Philip David Alexander

*101 Things for Kids to do on a Rainy Day* Dawn Isaac, 2018-07-16 From the author of *101 Things for Kids to do Outside*, which has fast become a go-to book for children and parents alike, comes this excellent new volume full of creative (and occasionally crazy) ideas for things to do when the weather is bad and you're stuck inside - without having to go anywhere near a TV or computer screen! Why not grow a windowsill herb garden, make your own jigsaw, or learn to play the guitar? Get crafty with decoupage and salt dough, or play detective by dusting for fingerprints. Exciting makes include terrariums and kaleidoscopes, whilst wacky games cover everything from Balloon Stomp to Sticky Note Scramble. All 101 ideas are designed to be achievable with little or no parental help, and only use materials that you already have around the house. With a wealth of creative and fun suggestions to keep you amused, you might not even notice that the rain has stopped.

**African Handbook of Climate Change Adaptation** Nicholas Oguge, Desalegn Ayal, Lydia Adeleke, Izael da Silva, 2021-05-20 This open access book discusses current thinking and presents the main issues and challenges associated with climate change in Africa. It introduces evidences from studies and projects which show how climate change adaptation is being - and may continue to be successfully implemented in African countries. Thanks to its scope and wide range of themes surrounding climate change, the ambition is that this book will be a lead publication on the topic, which may be regularly updated and hence capture further works. Climate change is a major global challenge. However, some geographical regions are more severely affected than others. One of these regions is the African continent. Due to a combination of unfavourable socio-economic and meteorological conditions, African countries are particularly vulnerable to climate change and its impacts. The recently released IPCC special report *Global Warming of 1.5o C* outlines the fact that keeping global warming by the level of 1.5o C is possible, but also suggested that an increase by 2o C could lead to crises with crops (agriculture fed by rain

could drop by 50% in some African countries by 2020) and livestock production, could damage water supplies and pose an additional threat to coastal areas. The 5th Assessment Report produced by IPCC predicts that wheat may disappear from Africa by 2080, and that maize— a staple—will fall significantly in southern Africa. Also, arid and semi-arid lands are likely to increase by up to 8%, with severe ramifications for livelihoods, poverty eradication and meeting the SDGs. Pursuing appropriate adaptation strategies is thus vital, in order to address the current and future challenges posed by a changing climate. It is against this background that the African Handbook of Climate Change Adaptation is being published. It contains papers prepared by scholars, representatives from social movements, practitioners and members of governmental agencies, undertaking research and/or executing climate change projects in Africa, and working with communities across the African continent. Encompassing over 100 contributions from across Africa, it is the most comprehensive publication on climate change adaptation in Africa ever produced.

All You Need Is a Pencil: The Rainy Day Activity Book Joe Rhatigan, 2014-04-08 Rain, rain, go away . . . actually, after seeing this activity book, kids will say: Rain, rain, please STAY! It's so chock-full of fun things that it won't matter what the weather is like. Children will never be bored when they can create a drawing of what a rooster might look like as a robot, finish silly sentences, and solve mini-crosswords. Or maybe they'll lose their marbles playing the Lost Your Marbles? word search game. Budding fashionistas can design a t-shirt on the page (and maybe a real one), while future rock 'n' roll stars can pick the perfect band name by picking from a word list or by randomly choosing phrases from the dictionary. A few games are meant for two—just in case a friend's around. With tongue twisters to make you snort, off with its head fill-ins (where you chop off the first letter), and classic riddles and conundrums, you won't care how hard it pours!
