Book Design and Production Pete Masterson,2005 If you are a writer working with a publisher (large or small) or if you are a small or first time publisher, BOOK DESIGN AND PRODUCTION will help you understand the book production process and the principles of good cover and interior book design. It will allow you to look at a book design and immediately see the common errors and to see that a book is following the traditions of good book design that gives credibility to your message. Whether you do the work yourself or hire it done, BOOK DESIGN AND PRODUCTION will help you get your book done right. Use this book to guide you through the book design and production process.

Model Rules of Professional Conduct American Bar Association. House of Delegates,Center for Professional Responsibility (American Bar Association),2007 The Model Rules of Professional Conduct provides an up-to-date resource for information on legal ethics. Federal, state and local courts in all jurisdictions look to the Rules for guidance in solving lawyer malpractice cases, disciplinary actions, disqualification issues, sanctions questions and much more. In this volume, black-letter Rules of Professional Conduct are followed by numbered Comments that explain each Rule's purpose and provide suggestions for its practical application. The Rules will help you identify proper conduct in a variety of given situations, review those instances where discretionary action is possible, and define the nature of the relationship between you and your clients, colleagues and the courts.

Mosby's Pathology for Massage Therapists - E-Book Susan G. Salvo,2013-02-11 Written by a massage therapist for massage therapists, Mosby's Pathology for Massage Therapists, 3rd Edition provides direct information along with focused recommendations. Coverage of over 340 pathologies helps you appropriately tailor massage treatment, and more than 750 full-color photographs and illustrations make it easier to recognize common pathologies. This edition includes a new chapter on geriatric massage and has been extensively reviewed by over a dozen experts in the massage and medical fields. Written by massage therapy educator and practitioner Susan Salvo, this resource provides the pathology knowledge you need to succeed on licensure and certification exams and in practice. A traffic light icon appears before each pathology in the book, designating whether massage is contraindicated (red), local contraindication (yellow), or indicated (green) for that particular pathology. Consistent format for each chapter makes it easy to find key information with learning objectives, list of pathologies, system overview, and pathologies, including description, etiology, signs and symptoms, treatment, and massage considerations. Student-friendly features in each chapter include learning objectives and self-tests that measure your comprehension. Medical Technology boxes highlight special populations, such as clients in wheelchairs or with pacemakers, and explain what the medical device is, and what special precautions or contraindications you should be aware of before working on these clients. Spotlight on Research boxes summarize recent studies of massage therapy and its effects. Student resources on an Evolve companion website include interactive activities, video clips of techniques, animations, the Body Spectrum coloring book, flashcards, review questions, additional case studies, an image collection, an audio glossary, study tips, stress-busting tips, research updates, and more. Mosby's Pathology for Massage Therapists Online reinforces content covered in the book and provides a dynamic way to learn key concepts, with features including recall activities, rollover glossary terms and definitions, animations, quizzes, and Clinical Tips boxes. (Available separately.)

Effectiveness of Tax and Price Policies for Tobacco Control IARC Working Group on the Effectiveness of Tax and Price Policies for Tobacco Control,International Agency for Research on Cancer,2011 This new volume of the IARC Handbooks of Cancer Prevention in Tobacco Control presents a critical review and evaluation of the evidence by 25 international experts from twelve countries on the economics, epidemiology, public policy and tobacco control aspects of tax and price policies. The working group draws conclusions about the effectiveness of tax and price measures to control tobacco use in the population. The Handbook covers an overview of tobacco taxation; industry pricing strategies and other industry initiatives diluting the effects of taxes on consumption; tax, price and aggregated demand for tobacco, as well as demand at the individual level in adults, young people and the economically disadvantaged; tax avoidance and tax evasion and the economic and health impacts of tobacco taxation. This body of evidence and the consensus evaluation of 18 concluding statements on the impact of interventions to increase the price of tobacco products, can assist policy makers, government officials, evaluators and researchers working in tobacco control and disease prevention, to base their decisions on the latest scientific evidence.

