Digital Forensic Investigation of Internet of Things (IoT) Devices Reza Montasari,Hamid Jahankhani,Richard Hill,Simon Parkinson,2020-12-09 This book provides a valuable reference for digital forensics practitioners and cyber security experts operating in various fields of law enforcement, incident response and commerce. It is also aimed at researchers seeking to obtain a more profound knowledge of Digital Forensics and Cybercrime. Furthermore, the book is an exceptional advanced text for PhD and Master degree programmes in Digital Forensics and Cyber Security. Each chapter of this book is written by an internationally-renowned expert who has extensive experience in law enforcement, industry and academia. The increasing popularity in the use of IoT devices for criminal activities means that there is a maturing discipline and industry around IoT forensics. As technology becomes cheaper and easier to deploy in an increased number of discrete, everyday objects, scope for the automated creation of personalised digital footprints becomes greater. Devices which are presently included within the Internet of Things (IoT) umbrella have a massive potential to enable and shape the way that humans interact and achieve objectives. These also forge a trail of data that can be used to triangulate and identify individuals and their actions. As such, interest and developments in autonomous vehicles, unmanned drones and 'smart' home appliances are creating unprecedented opportunities for the research communities to investigate the production and evaluation of evidence through the discipline of digital forensics.

The Demand for International Football Telecasts in the United States Georgios Nalbantis,Tim Pawlowski,2017-02-06 This book provides a comprehensive overview and economic analysis of US consumer demand for televised football (soccer). Accounting for transnational demand, research is focused on the US consumers demand for the English Premier League, Spanish La Liga, Italian Serie A, German Bundesliga, French Ligue 1 and the UEFA Champions League, which represent the most popular and marketable football competitions worldwide, and have recently sealed lucrative media rights contracts in many large markets, including the US. The study also takes account of North American Major League Soccer (MLS) in order to provide a more comprehensive overview of the country's football market and to allow for direct comparisons with the aforementioned European competitions. These findings offer valuable insights for US broadcasters, European league organizers and managers to adjust existing strategies and/or develop new strategies in conquering the US football market.

Innovation in Developmental Psychology, Education, Sports, and Arts: Advances in Research on Individuals and Groups Georgeta Panisoara,Alexandra Predoiu,Radu Predoiu,Andrzej Piotrowski,2023-10-27 Due to the expansion of knowledge around us we are "besieged" by a multitude of data that attracts our attention and pressures us to interact with it, motivating us to receive information, memorize, and form new skills. Children, adolescents, and adults' social, emotional, intellectual, and psychomotor development need to be taken into account when determining their ability to meet the demands in education or in a given sport or arts. Growth and technological advances in the areas of educational psychology, sport, and art have changed considerably over time, such as in relation to students' and athletes' preparation and performance. In this context, psychology often what makes the difference between good and great students (or athletes), between first and last place.

Global esports Dal Yong Jin,2021-03-25 Global eSports explores the recent surge of eSports in the global scene and comprehensively discusses people's understanding of this spectacle. By historicizing and institutionalizing eSports, the contributors analyze the rapid growth of eSports and its implications in culture and digital economy. Dal Yong Jin curates a discussion as to why eSports has become a global phenomenon. From games such as Spacewar to Starcraft to Overwatch, a key theme, distinguishing this collection from others, is a potential shift of eSports from online to mobile gaming. The book addresses why many global game players and fans play and enjoy online and mobile games in professional game competitions, and therefore, they investigate the manner in which the transfer to, from and between online and mobile gaming culture is occurring in a specific subset of global youth. The remaining focus identifies the major platforms used to enjoy eSports, including broadcasting and smartphones. By analyzing these unexamined or less-discussed agendas, this book sheds light on the current debates on the growth of global eSports culture.

Academic Research on the Internet William Miller,Helen Laurence,2001-03-19 Find what you're looking for with the best Internet resources for academic research in the humanities, sciences, and social sciences! Which academic resource deserves more of your budget: printed books and journals or softly glowing terminals? The answer differs depending on the subject area, the availability and reliability of Internet information in that field, and the comparative value of Internet research and traditional print media. Academic Research on the Internet: Options for Scholars and Libraries gives you the information you need to make those choices. This comprehensive book examines the usability of the Internet as a scholarly research and reference tool. Each chapter provides a snapshot of Internet information access and usability in a specific subject area, comparing it to traditional print media. In addition, each chapter includes a selected webliography of key resources-a time-saving tool for librarians on the reference desk. Experts in specific subject areas provide up-to-the-minute assessments of the usefulness of the Internet for research in their fields, including: Arts and Architecture Biology Engineering Chemistry Physics and Mathematics Music Philosophy English and American Literature History Political Science Business Education Anthropology and Sociology Health Sciences Public Administration Law Environmental Sciences Reference Academic Research on the Internet is designed to provide the facts you need about the reliability, timeliness, and availability of Internet information. With this information, you can decide on the relative value of print subscriptions, assess the degree to which the Internet alone can satisfy users' information needs, and make intelligent choices about budget allocation.

Information Technology Based Methods for Health Behaviours A.J. Maeder,S. Champion,C. Moores,2020-03-12 Understanding and modifying health behaviors plays an important part in healthcare. The need to change behaviors applies across a range of health contexts, from individual interventions to the clinically-delivered management of chronic diseases and rehabilitation. Telehealth or virtual care technology offers many possible advantages here, including cost-efficiency, scalability, personalization, and automated high volume data collection and analysis,

but success will depend on the effectiveness of the design, implementation and deployment of IT-based methods. This book, which forms part of the Global Telehealth series, includes papers presented at Global Telehealth 2019 (GT2019), a National Symposium on the topic of IT-based Methods for Health Behaviours held in Adelaide, Australia on 5 July 2019. The 10 papers selected for inclusion here comprise only full-paper, blind peer-reviewed contributions received for the symposium and the subsequent call for further contributions. Topics range from the scientific theory of health behavior change, through technological approaches to active ageing and the implementation of the 10,000 steps project, to a discussion of digital infrastructure for the storing & sharing of internet of things, wearables and app-based research study data. The book will be of interest to all researchers, managers and healthcare practitioners working to bring about positive changes in health behavior.
