The goal of the game is to complete all ten phases, one round at a time. At the end of a round, players will add up their score based on the number and type of cards left. The goal is to have the lowest score at the end of the game. Watch out; if you don't complete your phase in a round, you must repeat it in the next round! The Phase 10 deck of cards is made up of numeric cards, 1 - 12, in four colors: Red, Blue, Green, Yellow. There are 2 of each number for each color. There are also eight wild cards (which can represent any number or any color), and four skip cards (which, when played, will skip the turn of a designated player, chosen by the person performing the skip. The phases are: 2 sets of 3 1 set of 3 + 1 run of 4 1 set of 4 + 1 run of 4 1 run of 7 1 run of 8 1 run of 9 2 sets of 4 7 cards of one color 1 set of 5 + 1 set of 2 1 set of 5 + 1 set of 3 A set is a group of the same numbers (three of a kind, four of a kind, five of a kind, etc.) A run is a sequential group of numbers (2 3 4 5, 7 8 9 10 11 12, etc.) Wilds can be played as any number in a set or run, also any color. Once a player has completed the 10th and final phase, and a player has gone out to end the round, one final round of scoring is noted. The scores from all played rounds (it may be more than 10 for games with more

than two people) are then added up. The person with the lowest score wins! Grab this book for yourself or a friend today and record all Phase 10 Card Games Scores!

Personal Balanced Scorecard Hubert K.

Rampersad, 2006-06-01 The Personal Balanced Scorecard (PBSC) is a journey into the inner self, where values, hopes, dreams and aspirations lie quietly waiting to be discovered. Taking the journey as an individual allows you to view your life objectively and authentically as a whole person and provides a roadmap of your dreams and aspirations translated into manageable and measurable milestones. As a part of the Total Performance Scorecard (TPS) process which I introduced in 2003 in Total Performance Scorecard: Redefining Management to Achieve Performance with Integrity, and which has been translated into more than 20 languages, the Personal Balanced Scorecard can also be an effective way for managers to coach others to achieve integrity and alignment between work and life. The benefit comes from changing individual behavior in order to drive organizational effectiveness, enhance performance, and increase self-awareness, personal responsibility and motivation. PBSC is an integral part of this organic and holistic Total Performance Scorecard process, which is an organizational and cultural change tool and a method for ongoing effectiveness. Its uniqueness lies in aligning and a combination of Personal and

Organizational goals to result in Individual Performance Plans for each employee. The focus of this book is the PBSC portion, which comprises a search for self-knowledge, self-discovery and self-mastery.

An analysis how the Balanced Score Card approach could enhance the personal contentedness considering the change in the society from a Work/Life balance to a multi-duty-life of individuals in consulting companies in Germany
Christian Friedrichs, 2011-05-17

Inhaltsangabe: Introduction: 1.1, Introduction and background: Social changes are making their mark. Current developments constitute a tremendous upheaval that, over the next ten years, will exert a lasting influence on people's everyday lives, their desires, values, and their behavior as consumers. Work vs. Life turns into a Multi-Duty-Life: The uncommitted self-time is diminishing. The GIM (Gesellschaft für Innovative Marktforschung) developed the Delphi 2017 study where they came to the conclusion mentioned above. The results are significant information how the individuals will change their behavior and needs over the next years. But how does this affect the approaches of consulting companies that want to strengthen the work/life balance of their employees? To help our people balance work and life Accenture has flexible work arrangements in more than 30 countries around the world. We also offer a wide variety of traditional and non-traditional work/life programs for employees and their families. Especially in times when well educated employees are a rare property the

necessity is high to offer more than just good salaries. The innovative fantasy is needed to develop solutions that differentiate a company from their competitors (competitor in case of different employer). Particularly in cases when highest assignment is questioned from the employees, the employer must find uniquely solutions. The author wants to analyze the existing tools that are used to support the work/life balance. After questioning a representative number of consultants from different consulting companies based in Germany he wants to elaborate areas that are important for the employees. The survey structure will be oriented on the four perspectives of the Personal Balanced Scorecard. The Personal Balanced Scorecard is based on an approach from Hubert K. Rampersad and integrates personal goals with career goals. Based on the results the author wants to develop tools that support the individual needs. Additionally the Personal Balanced Scorecard will be used to support employees to manage their needs and to support the employer to measure the current satisfaction level and the improvements. 1.2, Aims and objectives: The aim of the dissertation is an analysis how existing tools support an enhancement of the contentedness of employees within consulting companies based in Germany. Based on the results of the survey and on expected cultural changes evaluated in [...]

Balanced Scorecard Strategy For Dummies Charles Hannabarger, Frederick Buchman, Peter Economy, 2011-02-09 A practical, easy-to-understand guide to Balanced Scorecard for busy business leaders The Balanced Scorecard method is an analysis technique designed to translate an organization's mission and vision statement and overall business strategies into specific, quantifiable goals, and to monitor the organization's performance in achieving these goals. Much less technology driven than other analysis approaches, it analyzes an organization's overall performance in four regards: financial analysis, customer service, productivity and internal analysis, and employee growth and satisfaction. **Balanced Scorecard Strategy For Dummies** breaks down the basics of Balanced Scorecard in simple language with practical, Dummies-style guidance on getting it done. This book covers all the basics of Balanced Scorecard for busy executives and managers-and does it without the high price tag of most professional level Balanced Scorecard guides.
