There are 1500 year old secrets in here that are guaranteed to turn you into a Manifesting Master! This book was designed to awaken your unlimited potentiality and initiate a dynamic healing in your life. We guarantee that when you actually follow this program for 90 days, you will experience a dramatic shift in your ability to manifest what you want. It works consistently because it follows the ancient Universal Law that your thoughts and feelings create your reality, and that you are already the ultimate artist behind each experience you have. Success comes easily to those who are clear about who they are, why they are doing what they are doing, and what they honestly want to experience in their life. In order to gain more clarity and direction, look at what you are doing with your life. Why are you doing what you are doing? Is this what you really really want to be doing? If you knew that you only had 90 days left to be alive, what would do to help your soul evolve and also make a contribution to this planet? Please make time to look at yourself and who you truly are. You will achieve greater results in life simply by knowing the answers to these questions and really understanding why you are here on Earth right now. Mastering the mind is the greatest challenge of this journey. Yet, when you stop and realize that you are ALWAYS the conscious, awakened, and permanent decision maker behind every thought you have, you can choose to dive into or release any thought easily and effortlessly. Only with this realization are you the master who can instantly change your focus from thinking you are disconnected, tired, poor, and emotionally stuck, into feeling a constant state of love, abundance, high energy, and synchronicity. With this awareness, you will know that each personal fear you have is extra fuel for the fire that will burn away your ego and any negative patterns you have been holding onto. Self-doubt, fear, criticism, and judgment cannot control your life if you are the master standing there with open arms welcoming them in to be experienced. There is nothing wrong with having these experiences if you are open to harnessing the energy they have to break you free from your limiting mindset and ego. If you believe fulfilling desires is the only way to find happiness, watch out! Staying on the manifesting journey requires an open-mind that realizes great joy is always available right here and now. Yes, it is fantastic to fulfill your desires and GO for what you want, yet remember that there is more satisfaction currently inside your being than you may know. We believe manifesting your every desire is like the frosting you find on a birthday cake. It is not necessary to enjoy the cake, but it sure makes the experience of tasting it a whole lot sweeter! So go manifest that dream house, become financially free, travel the world, marry your soul mate, and live in a super fit body! Just make sure that you remember to celebrate each step along the journey, instead of waiting until you have arrived at your desired destination. Along your manifesting journey, see yourself as a brilliant artist creating a masterpiece from an enormous knotted tree trunk. We encourage you to notice when your mind becomes too busy. In the moments when you forget to enjoy the evolving beauty of this project, step back from your masterpiece and see that YOU are already a great work of art. Sit back, relax, grab a cup of tea, and enjoy the creative process yet to come!

It Is Done! Richard Dotts,2015-11-24 The first time Richard Dotts learnt about the significance of the word Amen frequently used in prayers... goosebumps welled up all over his body and everything clicked in place for him. Suddenly, everything he had learnt up to that point about manifestations made complete sense. What if the word we commonly use to end our prayers today is not merely added as an afterthought, but meant to be a powerful manifestation tool in the first place? What if it is actually the most important part in any prayer? What was going through the minds of those ancient spiritual masters when they said words similar to amen? Does that word really hold the final step to fulfilling our desires? In It Is Done!, bestselling author and spiritual explorer Richard Dotts explores the hidden significance behind these three simple words in the English language. Three words, when strung together and used in the right fashion, holds the keys to amazingly accurate and speedy manifestations. In his usual candid, illuminating style which has made him a seven time Amazon bestselling author, Dotts devotes the first half of this book to explain his 10-year struggle with the Law of Attraction, and how he struggled to leave behind his habit of incessant worrying and fearful thoughts. I was constantly worried about things going wrong even when everything was going right. I was afraid that one day, I would run out of money and bad things would happen to me, writes Dotts candidly in one of the chapters. Then Dotts quickly moves to show the reader how they can break free from the 4 major blocks that prevent manifestations from occurring in their own lives, and how these blocks are often so pervasive that we do not even realize they are there. Because these unseen blocks feel so familiar to us, we often do not recognize that they are standing between us and our greater good. Get rid of these major blocks, and the manifestations come quickly and effortlessly for you regardless of what manifestation techniques you use. Learn as Dotts recounts the story of Mark, an old friend whom he has shared these techniques with and whom, within a short span of time managed to achieve incredible financial success in his life. Also learn about the story of other individuals, whose unwillingness to trust in the process led to continued failure and disappointments for them. Dott astutely points out that the difference between these two groups of individuals lies not in manifestation abilities, but in their abilities to work past and get around these 4 major manifestation blocks. Finally in the second half of this book, Dotts leads readers through the It is Done! process in greater detail. Learn how to apply the technique to greatly compound the effectiveness of any manifestation technique you are currently using, be it more conventional techniques such as affirmations, visualizations or even more new-age techniques such as Matrix Energetics, EFT or Quantum Healing. There is

