The Federalist Papers Alexander Hamilton, John Jay, James Madison, 2018-08-20 Classic Books Library presents this brand new edition of "The Federalist Papers", a collection of separate essays and articles compiled in 1788 by Alexander Hamilton. Following the United States Declaration of Independence in 1776, the governing doctrines and policies of the States lacked cohesion. "The Federalist", as it was previously known, was constructed by American statesman Alexander Hamilton, and was intended to catalyse the ratification of the United States Constitution. Hamilton recruited fellow statesmen James Madison Jr., and John Jay to write papers for the compendium, and the three are known as some of the Founding Fathers of the United States. Alexander Hamilton (c. 1755–1804) was an American lawyer, journalist and highly influential government official. He also served as a Senior Officer in the Army between 1799-1800 and founded the Federalist Party, the system that governed the nation's finances. His contributions to the Constitution and leadership made a significant and lasting impact on the early development of the nation of the United States.

The Federalist Papers (Publius, 2011-07-15) The Federalist Papers are a series of 85 articles advocating the ratification of the United States Constitution. Seventy-seven of the essays were published serially in *The Independent Journal* and *The New York Packet* between October 1787 and August 1788. A compilation of these and eight others, called *The Federalist*, was published in 1788 by J. and A. McLean. The Federalist Papers serve as a primary source for interpretation of the Constitution, as they outline the philosophy and motivation of the proposed system of government. The authors of the Federalist Papers wanted to both influence the vote in favor of ratification and shape future interpretations of the Constitution. According to historian Richard B. Morris, they are an incomparable exposition of the Constitution, a classic in political science unsurpassed in both breadth and depth by the product of any later American writer.

The Federalist Papers Alexander Hamilton, James Madison, John Jay, 2016-01-18 A Collection of 85 Articles and Essays The Federalist Papers By Alexander Hamilton, John Jay, James Madison The Federalist (later known as The Federalist Papers) is a collection of 85 articles and essays written (under the pseudonym Publius) by Alexander Hamilton, James Madison, and John Jay promoting the ratification of the United States Constitution. Seventy-seven were published serially in *The Independent Journal* and *The New York Packet* between October 1787 and August 1788. A compilation of these and eight others, called *The Federalist*; or, *The New Constitution*, was published in two volumes in 1788 by J. and A. McLean. The collection's original title was *The Federalist*; the title *The Federalist Papers* did not emerge until the 20th century. Though the authors of The Federalist Papers foremost wished to influence the vote in favor of ratifying the Constitution, in Federalist No. 1 they explicitly set that debate in broader political terms: It has been frequently remarked, that it seems to have been reserved to the people of this country, by their conduct and example, to decide the important question, whether societies of men are really capable or not, of establishing good government from reflection and choice, or whether they are forever destined to depend, for their political constitutions, on accident and force. Highlights abound in the essays of The Federalist. Federalist No. 10, in which Madison discusses the means of preventing rule by majority faction and advocates a large, commercial republic, is generally regarded as the most important of the 85 articles from a philosophical perspective; it is complemented by Federalist No. 14, in which Madison takes the measure of the United States, declares it appropriate for an extended republic, and concludes with a memorable defense of the constitutional and political creativity of the Federal Convention. In Federalist No. 84, Hamilton makes the case that there is no need to amend the Constitution by adding a Bill of Rights,

insisting that the various provisions in the proposed Constitution protecting liberty amount to a bill of rights. Federalist No. 78, also written by Hamilton, lays the groundwork for the doctrine of judicial review by federal courts of federal legislation or executive acts. Federalist No. 70 presents Hamilton's case for a one-man chief executive. In Federalist No. 39, Madison presents the clearest exposition of what has come to be called Federalism. In Federalist No. 51, Madison distills arguments for checks and balances in an essay often quoted for its justification of government as the greatest of all reflections on human nature. **EXAMPLE**

The Rhetorical Approach in the Federalist Papers No.10, No.54, No.84 and Jelena Vukadinovic, 2009-04-24 Seminar paper from the year 2008 in the subject American Studies - Literature, grade: 1,7, RWTH Aachen University, course: American Non-Fiction, language: English, abstract: The eighty-five essays, today commonly referred to as *The Federalist Papers*, were written in 1787 and 1788 in order to help in securing the ratification of the proposed United States Constitution in the State of New York. Although the essays were all signed Publius, they were written by three men of different background and, to some extent, different political ideas. John Jay, Alexander Hamilton and James Madison have contributed to the Papers in different quantity. Due to an illness Jay has contributed only five articles. Hamilton's and Madison's contributions are not always easy to separate but most scholars ascribe twenty-nine articles to Madison and fifty-one to Hamilton. The authorship of essays "18-20, 49-58, and 62-63 was the subject of heated historical controversy for more than a century and a half, because both Hamilton and Madison allegedly claimed authorship of these essays." The object of this paper is to analyze the rhetorical approach of Madison and Hamilton in selected papers. Also, an attempt will be made to determine if, and to what extent their rhetorical style and political ideas are distinguishable even under the joint guise of Publius. The analysis will be undertaken on the examples of four selected papers – No. 10, 54, 84 and 85,

