Gold Coins of the World, 10th edition Arthur & Ira Friedberg,2023-12-20 The tenth edition of Gold Coins of the World expands on its predecessor, digging more deeply into new areas of collector interest, and expanding many sections. From the coins of Ancient Greece, Rome, and the Byzantine Empire, and from Afghanistan through Zanzibar, it includes the addition of many new discoveries for dozens of countries. From the 384 pages of the 1958 edition, the work has expanded to 852 pages, which have been completely revised and updated. The authors have listed more than 22,000 coin types, which are illustrated with more than 8,500 photos—now, for the first time, each one of them in color. Each country's section includes tables of weight and fineness. The market valuations are extensively revised to reflect both the higher price of gold as well as the skyrocketing demand for numismatic rarities. Valuations are now provided, for the first time, in up to three states of preservation. Many of the prices, especially for great rarities and coins in higher grades, have at least doubled. In fact, as collectors recognize the scarcity of coins in the highest states of preservation, the premium for such coins relative to lower-graded ones is escalating beyond traditional proportions. The coinage of India and the Islamic world, long dismissed by western collectors as difficult to decipher, unimportant, and lacking in value, is now the subject of intense interest, and has shown some of the most dramatic increases of all. The reader will also find a useful directory of the world's leading gold-coin dealers and auction houses. For the numismatist, banker, economist, historian, or institution of higher learning, the tenth edition of Gold Coins of the World is a book for every library, public and private.

The Reshaping of China-Southeast Asia Relations in Light of the COVID-19 Pandemic Nian Peng,2021-01-28 This book aims to examine the multiple effects of the COVID-19 pandemic on China-Southeast Asia relations from both Chinese and Southeast Asian perspectives. It invites many officials and scholars from the leading think-tanks and famous universities in China and Southeast Asian states to contribute and tries to reveal how has China-Southeast Asia relations been reshaping during/after the COVID-19 pandemic and discuss what kind of measures could be taken to push forward China-Southeast Asia relations and thus ensuring the peace and prosperity in the region. The main content of this book is divided into 10 parts, in which the first chapter briefly introduces the COVID-19 situation in China and Southeast Asia, China's anti-COVID efforts, and the impacts of the COVID-19 on China-Southeast Asia relations from Chinese and Southeast Asian perspectives. Chapter 2 examines the dual influence of the pandemic on the construction of China-ASEAN community of a shared future and gave some useful policy recommendations on improving China-Southeast Asia relations. The following 8 chapters go deep into the Southeast Asian states' response to COVID-19 and the economic, political and social effects of the COVID-19 on Southeast Asia–China relations, and look forward the future development of such relations. In addition, it also analyzes Southeast states' reactions to the intense Sino-US power rivalry during/after the COVID-19 pandemic. This book is probably the first comprehensive study that investigates the impacts of the COVID-19 pandemic on China–Southeast Asia relations from both Chinese and Southeast Asian perspectives. It would not only open up a new area of study on China and Southeast Asia relations, but provide insightful observations and useful information for governments, companies and social organizations to facilitate cooperation in trade and investment, public health, and people-to-people exchanges. Therefore, the intended readership not only includes the academics but also officials, businessmen, journalists and social activists. The most important feature of this book is that it points out China–Southeast Asia relations would be reshaped by COVID-19 in the long run and analyzes how it would be reshaped. It also shows a well-balanced view on the COVID-19 and China–Southeast Asia relations as both university scholars, think-tank experts

and government officials are involved in this book.
