**Politics and the Press** Pippa Norris,1997 Contains 12 contributions, including some original research, by scholars, journalists, and media executives at Harvard's Joan Shorenstein Center. Contributions focus on the influence of the press on the policy apparatus of government and the impact of economics and changes in communications technology on news reporting. The volume also includes perspectives on minorities and women as members of the news industry. Annotation copyrighted by Book News, Inc., Portland, OR

Governing with the News Timothy E. Cook,1998-02-17 From the opening decades of the republic when political parties sponsored newspapers to current governmental practices that actively subsidize the collection and dissemination of the news, the press and the government have been far from independent. Unlike those earlier days, however, the news is no longer produced by a diverse range of individual outlets but is instead the result of a collective institution that exercises collective power. In explaining how the news media of today operate as an intermediary political institution, akin to the party system and interest group system, Cook demonstrates how the differing media strategies used by governmental agencies and branches respond to the constitutional and structural weaknesses inherent in a separation-of-powers system. Cook examines the news media's capacity to perform the political tasks that they have inherited and points the way to a debate on policy solutions in order to hold the news media accountable without treading upon the freedom of the press.

**When the Press Fails** W. Lance Bennett,Regina G. Lawrence,Steven Livingston,2008-09-15 A sobering look at the intimate relationship between political power and the news media, When the Press Fails argues the dependence of reporters on official sources disastrously thwarts coverage of dissenting voices from outside the Beltway. The result is both an indictment of official spin and an urgent call to action that questions why the mainstream press failed to challenge the Bush administration's arguments for an invasion of Iraq or to illuminate administration policies underlying the Abu Ghraib controversy. Drawing on revealing interviews with Washington insiders and analysis of content from major news outlets, the authors illustrate the media's unilateral surrender to White House spin whenever oppositional voices elsewhere in government fall silent. Contrasting these grave failures with the refreshingly critical reporting on Hurricane Katrina—a rare event that caught officials off guard, enabling journalists to enter a no-spin zone—When the Press Fails concludes by proposing new practices to reduce reporters' dependence on power. "The hand-in-glove relationship of the U.S. media with the White House is mercilessly exposed in this determined and disheartening study that repeatedly reveals how the press has toed the official line at those moments when its independence was most needed."—George Pendle, Financial Times "Bennett, Lawrence, and Livingston are indisputably right about the news media's dereliction in covering the administration's campaign to take the nation to war against Iraq."—Don Wycliff, Chicago Tribune "[This] analysis of the weaknesses of Washington journalism deserves close attention."—Russell Baker, New York Review of Books

**Breaking News** Associated Press,2007-05-04 Uses personal accounts, archival materials, interviews, and Pulitzer-Prize-winning photographs to document AP's groundbreaking role in providing the news to the international and American press.

The News Media C.W. Anderson,Leonard Downie Jr,Michael Schudson,2016-08-11 The business of journalism has an extensive, storied, and often romanticized history. Newspaper reporting has long shaped the way that we see the world, played key roles in exposing scandals, and has even been alleged to influence international policy. The past several years have seen the newspaper industry in a state of crisis, with Twitter and Facebook ushering in the rise of citizen journalism and a deprofessionalization of the industry, plummeting readership and revenue, and municipal and regional papers shuttering or being absorbed into corporate behemoths. Now billionaires, most with no journalism experience but lots of power and strong views, are stepping in to purchase newspapers, both large and small. This addition to the What Everyone Needs to Know® series looks at the past, present and future of journalism, considering how the development of the industry has shaped the present and how we can expect the future to roll out. It addresses a wide range of questions, from whether objectivity was only a conceit of late twentieth century reporting, largely behind us now; how digital technology has disrupted journalism; whether newspapers are already dead to the role of non-profit journalism; the meaning of transparency in reporting; the way that private interests and governments have created their own advocacy journalism; whether social media is changing journalism; the new social rules of old media outlets; how franchised media is addressing the problem of disappearing local papers; and the rise of citizen journalism and hacker journalism. It will even look at the ways in which new technologies potentially threaten to replace journalists.

Information Needs of Communities Steven Waldman,2011-09 In 2009, a bipartisan Knight Commission found that while the broadband age is enabling an info. and commun. renaissance, local communities in particular are being unevenly served with critical info. about local issues. Soon after the Knight Commission delivered its findings, the FCC initiated a working group to identify crosscurrent and trend, and make recommendations on how the info. needs of communities can be met in a broadband world. This report by the FCC Working Group on the Info. Needs of Communities addresses the rapidly changing media landscape in a broadband age. Contents: Media Landscape; The Policy and Regulatory Landscape; Recommendations. Charts and tables. This is a print on demand report.

**The Flow of the News** International Press Institute,1972 A comprehensive analysis of the nature and extent of news flow among nations which is based upon data from 177 newspapers in ten countries and forty-five wire services.