no need to change whatever you are currently doing to reap benefits from It is Done! Whatever you are currently doing, the It is Done! technique can help you achieve your desires and dissolve any blocks that stand in the way even faster.

Dollars Flow to Me Easily Richard Dotts,2016-06-14 Is it possible to read and relax your way into financial abundance? Can dollars flow to you even if you just sat quietly in your favorite armchair and did nothing? Is abundance and prosperity really our natural birthright, as claimed by so many spiritual masters and authors throughout the ages? In his latest book *Dollars Flow To Me Easily*, bestselling author and spiritual explorer Richard Dotts attempts something that he has never done before - to write a book that changes and transforms the reader's innermost perceptions about money as they read it. Richard explains that these spiritual principles have never been about attracting more money or stuff into our lives. Instead, these Universal truths all speak of recognizing the inherent abundance that is already there for our taking. Is it any wonder that traditional Law of Attraction techniques which focus on doing and attracting something from out there to fill a perceived lack in our lives do not create lasting results? But if all our abundance is already right here for our taking, why is it that our bank balance and physical experiences do not always reflect this truth? Is there something we have to do in order to welcome this abundance into our lives? *Dollars Flow To Me Easily* takes an alternative approach to answering these questions. Instead of guiding the reader through a series of exercises to feel as if they are already rich, Richard draws on the power of words and our highest intentions to dissolve negative feelings and misconceptions that block us from manifesting greater financial abundance in our lives. When these blocks are gently dissolved and let go of through absorbing the words in this book, what results are natural physical manifestations of abundance in our everyday experience. As Richard puts it, this technique is so counter-intuitive precisely because it flies in the face of everything we have been taught. We have been taught to tackle our financial issues head-on and to worry about them constantly in order to come up with solutions. But despite this, all our worrying and mental activity has still not resulted in everlasting peace-of-mind and a permanent resolution of the financial issues in our lives. Perhaps the real solution that we need is to simply correct our thinking on the inside, and to realize that there has been no issue and no lack in the first place. When we tend to our inner states and make it our priority... when we finally give up the need to do anything to make things happen... that is when the Universe can deliver our highest good to us. *Dollars Flow To Me Easily* takes you through the experiential journey of dropping all your worries, fears and blocks around manifesting money as you read. What remains at the end is the real you - a state in which dollars flow to you easily and a recognition of this truth that has always been a part of your being.

