Book Wagons American Library Association,1922

Library on Wheels Sharlee Glenn,2018-04-10 If you can't bring the man to the books, bring the books to the man. Mary Lemist Titcomb (1852–1932) was always looking for ways to improve her library. As librarian at the Washington County Free Library in Maryland, Titcomb was concerned that the library was not reaching all the people it could. She was determined that everyone should have access to the library—not just adults and those who lived in town. Realizing its limitations and inability to reach the county's 25,000 rural residents, including farmers and their families, Titcomb set about to change the library system forever with the introduction of book-deposit stations throughout the country, a children's room in the library, and her most revolutionary idea of all—a horse-drawn Book Wagon. Soon book wagons were appearing in other parts of the country, and by 1922, the book wagon idea had received widespread support. The bookmobile was born!

Mobile Library Services Charles Harmon,Michael Messina,2013 With the rapidly increasing use of smartphones and tablets in the library to access information; as well as the growing role of social media, blogging, and e-learning instruction, the identity of libraries themselves are being transformed. Every function of the library, such as customer service, can be improved with technology. Why reinvent the wheel? Instead, you can now implement or expand services while knowing how other libraries have met their user needs.
