The Diary of a Royal Marine Richard M. Jones,2017 In the winter of 2016 author Richard M Jones had exclusive access to the personal collection of a Mr George Cutcher, a former Royal Marine who had fought in the First World War and had gone on to live a full and active life. Now for the first time his story is told with his entire diary published along with the story of his life. How he joined the Marines too young, how he trained future Kings in the gymnasium, going on to fight in both Gallipoli and the Somme before being medically discharged. His own accounts of the fighting in the trenches brings it home to the reader just how bad conditions were and his collection makes his entire story so very real.

Unexpected Fear Aiza Annadhi,2020-11-02 Laurel was on a spiritual path and didn't even know it. She kept having dreams and predictions, triggering feelings that there was something more. Laurel was born by the ocean surrounded by nature, but no paradise is as beautiful as it seems. Inside Laurel's heart there was a pure energy that stirred people's inner frustrations to lead them to want to hurt her and shut down her light.

A Soldier Gone to Sea Charles Frederic Jerram,2016-11-19 In this memoir spanning nine decades, Lieutenant Colonel C.F. Jerram (1882-1969) of the Royal Marines recounts his life and military service through both world wars. Jerram describes in candid detail his late 19th-century childhood in Devon and Cornwall, the late Victorian and Edwardian Royal Navy, the Royal Navy's Far East Station, a traditional Corps of Marines, the Gallipoli Campaign, the World War I Western Front and the interwar and World War II years. His experience and insight convey two fundamental lessons:

Know thy profession and look after those for whom you are responsible. An essay by the editor, based on other sources, provides a broader perspective on Jerram, whose approach to professional military service is still pertinent today.

The Regionalization of Warfare James Brown,2023-03-31 Three wars have dominated world events in recent years: The conflict which erupted between the United Kingdom and Argentina over the Falkland/Malvinas Islands; the multinational conflict in Lebanon involving Israeli, Syrian, and FLO forces in Lebanon; and the savage struggles between ground and air units of the Iranian and Iraqi forces. The scale and intensity of these wars, their potential for global conflict, make them crucial for an understanding among citizens in general, and defense and political analysts in particular. The authors and contributors to this most unusual volume come to several common conclusions: professionalism is a crucial factor in military effectiveness, but not necessarily dependent on modes of recruitment; high technology is crucial, but only in relation to the quality and training of the personnel; public support is necessary to sustain military morale in democratic and authoritarian regimes alike. These are only some of the incisive findings registered and explored in *The Regionalization of Warfare*. The volume assembles experts not only on these three major regional and interregional conflicts, but on current U.S. defense policies; Soviet strategic interests in Middle East and Persian Gulf conflicts; and a series of papers on lessons learned and unlearned as a result of these small wars of the early 1980s. For those interested in military history, global strategy, and regional rivalries, this - collection of finely written, sophisticated papers will prove to be of intense concern.
