The End of Umno? Essays on Malaysia's Former Dominant Party Bridget Welsh, 2022-12-06 What is the future of Malaysia's former dominant party, the United Malays National Organisation or UMNO? With the loss of government in the May 2018 General Election (GE14) after 61 years in government, the party faces a different, more uncertain future. It is grappling with its new role in the national political opposition and continued questions about the leadership of former prime minister Najib Tun Razak. This collection is an expanded edition of the original 2016, *The End of UMNO?* It includes the original five essays (including the foreword by current Foreign Minister in the Pakatan Harapan government and former UMNO Supreme Council member Saifuddin Abdullah), as well as new post-GE14 epilogue essays by each of the contributors – John Funston, Clive Kessler, James Chin and Bridget Welsh, all prominent and established scholars studying Malaysian politics. It also includes a new foreword by veteran UMNO leader, Tengku Razaleigh Hamzah, who contested for the party presidency in the June 2018 party elections. The contributors in this collection study developments in Malaysia's dominant party, the United Malays National Organisation (UMNO) and discuss the question of whether UMNO is in fact at an end. The answers to its future lie in part with a better understanding of its past and present. The authors draw attention to issues of party identity, leadership, membership, governance, institutional change, party financing, internal divisions and its relations with different communities and the public at large. The new and expanded edition draws attention to the factors that contributed to UMNO's loss of government in GE14 and potential steps ahead. Not only does this book fill an important gap in the scholarly research on UMNO, this book offers different perspectives on the party's contemporary challenges. This book aims to contribute to understanding, broaden public debate and stimulate further research on arguably one of Malaysia's most important political institutions.

Anwar Triumphs: The ascent of Malaysia's Tenth Prime Minister against all odds Mark Trowell KC, 2023-07-15 With cartoons by Zunar The four years following Anwar Ibrahim's release from prison on 16 May 2018 were as dramatic as it were chaotic. With rare insider insights, this book uncovers the collapse of the Pakatan Harapan coalition, the turmoil after Mahathir's shocking resignation, and the hard decisions made to secure power. It reveals how Anwar's personal triumph over old rivalries, political betrayals by former allies, and sensational moves to make the nation stronger, eventually led to the hung parliament result of GE15 and his appointment as the tenth prime minister of Malaysia. Testament to the strength and perseverance of a nation and its leader, this book is a must-read for anyone interested in the political landscape of Malaysia and the incredible journey of a man who never gave up on his dreams of a better future for his country and his people.

Tragic Orphans Carl Vadivella Belle, 2016-05-13 In 1938, noting that the bulk of the Indian population formed a e; landless proletariat; and despairing of the ability of the factionalized Indian community to unite in pursuit of common objectives, activist K.A. Neelakanda Ayer forecast that the fate of Indians in Malaya would be to become e; Tragic orphanse; of whom India has forgotten and Malaya looks down upon with contempte;. Ayer's words continue to resonate; as a minority group in a nation dominated politically by colonially derived narratives of e; racee; and ethnicity and riven by the imperatives of religion, the general trajectory of the economically and politically impotent Indian community has been one of increasing irrelevance. This book explores the history of the modern Indian presence in Malaysia, and traces the vital role played by the Indian community in the construction of contemporary Malaysia. In this comprehensive new study, Carl Vadivella Belle offers fresh insights on the Indian experience spanning the period from the colonial recruitment of Indian labour to the post-Merdeka political, economic and social marginalization of Indians. While recent Indian challenges to the political status quo - a regime described as that of e; benign neglecte; - promoted Indian hopes of reform, change and uplift, the author concludes that the dictates of political discourse permeated by the ideologies of communalism offer limited prospects for meaningful change.

The Political Economy of Financial Development in Malaysia Lena Rethel, 2020-12-20 Current inquiries into the political economy of financial policymaking in Malaysia tend to focus on the high-level drama of crisis politics or simply point to the limited impact of post-crisis financial reforms, given that politico-business relations have remained close. In so doing, pundits ignore a number of intriguing questions: what is the relationship between financial development and financialisation and how has it played out in the Malaysian context? And more generally: how can a country like Malaysia become significantly more financially developed, yet fail to emancipate the financial system from political control; a core element of the financial development discourse? To unravel the complexities of this puzzle, this book subjects the history and contemporary practices of financial policymaking in Malaysia to scrutiny. It argues that to understand financial development in Malaysia, its progress and reversals, it is important to conceptualise it as a political, rather than a merely technical process. In so doing, the book echoes a more profound concern in the political economy literature, namely the evolving relationship between states and markets, and the supposed retreat or reassertion of the state at a time of increasing (financial) globalisation. The book can generate further insights into the evolving role of the state with regard to broader processes of development and marketisation, as they relate specifically to finance.

Malaysia's 14th General Election and UMNO's Fall Edmund Terence Gomez, Mohamed Nawab Mohamed Osman, 2019-10-08 The 2018 Malaysian General Election will stand as a major defining event in Malaysian history, when the ruling Barisan Nasional coalition unexpectedly lost power in the country they had ruled for over half a century. This volume brings together scholars who assess one fundamental factor that brought about this game-changing event in Malaysian politics: intra-elite feuding in the leading Malay-based political parties. This study provides an analysis of individual state politics as well as national trends shaped by the actions of leaders in government and the opposition. An indispensable guide for scholars studying the politics of Malaysia and of Southeast Asia more broadly, it will be of great interest for all readers with an interest in Malaysian politics.

