's diversification plan and its sustainability agenda. While the country is less hydrocarbons rich than its GCC neighbors, infrastructure and renewable energy development, as well as green hydrogen, could be driving forces for growth in the years to come. Both the public and private sectors closely follow the tenets of Vision 2040, a wide-ranging blueprint for growth the kind of which has become ubiquitous across the region. The Business Year: Oman 2023 features interviews, articles, and analysis over 185 pages.

The Business Year: Spain 2020 ,2020-03-12 In this challenging time for Spain and the world at large, we want to remind readers of the fundamental economic dynamics of the country in order to better assess its business environment. With information straight from the mouths of leaders and decision makers across the economy, it is a comprehensive guide to investment throughout the diverse and industrially-rich regions of Spain. This 160-page publication aims to provide a platform for the country's decision makers at a time of global uncertainty and act as a guide for investors looking seriously at the North American economy. It covers finance, the green economy, energy, industry, agriculture, IT and telecoms, logistics, security, real estate, health, and tourism.

The Business Year: Ecuador 2020 ,2020-03-10 As Ecuador and the world at large grapple with the emerging challenge of the COVID-19 pandemic, it is important not to forget the fundamentals of the Ecuadorian economy and the success stories of 2019 and the start of 2020. We believe contained within these pages is an accurate, balanced account of the state of the Ecuadorian economy as of publication, told through the words of the dozens of top public- and private-sector figures. The Business Year's country-specific publications, sometimes featuring

over 150 face-to-face interviews, are among the most comprehensive annual economic publications available internationally. This 212-page publication covers green economy, finance, hydrocarbons, mining, agriculture, construction, industry, transport, education, health, ICT, and tourism.

The Business Year: Colombia 2024 , Colombia was expected to grow at a strong rate after bouncing back from the COVID-19 pandemic. However, the country's GDP only grew 1% during 2023, according to the National Administrative Department of Statistics (DANE), and during the third quarter of the year it decreased by 0.3%. Inflation reached a peak of 13.34% in March 2023 yet had dropped to 8.35% by February 2024. The outlook and general feel of the economy has revolved around uncertainty since the election of Gustavo Petro, yet the country has achieved notable milestones of late, including the implementation of tax reform, progress in energy transition, and the re-vitalization of key sectors such as tourism. Through this over 100-page publication, The Business Year invites you to explore how Colombia's business landscape, despite challenges, has demonstrated resilience through technology and the application of sustainability-focused tools. The Business Year: Portugal 2023 , Portugal has turned things around superbly since the 2010s and is today leveraging EU funds and its strong appeal to foreign investors, especially in real estate, to build a more sustainable economy. The inflow of foreign capital shaped the Portuguese economy over 2023. The main benefactors were hospitality, real estate, and education. The US ranked as the number one country by investment volume for the first time. Qatar has managed to limit its economic decline to a reasonable 2.5%, emerging as the top performer in the GCC. The IMF also expects the economy to expand 2.7% in 2021. Resilience and diversification have been buzzwords in Qatar for some time, yet never have they taken on so much meaning. In this 246-page edition, which features interviews with top business leaders from across the economy, as well as news and analysis, we cover: green economy, finance, energy, mining, industry, mining and telecoms, logistics, security, construction, real estate, agriculture, health, education, tourism, and sports.

An integral part of the GCC, it is also seeking to extend its influence further afield via the development of port infrastructure that is set to make it a firm fixture on the East-West transport route. But Oman isn't developing unguided, instead sticking faithfully to Vision 2040, a wide-ranging, ambitious blueprint that foresees the development of a diverse, sustainable economy unshackled by a reliance on oil and gas, which currently plagues much of the region.
