📖 **MICHELANGELO AND THE POPE’S CEILING** Ross King,2014-10-14 From the acclaimed author of Brunelleschi’s Dome and Leonardo and the Last Supper, the riveting story of how Michelangelo, against all odds, created the masterpiece that has ever since adorned the ceiling of the Sistine Chapel. In 1508, despite strong advice to the contrary, the powerful Pope Julius II commissioned Michelangelo Buonarroti to paint the ceiling of the newly restored Sistine Chapel in Rome. Despite having completed his masterful statue David four years earlier, he had little experience as a painter, even less working in the delicate medium of fresco, and none with challenging curved surfaces such as the Sistine ceiling’s vaults. The temperamental Michelangelo was himself reluctant: He stormed away from Rome, incurring Julius’s wrath, before he was eventually persuaded to begin. Michelangelo and the Pope’s Ceiling recounts the fascinating story of the four extraordinary years he spent laboring over the twelve thousand square feet of the vast ceiling, while war and the power politics and personal rivalries that abounded in Rome swirled around him. A panorama of illustrious figures intersected during this time—the brilliant young painter Raphael, with whom Michelangelo formed a rivalry; the fiery preacher Girolamo Savonarola and the great Dutch scholar Desiderius Erasmus; a youthful Martin Luther, who made his only trip to Rome at this time and was disgusted by the corruption all around him. Ross King blends these figures into a magnificent tapestry of day-to-day life on the ingenious Sistine scaffolding and outside in the upheaval of early-sixteenth-century Italy, while also offering uncommon insight into the connection between art and history.

📖 **THE VATICAN MUSEUMS** Paul Den Arend,2015-08-06 Visiting the Vatican Museums is a truly unique experience. It is such an amazing place with such an abundance of artwork. Some of the most famous pieces of art in the world can be found there. Be amazed by the ceiling of the Sistine Chapel by Michelangelo and enjoy the beautiful frescos of Raphael. There are statues from Roman times, paintings from artists as different as Giotto, Leonardo and Caravaggio and so much more. In fact, the museums are enormous. It can be quite overwhelming. What’s worse, the museums were never built as museums. The artworks are displayed in the rooms and halls that were once used by the Pope and his court. This is why most of the museum is one direction only. Moreover, mass tourism has caused the amount of visitors to the museums to spike in recent years. Many people stand in line for hours outside, just to be able to visit the museums. In this guidebook, I will try to show you the best way to visit the museums and I will tell you all the stories and details about the most important works in the museums. In addition, I’ll give you essential tips for visiting the museums. I’ve worked for many years as a guide inside the museums. This is truly a special place. I have put all that I have learned in these years in this book. I hope it will help to make your visit to the museums an unforgettable experience.

📖 **THE VATICAN COLLECTIONS** Metropolitan Museum of Art (New York, N.Y.),Art Institute of Chicago,Fine Arts Museums of San Francisco,1982 Nearly three hundred illustrations and a text reveal the entire range of the Vatican’s artistic holdings, replete with priceless masterworks from all periods.

📖 **GUIDE TO THE VATICAN** Paul Den Arend,2015-08-03 This book will help you if you plan on visiting the Vatican or want to know more about it. The Vatican is an enormous place, full of artwork and history. It can even be a bit overwhelming when you visit it. Saint Peter’s Basilica is filled with baroque sculptures, the Vatican Museums have art from all time periods and the Sistine Chapel and the Raphael Rooms have the most beautiful fresco’s in the world. Visiting such a place can be an amazing, once in a lifetime experience. You can make the most out of your visit by preparing it a bit. Believe me, the Vatican will make so much more sense to you if you know some of the best stories about the art and the people that created it. If you don’t know what to look at, it can be really too much. In my Vatican guide book, I will show you exactly what to pay attention to. You will know exactly which artworks are considered the most important and you will know the often amazing stories behind their creation. I also included a lot of must-know tips for visitors, which will make your stay a pleasant one. Maybe you have heard of the long lines and the hours people have to wait before entering Saint Peter’s or the Vatican Museums and Sistine Chapel? I will give you some tips on how to avoid these lines, and much more. I wrote this book as a complete guide to the Vatican. It describes the most important artworks you can find inside the Vatican. I am a tour guide in the Vatican Museums and the city of Rome itself. Besides this I also work all over Italy as a tour guide. I found that most guidebooks people have only provide very general information. Just a few hotel and restaurant recommendations and descriptions of the monuments with lots of pictures. This guidebook is completely different. It is for those people that want to have a much more profound knowledge about the Vatican and its monuments. In it, you will find detailed descriptions and maps of the Vatican Museums, Saint Peter’s Basilica and Vatican City. I use this book as a reference for my work as a tour guide. I hope it will give you a deep understanding of all the beautiful statues, fresco’s, tapestries and paintings in this amazing place.