Nature and Nation Jeyamalar Kathirithamby-Wells, 2005-10-31 Nature and Nation explores the relations between people and forests in Peninsular Malaysia where the planet's richest terrestrial eco-system met head-on with the fastest pace of economic transformation experienced in the tropical world. It engages the interplay of history, culture, science, economics and politics to provide a holistic interpretation of the continuing relevance of forests to state and society in the moist tropics. Malaysia has long been singled out for emulation by developing nations, an accolade contradicted in recent years by concerns over its capital-, rather than poverty-driven forest depletion. The Malaysian case supports the call for re-appraisal of entrenched prescriptions for development that go beyond material needs. -- Book cover.

On the Edge Claude Martin, 2015-04-20 In 1972, *The Limits to Growth* introduced the idea that world resources are limited. Soon after, people became aware of the threats to the world's rainforests, the biggest terrestrial repositories of biodiversity and essential regulators of global air and water cycles. Since that time, new research and technological advances have greatly increased our knowledge of how rainforests are being affected by changing patterns of resource use. Increasing concern about climate change has made it more important than ever to understand the state of the world's tropical forests. This book provides an up-to-date picture of the health of the world's tropical forests. Claude Martin, an eminent scientist and conservationist, integrates information from remote imaging, ecology, and economics to explain deforestation and forest health throughout the world. He explains how urbanization, an increasingly global economy, and a worldwide demand for biofuels put new pressure on rainforest land. He examines the policies and market forces that have successfully preserved forests in some areas and discusses the economic benefits of protected areas. Using evidence from ice core records and past forest cover patterns, he predicts the most likely effects of climate change. Claude Martin brings his wealth of experience as an ecologist, director of the WWF, and advisor to various conservation organizations to bear on the latest research from around the world. Contributions from eight leading experts provide additional insight.

It aims, in particular, to see whether or not female MPs acted for women by proposing women-related issues in the Dewan Rakyat, the female MPs in the forefront of representing women are called critical actors. Someone Is Hiding Something Richard Belzer, George Noory, David Wayne, 2015-02-17 A year after the disappearance and commencement of the international search for Malaysia Airlines Flight 370, no sign of the plane has been found—no debris, no bodies, no sign of the much-talked-about black box. Richard Belzer, George Noory, and David Wayne want to know why. Scrutinizing the theories the media and politicians claim are the “most likely” reasons the plane crashed, Belzer, Noory, and Wayne argue that if a year after a huge Boeing 777 has gone missing, and there's still no sign of it whatsoever, it's time to think outside the box. The public needs to stop being misled. If a plane and its passengers went missing once, what's to stop it from happening again? Some of the theories the authors consider seem implausible on the surface, but the thorough research they've done and the continual failure of politicians, aviation authorities, and military members around the world to give any indication they're wrong makes their arguments as good—if not better—than the more widely shared ones. The title of this thought-provoking volume, *Someone is Hiding Something*, is a line spoken by former Malaysian Prime Minister Mahathir Mohamad—perhaps the only government official to publicly acknowledge the true reason that neither Flight 370 nor the 239 people onboard have been found.

Proceedings of the 3rd International Symposium of Information and Internet Technology (SYMINTech 2018) Mohd Azlishah Othman, Mohamad Zoinol Abidin Abd Aziz, Mohd Shakir Md Saat, Mohamad Harris Misran, 2019-05-15 This book gathers the proceedings of a symposium on the role of Internet technologies and how they can transform and improve people's lives. The Internet is essentially a massive database where all types of information can be shared and transmitted. This can be done passively in the form of non-interactive websites and blogs; or it can be done actively in the form of file sharing and document up- and downloading. Thanks to these technologies, a wealth of information is now available to anyone who can access the Internet. Moreover, Internet technologies are constantly improving: growing faster, offering more diverse information, and supporting processes that would have been impossible in the past. As a result, they have changed, and will continue to change, the way that the world does business and how people interact in their day-to-day lives. In conclusion, the symposium and these proceedings provide a valuable opportunity for leading researchers, engineers and professionals around the globe to discuss the latest advances that are helping the world move forward. They also facilitate the exchange of new ideas in the fields of communication technology to create a dialogue between these groups concerning the latest innovations, trends and concerns, practical challenges and potential solutions in the field of Internet technologies.

Islamic Management Practices in Financial Institutions Khaliq Ahmad, 2021-12-30 This book draws on a range of theoretical foundations, approaches and management practices that are culturally and jurisdictionally appropriate in several Muslim countries. As such, it contributes to an emerging specialism in comparative management and leadership theory that is oriented toward a broader and more diverse set of perspectives, particularly from the non-Western world, given that the importance of values, ethics, and culture have recently been recognized as a key contributing factor to management knowledge development. The author offers an in-depth overview of the Islamic management strategies that have successfully been implemented in selected Malaysian banking and non-banking financial institutions and then outlines how the application of such strategies leads to increased integrity, efficiency and performance. The book is divided into three parts. The first part deals with the introduction, historical background and methods used in collection of data. The second part consists of a range of real-world case studies, while part three deals with the approaches to be used in the teaching of these cases followed by conclusions and recommendations. These cases studies map the strategic aspects of organizational structure and illustrate the motives that influence Malaysian managers' choices in seeking specific responses to the situations at hand, which are in harmony with the traditions in Islamic inquiry. As such, management scholars can build a foundation for conceptual and theoretical propositions relevant to Muslim culture and environment that will have practical significance. The book provides a wealth of information and enables researchers not only to identify the determinants of knowledge structure and its context but also the evolution of practice.