which were chosen as representatives of the respective author's style, since a detailed analysis of all 85 papers would be too extensive for a term paper. Contributions by John Jay are deliberately left out since they consist of only 5 papers which are arguably among the less important ones. Federalist No.10 was chosen as the most famous of Madison's contributions due to its prominence within the scholarly debate and the prevailing significance of the problem discussed in the essay – the dangers or factions within a republic system. No. 54 was chosen as an example of disputed authorship and due to its treatment of the complex problem of slavery in regard to the number of Representatives of Southern States. A special interest lies in the author's approach to distinguish the slaves status of being 'people' and 'property' at the same time. No. 84 was chosen due to Hamilton's interesting rhetorical treatment of and political stance on the bill of rights. No. 85 was chosen because of its importance as a conclusion to the complete work and arguments of the whole body of texts. [...]

The Federalist Papers Alexander Hamilton, John Jay, James Madison, 2020-03-03 Eighty-five articles and essays by Alexander Hamilton, John Jay, and James Madison that interpret and promote the US Constitution. Three of America's Founding Fathers—Alexander Hamilton, General George Washington's chief of staff and first secretary of the treasury; John Jay, the first chief justice of the United States; and James Madison, father of the Constitution, author of the Bill of Rights, and fourth president of the United States—embarked on an anonymous public relations campaign to promote the ratification of the US Constitution. Beginning in 1787, their articles appeared in three New York newspapers: The Independent Journal, the New-York Packet, and the Daily Advertiser. Written under the pseudonym Publius, their writings were a masterful analysis and interpretation of the Constitution, explaining the principles upon which the US government was founded. To this day, the Federalist Papers remain “an authoritative resource for academics, lawyers, and judges—including Supreme Court justices—to use to interpret the Constitution and to determine its original, or historic, meaning” (National Constitution Center).

The Federalist Papers Publius,2019-12-27 The Federalist, commonly known as The Federalist Papers is a collection of 85 written essays. They appeared between October 1787 and May 1788 in various publications as a way to convince New Yorkers of the need to ratify the United States Constitution. The Federalist Papers was the mastermind of Alexander Hamilton well known for his multilayered works in establishing many of the principles of the United States. Hamilton recruited the assistance of James Madison and John Jay to assist in the writings of the various 85 essays. Collectively they used the nom de plume Publius for various reasons. The principle reason was to avoid ad hominem attacks to and from Governor Clinton who pushed against the Constitution. Hamilton's methods and presentations within the Federalist Papers were considered superior to his own plans for the Constitution in the Philadelphia convention. These collective essays are largely considered some of the greatest contributions to the literature regarding federalism, democracy and Western political leanings of the late 1700's.

The Federalist Papers Ernest O'Dell,2010-05-26 About The Federalist PapersThe Federalist, commonly referred to as the Federalist Papers, is a series of 85 essays written by Alexander Hamilton, John Jay, and James Madison between October 1787 and May 1788. The essays were published anonymously, under the pen name Publius, in various New York state newspapers of the time.The Federalist Papers were written and published to urge New Yorkers to ratify the proposed United States Constitution, which was drafted in Philadelphia in the summer of 1787. In lobbying for adoption of the Constitution over the existing Articles of Confederation, the essays explain particular provisions of the Constitution in detail. For this reason, and because Hamilton and Madison were each members of the Constitutional Convention, the Federalist Papers are often used today to help interpret the intentions of those drafting the Constitution.The Federalist Papers were published primarily in two New York state newspapers: The New York Packet and The Independent Journal. They were reprinted in other newspapers in New York state and in several cities in other states. A bound edition, with revisions and corrections by Hamilton, was published in 1788 by printers J. and A. McLean. An edition published by printer Jacob Gideon in 1818, with revisions and corrections by Madison, was the first to identify each essay by its author's name. Because of its publishing history, the assignment of authorship, numbering, and exact wording may vary with different editions of The Federalist.The text of The Federalist used here was compiled by scholars who drew on many available versions of the papers.One printed edition of the text is The Federalist, edited by Jacob E. Cooke (Middletown, Conn., Wesleyan University Press, 1961). Cooke's introduction provides background information on the printing history of The Federalist; the information provided above comes in part from his work.
