Tourism in National Capitals and Global Change

Robert Maitland, 2014-10-14 At a time of increasing city competition, national capitals are at the forefront of efforts to gain competitive advantage for themselves and their nation, to project a distinctive and positive image and to score well in global city league tables. They are frequently their country's main tourist gateway, and their success in attracting visitors is inextricably linked with that of the nation. They attract not just leisure visitors; they are especially important in other growing tourism markets, for example, as centres of power they feature strongly in business tourism, as academic centres they are important for educational tourism, and they frequently host global events such as the Olympic Games. And there are more of them: first, the number of capitals has grown as the number of nation-states has increased and, secondly, pressures for devolution mean more cities are seeking national capital status, even when they are not at the head of independent states. We need to understand tourism in capitals better – but there has been little research in the past. This book develops new insights as it explores the phenomenon of capital city tourism, and uses recent research to examine the appeal of 'capitalness' to tourists, and explore developments in capitals across the world. This book was published as a special issue of Current Issues in Tourism.

Australia Lost Travelers, 2016-09-29 The BEST, Most Value Provided Australia Travel Guide On The

Market Enough with being lost, tricked, and unsatisfied! Lost Travelers have taken out the struggle and worry of traveling by providing our travelers with all the information they need from the point they arrive to the airport till departure. We provide you with a brief history to better understand the locals and the beauty of the city, information on every type of transportation, your safety and amazing places to visit (day and night), dishes to try and much more. Why Lost Travelers Guides? Tired of long, boring, and biased guides out in the market that not only waste our time but also waste money? So were we! We continuously had to ask someone for the simplest things that could have easily been found if we could speak the language of the location, or information that should have been in the guide we were using at that time! As we continuously face this problem we decided we should create a guide that that would cover everything a traveler needs to know from the point of Arrival to Departure, and the Lost Travelers Guides were born. When having our guides created we take a lot into consideration such as time, therefore our guides are short and to the point. But mainly we ask ourselves and other travelers what we enjoy during a travel and what we wish we had known prior to visiting the location and that is where the Lost Travelers guides excels. As the Lost Travelers Guide team, we only have one goal and that is to make sure that our guides are the best out, and provides the most value available. Discourse, Communication and Tourism Adam Jaworski, Annette Pritchard, 2005-09-19 For the first time ever, this book brings together an explicit linkage between empirical and theoretical perspectives on tourism and discourse. A broad social semiotic approach is adopted to analyze a range of spoken, written and visual texts providing a unique resource for researching and teaching tourism in the context of communication studies. Some of the key concepts explored in its chapters include space, representation, the tourist experience, identity, performance and authenticity, and the contributors are key sociologists of tourism as well as discourse analysts and sociolinguists.

Fodor's Australia 2004 , 2003-10-07 Presents rated reviews of the best properties, sights, restaurants, activities, and communities to visit in Australia, with tips on when to go, suggested itineraries, maps, background information, and travel advice.

A Traveller's History of New Zealand John H. Chambers, 2004 A Traveller's History of New Zealand and the South Pacific Islands gives the curious

tourist not only a modern day portrait of New Zealand and the far flung islands, their political systems and economic diversity, but also looks at the early settling of this massive area which covers about a fifth of the whole surface of the earth. When European navigators first sailed into the region, they were astonished at the exotic shared culture and language of the natives, separated in many cases by terrifying stretches of open ocean. The story of the peopling of the South Pacific Islands and New Zealand is one of the world's great epics. The book also has practical information for visitors, an Historical Gazetteer, and is illustrated with relevant maps plus a Chronology of Events. Special topics covered include Firewalking in Fiji, the Musket Wars, the Haka, Polynesian Tattooing and the Jon Frum Cargo Cult of Vanuatu. Book jacket.

The Changing Role of the Human Resource Profession in the Asia Pacific Region Jayantee Saha, Chris Rowley, 2014-12-02 The human resource (HR) profession has been on a long and challenging journey. Globalisation and sweeping policy changes have re-defined and re-aligned HR and its role. It is important for HR professionals to develop and become innovators in their respective industries. *The Changing Role of the Human Resource Profession in the Asia Pacific Region* is based on case-

studies of retail, tourism, healthcare, security, education, and energy, spread across the greater Asia Pacific (AP) region. The book rests on the principle of the laws of attraction, that 'thoughts become things' and argues that acknowledging good human resource policies and practices can be a key influence on all aspects of an organisation. After an introduction, five chapters cover key topics: six major industries; changing HR practices across the AP; an insider's view on best practices; the role of HR in sustaining growth across the AP; and a conclusion looking towards the future of HR in the Asian Pacific Region. Based on real and contemporary case studies with a focus on six industries (Retail, Tourism, Healthcare, Security, Education and Energy) spread across the Greater AP region Highlights industry specific key HR challenges and suggests ways forward Records recent developments
