Reading the Face Norbert Glas,2008 As a boy traveling to school by streetcar, Norbert Glas often passed the time by studying the faces of his fellow passengers, pondering the significance of the shapes and contours of their noses, eyes, and mouths. Later in life, after becoming a medical doctor and a student of Rudolf Steiner's spiritual science, Glas gained greater insight into the mysteries of human physiognomy. In *Reading the Face*, the first translation into English of his seminal work, Glas begins by defining the three parts of the human face and explaining the importance of their relative proportions. A face that is more pronounced in any of these areas tends to indicate certain personality traits and specific physiological characteristics. People with a strong mouth and chin, for example, tend to have a strong will and an active, driven, and assertive nature. With the help of many photos and drawings, Glas presents the physiognomy of three basic types and analyses the specifics of the head, forehead, ears, eyes, mouth, and nose. *Reading the Face* will be valuable to doctors, teachers, and anyone who wants to better understand, accept, and love others.

The Art and Science of Face Reading Jennifer Lamonica,2019-08-13 A complete, illustrated guide to the ancient tradition of reading the face to gain insight into health, personality, relationships, and career • Details how to read the profile, front face, features, and musculature of the face to reveal temperament, personality traits, health predispositions, and mental state • Explores the history and development of face morphology from its origins in Israel and Egypt more than 4,500 years ago to its modern use in French medical schools • Examines the Foursquare diagram, developed by French occultist Papus, for highly accurate and detailed facial readings The face is a unique reflection of our genetic, inherited inclinations as well as the effects that life, nature, and relationships have had upon us. By looking at a person's face, you can gain valuable insight into their personality, health, and how they navigate in the world. In this illustrated guide, Jennifer Lamonica reveals the sacred tradition of face morphology, an esoteric system that has been passed quietly from rabbi to student as an unbroken oral tradition for more than 4,500 years. She explores the history and development of this ancient art from its origins in Israel and Egypt to its use as the major diagnostic system in Europe until the Enlightenment and its current applications in French medical schools. Sharing the techniques of master face readers, the author details how to read the angles of the profile, as well as palm color and nose shape, to determine a person's temperament, providing health and career insight into each of the four temperaments, including nutritional needs, digestive issues, sleep patterns, health predispositions, and ideal occupational paths. Exploring the Foursquare diagram, developed by French occultist Papus, for highly accurate and detailed facial readings, she explains how to read the front face in combination with planetary shapes, which reveal a person's character; the major facial features, such as eyebrows, which reveal personal inclinations; and the musculature of the face, including expressions, which reveals a person's current mental state. Providing case studies, she examines how to apply face morphology in relationships and in parenting. Exploring the meaning of each facial variation, while also honoring the intuitive impression received at first glance, Lamonica reveals how the ancient science of face reading allows you to compassionately help your loved ones, students, or clients, as well as overcome personal obstacles and better know yourself.

Practical Face Reading and Palmistry 易经 Peter So,2012-07-01 This is how a Chinese proverb goes, "It takes a long way to tell how strong a horse is; it takes a long time to know a person well." Yet, the Chinese also developed a set of rules to know a person simply by observation - read first his face and palm, then his gesture and demeanour for his intelligence and his luck. If you're interested in knowing a person by just looking, this book is an indispensable read: - Is she/he the perfect wife or husband? Is he pretending to be rich, but is actually a less-privileged working class? Is he a sex fiend or a shameless con man? They are giving it away on their face and with their gestures. -What is your boss thinking? How do you tell if a subordinate is loyal? Which of the workers is the most competent? Simply take a look and you'd know. -Read both the face and the palm to tell his/her love luck and if his/her marriage is good or bad. -A mole, a zit, the voice, the hair and the way a person walks are all essential clues to tell his/her luck. - This book comes with remedies to dissipate your bad luck and boost your good luck. Dye your hair. Grow a beard. Or even wear a pair of spectacles for better luck. This book is great fun to read, encompassing a broad base of knowledge in face and palm reading. It also puts theories in contexts, so that you'd get to know those around you in everyday situations. This book lets you take a peep at a person's heart by reading his/her tiniest feature or trait. Not to be missed.
