**Championing Your Autistic Teen at Secondary School** Debby Elley,Gareth D. Morewood,2022-05-19 The transition to secondary school can be a daunting time for parents of autistic youngsters, as well as children themselves. Have you selected the right place? What if staff don't really understand your child's needs? Will they adapt sufficiently - and if not, then what happens? The good news is that you have the ability as a parent or carer to address these concerns, rather than leaving it all to chance. This book will give you the tools to do just that. From choosing the right school for your child (and spotting the tell-tale signs of the wrong one), to preparing both your child and the new school for the transition, to overcoming barriers and building a positive, collaborative and effective relationship between home and school. Tackling key topics from the point of view of both parent and teacher and using examples of great practice, this contains everything you need to know in order to build a more positive secondary school experience for your child.

**Housing for the 21st Century** Carlo Aiello,2011-01-01 Housing for the 21st Century is a collaboration between thinkers from diverse fields attempting to understand our current habitation necessities; an exploration of where we are and where are we heading. We start off with the analysis of the economic, social, and architectural causes and consequences of the largest and fastest migration event of human history; the exodus from rural to urban China. Opinion is a collection of essays on the broad topic of housing, reaching broadly, from discussions about the use of new technologies, ecology, and global warming, to the transformation of a house into another member of a family. This section also includes a reflection on the legacy of Frank Lloyd Wright and his architectural sensibility to make house and context one single entity. In this section you will also find critiques on some of the most forward-looking housing projects designed by world-class firms such as Steven Holl Architects, Asymptote Architecture, Herzog & de Meuron, Bjarke Ingels Group, and Office for Metropolitan Architecture. Central to this issue are the winning projects of the Housing Competition organized by eVolo, which consists of twenty proposals that, through the use of new materials, technology, novel spatial organizations, and combinations of programs, present a glimpse of the possible world to come. You will find examples of underground housing, the regeneration of existing neighborhoods, the exploration of new aesthetics from mathematical algorithms, and the studies of biogenetic materials used for environmentally responsive claddings.

*Right-Wing Terrorism in the 21st Century* Daniel Koehler,2016-10-04 This book is the first comprehensive academic study of German right-wing terrorism since the early 1960s available in the English language. It offers a unique in-depth analysis of German violent, extremist right-wing movements, terrorist events, groups, networks and individuals. In addition, the book discusses the so-called 'National Socialist Underground' (NSU) terror cell, which was uncovered in late 2011 by the authorities. The NSU had been active for over a decade and had killed at least ten people, as well as executing numerous bombings and bank robberies. With an examination of the group's support network and the reasons behind the failure of the German authorities, this book sheds light on right-wing terrorist group structures, tactics and target groups in Germany. The book also contains a complete list of all the German right-wing terrorist groups and incidents since the Second World War. Based on the most detailed dataset of right-wing terrorism in Germany, this book offers highly valuable insights into this specific form of political violence and terrorism, which has been widely neglected in international terrorism research.

**Hub Perdue** John A. Simpson,2013-10-17 A strong-armed devastating spitball pitcher from rural Tennessee who once won 16 games with the Boston Braves, Hub Perdue is better remembered today as one of the clown princes of the Deadball Era. Often compared with fellow player-comedians Germany Schaefer, Nick Altrock, and Rabbit Maranville, Perdue had a quick wit and a rebellious streak that amused teammates but sometimes led to conflicts with management and umpires. ("Mix 'em up!" manager George Stallings had told him, encouraging the weak-hitting pitcher to take his at-bats more seriously; Perdue, a right-hander, dutifully took his strikeouts from alternating sides of the plate.) His penchant for the subversive—he was also a players' union representative who freely dispensed advice on contracts and negotiation—might in fact have curtailed what had been a promising big league career. But his antics in the majors and minors became the stuff of legend, known as "Hublore."