**The News About the News** Leonard Downie, Jr.,Robert G. Kaiser,2007-12-18 Freedom of the press is a primary American value. Good journalism builds communities, arms citizens with important information, and serves as a public watchdog for civic, national, and global issues. But what happens when the news turns its back on its public role? Leonard Downie Jr., executive editor of The Washington Post, and Robert G. Kaiser, associate editor and senior correspondent, report on a growing crisis in American journalism. From the corporatization that leads media moguls to slash content for profit, to newsrooms that ignore global crises to report on personal entertainment, these veteran journalists chronicle an erosion of independent, relevant journalism. In the process, they make clear why incorruptible reporting is crucial to American society. Rooted in interviews and first-hand accounts, the authors take us inside the politically charged world of one of America's powerful institutions, the media.

*Making News at The New York Times* Nikki Usher,2014-04-24 Making News at The New York Times is the first in-depth portrait of the nation's, if not the world's, premier newspaper in the digital age. It presents a lively chronicle of months spent in the newsroom observing daily conversations, meetings, and journalists at work. We see Page One meetings, articles developed for online and print from start to finish, the creation of ambitious multimedia projects, and the ethical dilemmas posed by social media in the newsroom. Here, the reality of creating news in a 24/7 instant information environment clashes with the storied history of print journalism, and the tensions present a dramatic portrait of news in the online world. This news ethnography brings to bear the overarching value clashes at play in a digital news world. The book argues that emergent news values are reordering the fundamental processes of news production. Immediacy, interactivity, and participation now play a role unlike any time before, creating clashes between old and new. These values emerge from the social practices, pressures, and norms at play inside the newsroom as journalists attempt to negotiate the new demands of their work. Immediacy forces journalists to work in a constant deadline environment, an ASAP world, but one where the vaunted traditions of yesterday's news still appear in the next day's print paper. Interactivity, inspired by the new user-computer directed capacities online and the immersive Web environment, brings new kinds of specialists into the newsroom, but exacts new demands upon the already taxed workflow of traditional journalists. And at time where social media presents the opportunity for new kinds of engagement between the audience and media, business executives hope for branding opportunities while journalists fail to truly interact with their readers.

**Media and Culture with 2013 Update** Richard Campbell, Christopher R. Martin, Bettina Fabos, 2012-02-20 Today's media landscape is changing faster than ever, and students are experiencing these developments firsthand. Media & Culture pulls back the curtain on the media and shows students what all these new trends and developments really mean — giving students the deeper insight and context they need to become informed media critics. The 2013 Update also includes the must-cover events and trends students need to know to become informed media consumers and critics — from social media's influence on political events like the Occupy Wall Street movement and the Arab Spring revolutions and what the News Corp. phone-hacking scandal means for journalism to the continued growth of television streaming and apps and the advent of tablet-only newspapers. Read the preface.

**The Business of iPhone and iPad App Development** Dave Wooldridge, Michael Schneider, 2011-08-18 The phenomenal success of the iPhone, iPad and the iPod touch has ushered in a “gold rush” for developers, but with well over 300,000 apps in the highly competitive App Store, it has become increasingly difficult for new apps to stand out in the crowd. Achieving consumer awareness and sales longevity for your iOS app requires a lot of organization and some strategic planning. Updated and expanded for iOS 4, this bestselling book will show you how to incorporate marketing and business savvy into every aspect of the design and development process, giving your app the best possible chance of succeeding in the App Store. The Business of iPhone and iPad App Development was written by experienced developers with business backgrounds, taking you step-by-step through cost effective marketing techniques that have proven successful for professional iOS app creators—perfect for independent developers on shoestring budgets. No prior business knowledge is required. This is the book you wish you had read before you launched your first app!

**Governing With the News, Second Edition** Timothy E. Cook, 2012-08-06 The ideal of a neutral, objective press has proven in recent years to be just that—an ideal. In *Governing with the News*, Timothy E. Cook goes far beyond the single claim that the press is not impartial to argue that the news media are in fact a political institution integral to the day-to-day operations of our government. This updated edition includes a new afterword by the author, which pays close attention to two key developments in the twenty-first century: the accelerating fragmentation of the mass media and the continuing decline of Americans' confidence in the press. Provocative and often wise. . . . Cook, who has a complex understanding of the relationship between governing and the news, provides a fascinating account of the origins of this complicity.—James Bennet, *Washington Monthly* [*Governing with the News*] addresses central issues of media impact and power in fresh, illuminating ways. . . . Cook mines a wealth of historical and organizational literature to assert that the news media are a distinct political institution in our democratic system.—Robert Schmuhl, *Commonweal*

