**The History of Emigration Canyon: Gateway to Salt Lake Valley** Cynthia Furse,Jeffrey Carlstrom,2019-11-28 Emigration Canyon is well known in Utah as the route by which pioneers, in 1847, reached Great Salt Lake Valley to establish the state's first lasting Euro-American settlements. Before and after 1847 the canyon had an interesting history, which included the Donner-Reed party, the Pony Express and Overland Stage, mining and sheep herding, a narrow-gauge railroad, a major resort, a brewery, and the transformation of recreation areas and cabin sites into year-round residential neighborhoods. This well-illustrated, detailed history tells the story of a unique place, but its counterparts can be found across the West and America wherever the development of wild and scenic areas has been shaped by the growth and needs of neighboring cities. In this second edition, new illustrations and maps, new information and stories, a significantly expanded chapter on the Emigration Canyon Railroad, and a new chapter on the modern history, bring to life the story of a place and its people.

*Fire in the Canyon* Daniel Gumbiner,2023-10-03 A new novel from National Book Award nominee Daniel Gumbiner about a California grape-grower, his family, and the climate disaster that upends their quiet lives. Since his release from prison after serving an eighteen-month sentence for growing cannabis, Ben Hecht's life has settled into a familiar routine. On his farm in the foothills of California, he stays busy cultivating a dozen acres of grapes and tending to a flock of mistrustful sheep. Meanwhile, from her desk in their old redwood barn, his novelist wife, Ada, continues to work on what may be her most important book yet. When their only son, Yoel, comes home from Los Angeles for a rare visit, Ben is forced to confront their long troubled relationship, which has continued to degrade in recent years. But before the two of them can truly address their past, a wildfire sweeps through the region, forcing the Hecht family to flee to the coast, and setting into motion a chain of events that will transform them all. This is a story about grape growing and wine, financial and familial struggles, and the peculiar characters and unlikely heroes one will always find in small-town California. Through the experiences of the Hechts and the escalating challenges that face their community, *Fire in the Canyon* is an intimate look at the lives of those already living through the climate crisis.

**Dear Professor Dyson** Freeman J. Dyson,2016 Freeman Dyson has designed nuclear reactors and bomb-powered spacecraft; he has studied the origins of life and the possibilities for the long-term future; he showed quantum mechanics to be consistent with electrodynamics and started cosmological eschatology; he has won international recognition for his work in science and for his work in reconciling science to religion; he has advised generals and congressional committees. An STS (Science, Technology, Society) curriculum or discussion group that engages topics such as nuclear policies, genetic technologies, environmental sustainability, the role of religion in a scientific society, and a hard look towards the future, would count itself privileged to include Professor Dyson as a class participant and mentor. In this book, STS topics are not discussed as objectified abstractions, but through personal stories. The reader is invited to observe Dyson's influence on a generation of young people as they wrestle with issues of science, technology, society, life in general and our place in the universe. The book is filled with personal anecdotes, student questions and responses, honest doubts and passions--
