**Human Tuning Sound Healing with Tuning Forks** John Beaulieu, 2010 Our bodies can be tuned like musical instruments. When they are properly tuned we have a sense of well-being and perfect self expression. Dr. Beaulieu has pioneered a new form of sound healing called BioSonic Repatterning which uses special tuning forks to tune or nervous system to create greater harmony and balance. When we are in tune we are like a string that is stretched with the right amount of tension in order to play the music of life. We are not too tight, and we are not too loose. Athletes and performers describe being in tune as a state of profound inner relaxation during performing. When people watch them perform they often refer to them as highly tuned or in the zone. When we are in tune we are able to make better choices. We have the ability to successfully adapt to the stresses of life giving us better health and increased wellness. Here, at last, is a groundbreaking work that integrates science, sound, and Energy Medicine. Dr. Beaulieu presents practical sonic methods based on quality research that will help you better understand and enhance being in the zone in your life. The sound of healing methods presented are fully accessible to the general reader as well as healing arts professionals.--Publisher's description

Tuning the Human Biofield Eileen Day McKusick, 2021-09-07 • Provides a precise map of the energetic biofield that surrounds the body, showing where specific emotions, memories, traumas, and pain are stored • Details how to locate stored trauma in the biofield with a tuning fork and clear it • Winner of the 2015 Nautilus Silver Award When Eileen McKusick began offering sound therapy in her massage practice she soon discovered she could use tuning forks to locate and hear disturbances in the energy field, or biofield, that surrounded each of her clients. Passing the tuning forks through these areas in the biofield not only corrected the distorted vibrational sounds she was hearing but also imparted consistent, predictable, and sometimes immediate relief from pain, anxiety, insomnia, migraines, depression, fibromyalgia, digestive disorders, and a host of other complaints. Now, more than 20 years later, McKusick has fully developed her sound healing method, which she calls Biofield Tuning, and created a map of the biofield, revealing the precise locations where specific emotions, memories, ailments, and traumas are stored. In this book, McKusick explains the basics of Biofield Tuning practice and provides illustrations of her Biofield Anatomy Map. She details how to use tuning forks to find and clear pain and trauma stored in the biofield and reveals how the traditional principles and locations of the chakras correspond directly with her biofield discoveries. Exploring the science behind Biofield Tuning, she examines scientific research on the nature of sound and energy and explains how experiences of trauma produce “pathological oscillations” in the biofield, causing a breakdown of order, structure, and function in the body. Offering a revolutionary perspective on mind, energy, memory, and trauma, McKusick’s guide to Biofield Tuning provides new avenues of healing for energy workers, massage therapists, sound

healers, and those looking to overcome chronic illness and release the traumas of their past.