Foundational Texts of Mormonism Mark Ashurst-McGee,Robin Jensen,Sharalyn D. Howcroft,2018-02-16 Joseph Smith, founding prophet and martyr of the Church of Jesus Christ of Latter-day Saints, personally wrote, dictated, or commissioned thousands of documents. Among these are several highly significant sources that scholars have used over and over again in their attempts to reconstruct the founding era of Mormonism, usually by focusing solely on content, without a deep appreciation for how and why a document was produced. This book offers case studies of the sources most often used by historians of the early Mormon experience. Each chapter takes a particular document as its primary subject, considering the production of a document as an historical event in itself, with its own background, purpose, circumstances, and consequences. The documents are examined not merely as sources of information but as artifacts that reflect aspects of the general culture and particular circumstances in which they were created. This book will help historians working in the founding era of Mormonism gain a more solid grounding in the period's documentary record by supplying important information on major primary sources.

Golden Leaves and Burned Books Teemu Immonen,Gabriele Müller-Oberhäuser,2020-07-30 In religious reforms, books and other forms of written communication play a dominant role, both for individuals as well as for groups. Covering the period from the late Middle Ages to the early seventeenth century, the chapters of this volume reflect on the use of books in religious reform movements and their impact on lay people and monastic communities. For those committed to religious renewal, books are the necessary and often enthusiastically welcomed vehicles for the transmission of religious reform concepts. They are at the same time often the objects of severe opposition and negative reactions in attempts at hindering or reversing religious reform for others. The researchers make use of approaches from cultural history, book history and English studies, among others. Contributions range from theory and practices of religious reform with special regard to the interaction between the laity and religious orders in their search for models of 'good religious living' to research on the changing processes of communication from manuscript to print and their impact on religious renewal.

The Bloomsbury Handbook of Posthumanism Mads Rosendahl Thomsen,Jacob Wamberg,2020-07-23 As our ideas of the human have come under increasing challenges – from technological change, from medical advances, from the existential threat of climate crisis, from an ideological decentering of the human, amongst many other things – the 'posthuman' has become an increasingly central topic in the Humanities. Bringing together leading scholars from across the world and a wide range of disciplines, this is the most comprehensive available survey of cutting edge contemporary scholarship on posthumanism in literature, culture and theory. The Bloomsbury Handbook of Posthumanism explores: - Central critical concepts and approaches, including transhumanism, new materialism and the Anthropocene - Ethical perspectives on ecology, race, gender and disability - Technology, from data and artificial intelligence to medicine and genetics - A wide range of genres and forms, from literary and science fiction, through film, television and music, to comics, video games and social media.

