Sell Like Crazy Hans-Peter Oswald,2008-05-01 This book shows you 1000 ways to seduce your website's visitor: Make visitors to buyers. Better: Make customers to friends. It explains how to become a successful seller by viral marketing at the web.

Traffic Secrets Russell Brunson,2023-07-25 Master the evergreen traffic strategies to fill your website and funnels with your dream customers in this timeless book from the \$100M entrepreneur and co-founder of the software company ClickFunnels. The biggest problem that most entrepreneurs have isn't creating an amazing product or service; it's getting their future customers to discover that they even exist. Every year, tens of thousands of businesses start and fail because the entrepreneurs don't understand this one essential skill: the art and science of getting traffic (or people) to find you. And that is a tragedy. Traffic Secrets was written to help you get your message out to the world about your products and services. I strongly believe that entrepreneurs are the only people on earth who can actually change the world. It won't happen in government, and I don't think it will happen in schools. It'll happen because of entrepreneurs like you, who are crazy enough to build products and services that will actually change the world. It'll happen because we are crazy enough to risk everything to try and make that dream become a reality. To all the entrepreneurs who fail in their first year of business, what a tragedy it is when the one thing they risked everything for never fully gets to see the light of day. Waiting for people to come to you is not a strategy. Understanding exactly WHO your dream customer is, discovering where they're congregating, and throwing out the hooks that will grab their attention to pull them into your funnels (where you can tell them a story and make them an offer) is the strategy. That's the big secret. Traffic is just people. This book will help you find YOUR people, so you can focus on changing their world with the products and services that you sell.

The Spellbook of Katrina Van Tassel Alyssa Palombo,2018-10-02 Marrying forbidden love, devoted friendship, and the supernatural with Palombo's signature passion for music, storytelling, and heartbreaking choices, The Spellbook of Katrina Van Tassel enchants with a concoction of love, longing, and loss plucked from the bones of one of our most enduring and haunting legends. - Erin Lindsay McCabe, USA Today bestselling author of I Shall Be Near to You When Ichabod Crane arrives in the spooky little village of Sleepy Hollow as the new schoolmaster, Katrina Van Tassel is instantly drawn to him. Through their shared love of books and music, they form a friendship that quickly develops into romance. Ichabod knows that as an itinerant schoolteacher of little social standing, he has nothing to offer the wealthy Katrina – unlike her childhood friend-turned-enemy, Brom Van Brunt, who is the suitor Katrina's father favors. But when romance gives way to passion, Ichabod and Katrina embark on a secret love affair, sneaking away into the woods after dark to be together – all while praying they do not catch sight of Sleepy Hollow's legendary Headless Horseman. That is, until All Hallows's Eve, when Ichabod suddenly disappears, leaving Katrina alone and in a perilous position. Enlisting the help of her friend – and rumored witch – Charlotte Jansen, Katrina seeks the truth of Ichabod Crane's disappearance, investigating the forest around Sleepy Hollow using unconventional – often magical – means. What they find forces Katrina to question everything she once knew, and to wonder if the Headless Horseman is perhaps more than just a story after all. In Alyssa Palombo's The Spellbook of Katrina Van Tassel nothing is as it seems, and love is a thing even death won't erase.

Data Driven Karen Levy,2024-06-18 A behind-the-scenes look at how digital surveillance is affecting the trucking way of life Long-haul truckers are the backbone of the American economy, transporting goods under grueling conditions and immense economic pressure. Truckers have long valued the day-to-day independence of their work, sharing a strong occupational identity rooted in a tradition of autonomy. Yet these workers increasingly find themselves under many watchful eyes. Data Driven examines how digital surveillance is upending life and work on the open road, and raises crucial questions about the role of data collection in broader systems of social control. Karen Levy takes readers inside a world few ever see, painting a bracing portrait of one of the last great American frontiers. Federal regulations now require truckers to buy and install digital monitors that capture data about their locations and behaviors. Intended to address the pervasive problem of trucker fatigue by regulating the number of hours driven each day, these devices support additional surveillance by trucking firms and other companies. Traveling from industry trade shows to law offices and truck-stop bars, Levy reveals how these invasive technologies are reconfiguring industry relationships and providing new tools for managerial and legal control—and how truckers are challenging and resisting them. Data Driven contributes to an emerging conversation about how technology affects our work, institutions, and personal lives, and helps to guide our thinking about how to protect public interests and safeguard human dignity in the digital age.

