Arts and Crafts Book Covers Malcolm Haslam,Blackwell House (Windermere, England),2012 Before the age of the paper book jacket, publishers issued their books in cloth-covered boards, which were stamped with designs in gold leaf and color. From around 1860, artists of the Arts and Crafts movement supplied many of the best designs. Dante Gabriel Rossetti, William Morris and

Walter Crane led the way, and they were followed in the 1890s by Laurence Housman, Charles Ricketts and Selwyn Image, among others. Prominent Arts and Crafts architects, such as Philip Webb and C.F.A. Voysey, also designed book covers. Malcolm Haslam explores this uncharted territory, investigating not only the designs and designers, but the publishers and binders as well. He introduces some artists, little known today, whose designs filled the bookshops and bookshelves of late Victorian and Edwardian Britain, and he shows how designers in Europe and America were influenced by British book covers decorated in the Arts and Crafts style. Ninety-nine of the best covers are illustrated and described, and details are given of over fifty Arts and Crafts designers who worked in commercial book production, and their marks and monograms are shown.

Craft Glenn Adamson,2022-03-22 New York Times Book Review Editors' Choice A groundbreaking and endlessly surprising history of how artisans created America, from the nation's origins to the present day. At the center of the United States' economic and social development, according to conventional wisdom, are industry and technology-while craftspeople and handmade objects are relegated to a bygone past. Renowned historian Glenn Adamson turns that narrative on its head in this innovative account, revealing makers' central role in shaping America's identity. Examine any phase of the nation's struggle to define itself, and artisans are there-from the silversmith Paul Revere and the revolutionary carpenters and blacksmiths who hurled tea into Boston Harbor, to today's "maker movement." From Mother Jones to Rosie the Riveter. From Betsy Ross to Rosa Parks. From suffrage banners to the AIDS Quilt. Adamson shows that craft has long been implicated in debates around equality, education, and class. Artisanhip has often been a site of resistance for oppressed people, such as enslaved African-Americans whose skilled labor might confer hard-won agency under bondage, or the Native American makers who adapted traditional arts into statements of modernity. Theirs are among the array of memorable portraits of Americans both celebrated and unfamiliar in this richly peopled book. As Adamson argues, these artisans' stories speak to our collective striving toward a more perfect union. From the beginning, America had to be-and still remains to be-crafted.
