John Eagles

The Reveller Dean Riley,2006-09-08 Anyone who experienced the explosion of the dance and drug culture in the early 90's will be able to relate to the exploits of Robbie Jacobs. Follow his journey as he grows up from a meagre outsider to a big time drug dealer. He develops a relationship and together they experience the highs and lows of the chemical era. His world is then thrown upside down as she goes to university and his life is changed forever. His trip takes him into a world of hard drug taking and indiscriminate sex that turns him from being level-headed to a paranoid psychopath.

Arnold's Poetic Landscapes Alan Roper,2019-12-01 Originally published in 1969. Alan Roper studies the degree to which Arnold achieved a unity of human significance and literal landscape. If landscape poetry is to rise above the level of what Roper calls country contentments in verse, the poet cannot think and describe alternately; his thinking and describing must be a part of one another. That Matthew Arnold was aware of the difficulty in achieving the necessary unity becomes clear in his own criticism, which Roper examines along with a large and representative number of Arnold's poems. Considering the latter roughly in the order they were published—except for a fuller analysis of Empedocles on Etna, The Scholar-Gipsy, and Thyrsis—Roper follows important changes in Arnold's view of the function and nature of poetry as it emerged in the poems themselves. Basic to the author's critical method is a distinction between geographical sites and poetic landscapes. Focusing on the ways that Arnold and, to a lesser extent, the Augustan and Romantic poets before him untied thought and description, Roper adds a critical dimension to Arnold scholarship. Concerned not with the development of Arnold's ideas nor with their sources in classical antiquity and the Romantic period, he considers Arnold a self-conscious poet who, though sometimes successful, became increasingly unsuccessful in his efforts to imbue a landscape with meaning for individual or social man.

The Central Self Patricia M. Ball,2014-01-13 In this closely argued book Dr Ball is concerned to analyse the imaginative process of self-understanding which emerged as a characteristic feature of English Romantic poetry and, acquiring fresh creative force in the Victorian period, has been transmitted to our own times as a determining principle of the contemporary imagination. Dr Ball relates her discussion to the distinction between the poet speaking directly in his own voice and the impulse to dramatised utterance – the two modes of poetic expression conveniently summed up in Keats's contrasting terms 'egotistical sublime' and 'chameleon'. She shows how these 'polar' tendencies co-exist fruitfully in the work of Wordsworth, Coleridge, Byron, Shelley and Keats and from this standpoint supplies a coherent appreciation of the little-regarded plays written by these poets. Turning to Victorian critics and poets Dr Ball considers how the Romantic inheritance fared at their hands. She sees in the poets, notably Tennyson, Arnold, Browning, and Hopkins, a vital link by which the Romantic commitment to the agency of self-consciousness has been carried forward to the twentieth century and concludes with a brief sketch of the creative role of self-exploration in T. S. Eliot and W. B. Yeats.

The Revellers Louis Tracy,2014-09-17 And the king was much moved, and went up to the chamber over the gate, and wept: and as he went, thus he said, O my son Absalom, my son, my son Absalom! Would God I had died for thee, O Absalom, my son, my son!