The Unlikely Thru-Hiker Derick Lugo,2019 Derick Lugo had never been hiking. He didn't even know if he liked being outside all that much. He certainly couldn't imagine going more than a day without manicuring his goatee. But with a job overseas cut short and no immediate plans, this fixture of the greater New York comedy circuit began to think about what he might do with months of free time and no commitments. He had heard of the Appalachian Trail and knew of its potential for danger and adventure, but he had never seriously considered attempting to hike all 2,192 miles of it. Then again, what could go wrong for a young black man from the city trekking solo through the East Coast backwoods? The Unlikely Thru-Hiker is the story of how an unknowing ambassador of one of the AT's least common demographics, unfamiliar with both the outdoors and thru-hiking culture, sets off with an extremely

overweight pack and a willfully can-do attitude to conquer the infamous trail. What follows are eye-opening lessons on preparation, humility, race relations, and nature's wild unpredictability. But this isn't a hard-nosed memoir of discouragement or intolerance. What sets Lugo apart from the typical walk in the woods is his refusal to let any challenge squash his inner Pollyanna. Through it all, he perseveres with humor, tenacity, and an unshakeable commitment to grooming--earning him the trail name Mr. Fabulous--that sees him from Springer Mountain in Georgia to Katahdin in Maine.

You've Been Played Adrian Hon,2022-09-20 How games are being harnessed as instruments of exploitation—and what we can do about it Warehouse workers pack boxes while a virtual dragon races across their screen. If they beat their colleagues, they get an award. If not, they can be fired. Uber presents exhausted drivers with challenges to keep them driving. China scores its citizens so they behave well, and games with in-app purchases use achievements to empty your wallet. Points, badges, and leaderboards are creeping into every aspect of modern life. In You’ve Been Played, game designer Adrian Hon delivers a blistering takedown of how corporations, schools, and governments use games and gamification as tools for profit and coercion. These are games that we often have no choice but to play, where losing has heavy penalties. You’ve Been Played is a scathing indictment of a tech-driven world that wants to convince us that misery is fun, and a call to arms for anyone who hopes to preserve their dignity and autonomy.

Spaceman Mike Massimino,2017-09-12 NEW YORK TIMES BESTSELLER • Have you ever wondered what it would be like to find yourself strapped to a giant rocket that’s about to go from zero to 17,500 miles per hour? Or to look back on Earth from outer space and see the surprisingly precise line between day and night? Or to stand in front of the Hubble Space Telescope, wondering if the emergency repair you’re about to make will inadvertently ruin humankind’s chance to unlock the universe’s secrets? Mike Massimino has been there, and in Spaceman he puts you inside the suit, with all the zip and buoyancy of life in microgravity. Massimino’s childhood space dreams were born the day Neil Armstrong set foot on the moon. Growing up in a working-class Long Island family, he catapulted himself to Columbia and then MIT, only to flunk his first doctoral exam and be rejected three times by NASA before making it through the final round of astronaut selection. Taking us through the surreal wonder and beauty of his first spacewalk, the tragedy of losing friends in the Columbia shuttle accident, and the development of his enduring love for the Hubble Telescope—which he and his fellow astronauts were tasked with saving on his final mission—Massimino has written an ode to never giving up and the power of teamwork to make anything possible. Spaceman invites us into a rare, wonderful world where science meets the most thrilling adventure, revealing just what having “the right stuff” really means.

The Troop Nick Cutter,2014-02-25 WINNER OF THE JAMES HERBERT AWARD FOR HORROR WRITING “The Troop scared the hell out of me, and I couldn’t put it down. This is old-school horror at its best.” –Stephen King Once every year, Scoutmaster Tim Riggs leads a troop of boys into the Canadian wilderness for a weekend camping trip—a tradition as comforting and reliable as a good ghost story around a roaring bonfire. But when an unexpected intruder stumbles upon their campsite—shockingly thin, disturbingly pale, and voraciously hungry—Tim and the boys are exposed to something far more frightening than any tale of terror. The human carrier of a bioengineered nightmare. A horror that spreads faster than fear. A harrowing struggle for survival with no escape from the elements, the infected...or one another. Part Lord of the Flies, part 28 Days Later—and all-consuming—this tightly written, edge-of-your-seat thriller takes you deep into the heart of darkness, where fear feeds on sanity...and terror hungers for more.