Britannica Book of the Year ,2017

Water and Energy Gustaf Olsson,2015-06-14 Rapid and important developments in the area of energy - water nexus over the last two to three years have been significant. This new edition of Water and Energy: Threats and Opportunities is timely and continues to highlight the inextricable link between water and energy, providing an up-to-date overview of the subject with helpful detailed summaries of the technical literature. Water and Energy has been up-dated throughout and major changes are: new chapters on global warming and fossil fuels, including shale gas and fracking; the consequences of the Deepwater Horizon accident in the Mexican Gulf and the Niger Delta oil spills; new developments in hydropower; and continued competition between food, water and energy. Water and Energy Threats and Opportunities, 2e creates an awareness of the important couplings between water and energy. It shows how energy is used in all the various water cycle operations and demonstrates how water is used and misused in all kinds of energy production and generation. Population increase, climate change and an increasing competition between food and fuel production create enormous pressures on both water and energy availability. Since there is no replacement for water, water security looks more crucial than energy security. This is true not only in developing countries but also in the most advanced countries. For example, the western parts of the USA suffer from water scarcity that provides a real security threat. Part One of the book describes the water-energy nexus, the conflicts and competitions and the couplings between water security, energy security, and food security. Part Two captures how climate change, population increase and the growing food demand will have major impact on water availability in many countries in the world. Part Three describes water for energy and how energy production and conversion depend on water availability. As a consequence, all planning has to take both water and energy into consideration. The environmental (including water) consequences of oil and coal exploration and refining are huge, in North America as well as in the rest of the world. Furthermore, oil leak accidents have hit America, Africa, Europe as well as Asia. The consequences of hydropower are discussed and the competition between hydropower generation, flood control and water storage is illustrated. The importance of water for cooling thermal power plants is described, as this was so tragically demonstrated at the Fukushima nuclear plants in 2011. Climate change will further emphasize the strong coupling between water availability and the operation of power plants. Part Four analyses energy for water - how water production and treatment depend on energy. The book shows that a lot can be done to improve equipment, develop processes and apply advanced monitoring and control to save energy for water operations. Significant amounts of energy can be saved by better pumping, the reduction of leakages, controlled aeration in biological wastewater treatment, more efficient biogas production, and by improved desalination processes. There are 3 PowerPoint presentations available for Water and Energy - threats and opportunities, 2e. About the author Gustaf Olsson, Professor Em. in Industrial Automation, Lund University, Sweden Since 2006, Gustaf has been Professor Emeritus at Lund University, Sweden. Gustaf has devoted his research to control and automation in water systems, electrical power systems and process industries. From 2006 to 2008 he was part time professor in electrical power systems at Chalmers University of Technology, Sweden. He is guest professor at the Technical University of Malaysia (UTM) and at the Tsinghua University in Beijing, China and he is an honorary faculty member of the Exeter University in UK. Between 2005 and 2010 he was the editor-in-chief of the journals Water Science and Technology and Water Science and Technology/Water Supply, (IWA Publishing). From 2007 to 2010, he was a member of the IWA Board of Directors and in 2010 he received the IWA Publication Award. In 2012 he was the awardee of an Honorary Doctor degree at UTM and an Honorary Membership of IWA. Gustaf has guided 23 PhDs and a few hundred MSc students through their exams and has received the Lund University pedagogical award for distinguished achievements in the education. The Lund University engineering students elected him as the teacher of the year He has spent extended periods as a guest professor and visiting researcher at universities and companies in the USA, Australia and Japan and has been invited as a guest lecturer in 19 countries outside Sweden. He has authored nine books published in English, Russian, German and Chinese and contributed with chapters in another 19 books as well as more than 170 scientific publications.

The Shut Up and Shoot Video Production Guide Anthony Q. Artis,2023-07-24 Anthony Q. Artis is a 30-year veteran of the film and TV industry whose features and TV shows have screened at the Tribeca Film Festival and the IFP Market, as well as on MTV and the Independent Film Channel. Anthony works professionally as a producer, director, and cinematographer at MightyAntMedia.com and has taught video production at New York University for two decades now. He is the author of the bestselling Shut Up and Shoot Documentary Guide (2014), The Shut Up and Shoot Freelance Video Guide (2011), and numerous filmmaking courses on LinkedInLearning.com . Accessible and comprehensive, this book is a great introduction on how to make movies and video projects with limited resources, time, or experience. Artis will teach readers the “Down and Dirty” filmmaking mindset, which forces filmmakers to be creative with their resources, do more with less, and result in a better, faster, and less expensive product. Drawing on more than 30 years of experience, Artis covers such wide-ranging topics as composition, lens choice, smartphone filmmaking, audio equipment, lighting and grip basics, and much more. With more than 500 full-color pictures, tips from pros, checklists, and case studies, readers will be well prepared to apply their knowledge to their shoots. Written by an indie filmmaker for indie filmmakers, this book is perfect for rookies, veterans, and students who want to maximize their budget while turning in top-quality work.

Incomplete Urbanism William Siew Wai Lim,2012 Foreword by Leon van Schaik Incomplete Urbanism is a dynamic, hybrid interactive concept, which destabilizes the current architectural and urban theories and practices. Its main characteristics are indeterminacy, inconsistency and changeability, which are particularly challenging in the context of the New World Order and the fast emerging global digital network. It is a concept

that can be effectively applied to any sizeable section of existing cities without the need for major readjustments and can be implemented at different rates in response to specific local conditions. As for the word "critical", I use it deliberately in order to convey the essential need to think creatively and positively in a controversial contesting and social-orientated manner about what we do, as it will constructively influence the way we do things that impact our values and social environment.