📖 **THE VATICAN AND SAINT PETER’S BASILICA OF ROME** Paul Letarouilly,2010 French architect Paul Letarouilly (1795-1855), author of the masterpiece Edifices de Rome Moderne, was unequaled in his observational ability and impeccable drawing skills. He devoted many years of his life living in austerity and refusing paying commissions to compile and draw the intricate details and decorative elements of the most breathtaking buildings in Italy’s Vatican City, including St. Peter’s Basilica, the Sistine Chapel, the Pontifical Palace, the Museo Pio Clementino, and the Villa Pia. Published in 1882, after his death, Vatican served as an unparalleled sourcebook of everything from plans, elevations, interior room views, and perspective drawings to mosaics, wall panels, door frames, fountains, towers, domes, cornices, and moldings. Prior to the book’s original publication, these details were not easily replicated in other parts of the world. Vatican gave access to rigorous documentation of the work of some of the most significant Renaissance architects Michelangelo, Bernini, Bramante, Sangallo, and Peruzzi and is now often credited as one of the primary catalysts for the American Renaissance style, the results of which can be seen in any capital city in America. The precision and attention to detail that Letarouilly demanded of his engravers advanced the art of etching in the nineteenth century. Exquisite rendering techniques and precise execution make this book as beautiful as it is useful. Originally published in three volumes, Vatican is presented as a single facsimile edition in our Classic Reprints series and includes a new foreword by architectural historian Ingrid Rowland. Published in association with the Institute of Classical Architecture and Classical America.

📖 **MASTERPIECES OF THE VATICAN** Enrico Bruschini,2004 The Vatican conserves perhaps one of the oldest and most renowned art collections. Collected by the papacy since the fifteenth century, thousands of works dating from 2050 BC to the present day are displayed within a one-way itinerary. Professor Enrico Bruschini, eminent Vatican expert and former curator to the American Embassy in Rome, presents 100 key masterpieces in their itinerary order, and sets them in their art-historical context with his lively and engaging text

📖 **IN THE FOOTSTEPS OF POPES** Enrico Bruschini,2009-04-25 A unique look at the treasures of the Vatican Museums, the Sistine Chapel, and the Basilica of Saint Peter from an official guide of the Eternal City. In a tiny enclave in the heart of Rome lies the world’s smallest independent state—the Vatican. Over the course of fifteen hundred years, successive popes have commissioned and assembled an extraordinary collection of artistic works within Vatican walls. Eminent expert Professor Enrico Bruschini takes readers on a fascinating personal tour through the Vatican’s magnificent sacred halls, vividly bringing to life works by Raphael, da Vinci, Caravaggio, Michelangelo, and many others, while sharing interesting curiosities about the artists, their art, and the historical context in which they worked. Bruschini’s unprecedented access to areas rarely open to the public enables him to offer a unique behind-the-scenes tour that reveals the Vatican’s most intimate secrets and hidden treasures. With maps and rare photographs from the Vatican archives, In the Footsteps of Popes is an extraordinary excursion that is not to be missed.

📖 **THE VATICAN MUSEUMS** Susanna Bertoldi,2011

📖 **THE VATICAN MUSEUMS** Carlo Pietrangeli,1993 A great museum is not only a collection of works of art or artefacts of various interest and various importance: it is also a living organism which has its own history to tell. And if the museum is of ancient origin, this can be of great fascination in itself. It is enough to think of a collections formation; of its progressive development which, over the centuries, takes account of, and is shaped by, the cultural interests of the time. Or of the acquisition, sometimes fortuitous, of the various works. Or of the changing tastes reflected in their display, and the various methods used in their restoration; or of the political developments or doctrinal implications in which the museum may find itself involved. The Vatican Museums, whose origins go back to the early 16th century, exemplify all these concerns in a particularly comprehensive and fascinating way. Their initial formation, almost in the character of a private collection; their threatened dispersal in the Counter-Reformation; their recovery under the impetus of the intellectual revival in the 18th century; their development, also in defence of the artistic patrimony of the State threatened by exports, at the end of the same century; their subsequent enlargement up to more recent times, thanks to the distinguished patronage of the various Popes; and lastly their incorporation, at times exemplary, in the context of the Vatican Palaces, first with Simonettis Museo Pio-Clementino, then with Sterns Braccio Nuovo and more recently with Beltramis Pinacoteca and Passarellis Museo Paolino: all this constitutes not only a field of study, comparison, and reflection, but also at times an example which others have followed. The present book, ideally, would have required a far more extensive archival documentation than the author has been able to consult. It is to be hoped that the systematic exploration of the huge, but very scattered, archival sources available may make it possible in future to update, or to amplify, those parts of the book that were unable to benefit from this irreplaceable support. It may be claimed, nonetheless, that it has proved possible to reconstruct the history of the Vatican Museums in sufficient detail, and that this book may prove useful at a time when the history of collecting is arousing increasing interest.