Your Greatest Gift Richard Dotts,2015-10-16 If we are all powerful creators blessed with the ability to manifest whatever we want in life, why is it so difficult for some people to do so? Is there anything we have to do to activate our latent creative abilities as free-willed beings? In his latest book *Your Greatest Gift*, bestselling author and spiritual explorer Richard Dotts shares the two chance encounters in his life that led him to the realization of his greatest gift. A gift which not only unlocks all our desired manifestations but also has the power to help us transcend the perceived issues and challenges in our lives, whatever they may be. Many years ago while studying the various spiritual traditions, it suddenly dawned on Richard that tapping into our manifestation abilities should be something that anyone can do at will. It should not be something complicated, certainly not something that requires an instruction manual or a PhD to understand. As Richard writes in *Your Greatest Gift*, I reasoned that if creation is our birthright, then manifesting should be a fundamental ability that every human being on this planet, regardless of race, background or education can tap into at will. Could it be something so fundamentally simple and obvious that most of us have overlooked? It wasn't until the most challenging years of his life that pieces of the puzzle began to fall in place. Richard experienced the power of the greatest gift twice during his most trying times and noticed how his insurmountable problems seemed to straighten themselves out each time without his active intervention. The more Richard studied these two serendipitous episodes in his life, the more he realized something in common but overlooked at their core. He had unknowingly tapped into the greatest gift that unlocks all our desired manifestations. The greatest gift is not what we think it is. It is not about the Law of Attraction, not about having a sense of gratitude, appreciation or love, not about praying, affirmations and certainly not about tapping into the powers of our subconscious mind. All of those are useful tools along our journey, but our greatest gift is something way more fundamental than that. It is a latent ability which all of us possess, but have either forgotten or overlooked along the way. It is an action so simple that we can do it at any time and any place... yet most of us do not do it because we are always looking for external solutions to our problems in life. It is an action which does not depend on our intellect. It is something which is referred to over and over again in the Bible and in religious texts across the ages, but a concept that is so misunderstood in our modern society. When you finally understand what the greatest gift is and how it has always been within you, you'll understand how it can be transmuted and applied not only in your own life but also in the lives of others. In *Your Greatest Gift*, Richard teaches readers how to access this gift for themselves and also how to guide others to their own healing. This book goes beyond the manifestation of physical objects into the realm of effecting spiritual healing and wellness in all areas of our life. In his usual trademark and frank style, Richard explains how this greatest gift can be called upon in times of need and even used to help others through a non-verbal protocol which he shares in the book. When you have experienced the transformational power of this gift for yourself, you too, will recognize it as your greatest gift that unlocks all manifestations.

Awareness Osho,2007-04-01 One of the greatest spiritual teachers of the twentieth century will help you learn how to live in the present moment in *Awareness: The Key to Living in Balance*. Underlying all meditation techniques, including martial arts—and in fact underlying all great athletic performances—is a quality of being awake and present to the moment, a quality that Osho calls awareness. Once we can identify and understand what this quality of awareness is, we have the key to self-mastery in virtually every area of our lives. According to great masters like Lao Tzu or Buddha, most of us move through our lives like sleepwalkers. Never really present in what we are doing, never fully alert to our environment, and not even aware of what motivates us to do and say the things we do. At the same time, all of us have experienced moments of awareness—or awakening, to use another—in extraordinary circumstances. On the road, in a sudden and unexpected accident, time seems to stop and one is suddenly aware of every movement, every sound, every thought. Or in moments that touch us deeply—welcoming a new baby into the world for the first time, or being with someone at the moment of death. Awareness, says Osho, is the key to being self-directed, centered, and free in every aspect of our lives. In this book, Osho teaches how to live life more attentively, mindfully, and meditatively, with love, caring and consciousness. Osho challenges readers to examine and break free of the conditioned belief systems and prejudices that limit their capacity to enjoy life in all its richness. He has been described by the Sunday Times of London as one of the “1000 Makers of the 20th Century” and by Sunday Mid-Day (India) as one of the ten people—along with Gandhi, Nehru, and Buddha—who have changed the destiny of India. Since his death in 1990, the influence of his teachings continues to expand, reaching seekers of all ages in virtually every country of the world.

Active Collections Elizabeth Wood,Rainey Tisdale,Trevor Jones,2017-11-07 In recent years, many museums have implemented sweeping changes in how they engage audiences. However, changes to the field's approaches to collections stewardship have come much more slowly. *Active Collections* critically examines existing approaches to museum collections and explores practical, yet radical, ways that museums can better manage their collections to actively advance their missions. Approaching the question of modern museum collection stewardship from a position of tough love, the authors argue that the museum field risks being constrained by rigid ways of thinking about objects. Examining the field's relationship to objects, artifacts, and specimens, the volume explores the question of stewardship through the dissection of a broad range of issues, including questions of quality over quantity, emotional attachment, dispassionate cataloging, and cognitive biases in curatorship. The essays look to insights from fields as diverse as forest management, library

science, and the psychology of compulsive hoarding, to inform and innovate collection practices. Essay contributions come from both experienced museum professionals and scholars from disciplines as diverse as psychology, education, and history. The result is a critical exploration that makes the book essential reading for museum professionals, as well as those in training.
