A Visit to Don Otavio Sybille Bedford,2010-10-29 This affectionate study of the Mexican temper is 'one of the most charming travel books ever written.' - The Atlantic Monthly Before returning to the Old World after World War II, Sybille Bedford resolved to see something more of the New. 'I had a great longing to move,' she said, 'to hear another language, eat new food, to be in a country with a long nasty history in the past and as little present history as possible.' And so she set out for Mexico - and, incidentally, to write what Bruce Chatwin called the best travel book of the twentieth century, 'a book of marvels, to be read again and again and again.'

Compiler Construction David A. Watt,2003-06-29 ETAPS2000 was the third instance of the European Joint Conferences on Theory and Practice of Software. ETAPS is an annual federated conference that was established in 1998 by combining a number of existing and new conferences. This year it comprised 7 conferences (FOSSACS, FASE, ESOP, CC, TACAS), 7 satellite workshops (CBS, CMCS, CoFI, GRATRA, INT), seven invited lectures, a panel discussion, and ten tutorials. The events that comprise ETAPS address various aspects of the system development process, including specification, design, implementation, analysis, and improvement. The languages, methodologies, and tools which support these activities are all well within its scope. Different blends of theory and practice are represented, with an inclination towards theory with a practical motivation on one hand and soundly-based practice on the other. Many of the issues involved in software design apply to systems in general, including hardware systems, and the emphasis on software is not intended to be exclusive.