**News Grazers** Richard Forgette, 2018-01-12 How has growing media choice transformed the way we gather news? *News Grazers: Media, Politics, and Trust in an Information Age* offers you an integration of the emerging effects that cable news, online news, and social media have had on American politics. Author Richard Forgette, an expert on the U.S. Congress and public policy, draws on direct experimental research to argue that the diffusion of media outlets and media technologies has resulted in an increasingly fragmented and distracted news audience. This unprecedented level of media choice is not only altering who accesses the news and how they do it; more important, it is changing the news itself. With chapters on commentary news, partisan news, breaking news, and fake news, *News Grazers* gives you the tools you need to critically analyze the ever-shifting media landscape. Special attention is also paid to the effects of the media and political trust on the 2016 election. Key Features: Coverage of the media's effects on the 2016 election encourages you to discuss the election while taking into account the broader theoretical concerns about changing news consumption habits and declining political trust. The chapter on partisan news helps you understand the impact of politically polarized news audiences. The chapter on fake news offers you current examples of the political impact of this phenomenon. Examples of the ways in which Americans increasingly have become news grazers show you how growing media choice has transformed how we gather news and is resulting in an increasingly distracted news audience. Discussions about the development of commentary news show how producers have combined drama, opinion, immediacy, and entertainment with straight news content—allowing you to see the impact that this form of news has on the public's trust in Congress and the media.

**The Grouchies** Debbie Wagenbach, 2021-12-15 iParenting Media Award Mom's Choice Award for Children's Picture Books (Gold) What can you do when the grouchies take hold? How can you keep a bad mood at bay? With funny rhymes and a silly chant, *The Grouchies* shows kids simple and fun ways to turn around grouchy moods. But most of all, kids will understand how their mood and negativity can affect their family and friends, and really get in the way of having a good day. An extensive Note to Parents further explains the child's experience and provides parents with easy-to-apply tips and tools for helping their kids when a grumpy day comes along. From the Note to Parents: Everyone feels grouchy sometimes. Young children, as well as adults, are capable of an array of moods that can influence the ways in which situations are interpreted and the actions of other people are perceived. So a grouchy mood can negatively affect how you think or feel about anyone or anything. Grouchiness can be contagious, since people tend to mirror or “catch” the moods of those around them. Thus, a child's mood can be influenced by the negative disposition of a caregiver. Similarly, a negative mood in a young child can be so powerful that everyone in the house may feel it.

**Making the News** Amber E. Boydstun, 2013-08-26 Media attention can play a profound role in whether or not officials act on a policy issue, but how policy issues make the news in the first place has remained a puzzle. Why do some issues go viral and then just as quickly fall off the radar? How is it that the media can sustain public interest for months in a complex story like negotiations over Obamacare while ignoring other important issues in favor of stories on “balloon boy?” With *Making the News*, Amber Boydstun offers an eye-opening look at the explosive patterns of media attention that determine which issues are brought before the public. At the heart of her argument is the observation that the media have two modes: an “alarm mode” for breaking stories and a “patrol mode” for covering them in greater depth. While institutional incentives often initiate alarm mode around a story, they also propel news outlets into the watchdog-like patrol mode around its policy implications until the next big news item breaks. What results from this pattern of fixation followed by rapid change is skewed coverage of policy issues, with a few receiving the majority of media attention while others receive none at all. Boydstun documents this systemic explosiveness and skew through analysis of media coverage across policy issues, including in-depth looks at the waxing and waning of coverage around two issues: capital punishment and the “war on terror.” *Making the News* shows how the seemingly unpredictable day-to-day decisions of the newsroom produce distinct patterns of operation with implications—good and bad—for national politics.

**The People's News** Joseph E. Uscinski, 2014-02-03 Uncovers the surprising cause behind the recent rise of fake news In an ideal world, journalists act selflessly and in the public interest regardless of the financial consequences. However, in reality, news outlets no longer provide the most important and consequential stories to audiences; instead, news producers adjust news content in response to ratings, audience demographics, and opinion polls. While such criticisms of the news media are widely shared, few can agree on the causes of poor news quality. *The People's News* argues that the incentives in the American free market drive news outlets to report news that meets audience demands, rather than democratic ideals. In short, audiences' opinions drive the content that so often passes off as “the news.” *The People's News* looks at news not as a type of media but instead as a commodity bought and sold on the market, comparing unique measures of news content to survey data from a wide variety of sources. Joseph Uscinski's rigorous analysis shows news firms report certain issues over others—not because audiences need to know them, but rather, because of market demands. Uscinski also demonstrates that the influence of market demands also affects the business of news, prohibiting journalists from exercising independent judgment and determining the structure of entire news markets as well as firm branding. Ultimately, the results of this book indicate profit-motives often trump journalistic and democratic values. The findings also suggest that the media actively responds to audiences, thus giving the public control over their own information environment. Uniting the study of media effects and media content, *The People's News* presents a powerful challenge to our ideas of how free market media outlets meet our standards for impartiality and public service.
