The Lincoln Highway Amor Towles, 2023-03-21 #1 NEW YORK TIMES BESTSELLER More than ONE MILLION copies sold A TODAY Show Read with Jenna Book Club Pick A New York Times Notable Book, and Chosen by Oprah Daily, Time, NPR, The Washington Post, Bill Gates and Barack Obama as a Best Book of the Year “Wise and wildly entertaining . . . permeated with light, wit, youth.” –The New York Times Book Review “A classic that we will read for years to come.” –Jenna Bush Hager, Read with Jenna book club “Fantastic. Set in 1954, Towles uses the story of two brothers to show that our personal journeys are never as linear or predictable as we might hope.” –Bill Gates “A real joyride . . . elegantly constructed and compulsively readable.” –NPR The bestselling author of *A Gentleman in Moscow* and *Rules of Civility* and master of absorbing,

sophisticated fiction returns with a stylish and propulsive novel set in 1950s America. In June, 1954, eighteen-year-old Emmett Watson is driven home to Nebraska by the warden of the juvenile work farm where he has just served fifteen months for involuntary manslaughter. His mother long gone, his father recently deceased, and the family farm foreclosed upon by the bank, Emmett's intention is to pick up his eight-year-old brother, Billy, and head to California where they can start their lives anew. But when the warden drives away, Emmett discovers that two friends from the work farm have hidden themselves in the trunk of the warden's car. Together, they have hatched an altogether different plan for Emmett's future, one that will take them all on a fateful journey in the opposite direction—to the City of New York. Spanning just ten days and told from multiple points of view, Towles's third novel will satisfy fans of his multi-layered literary styling while providing them an array of new and richly imagined settings, characters, and themes. "Once again, I was wowed by Towles's writing—especially because *The Lincoln Highway* is so different from *A Gentleman in Moscow* in terms of setting, plot, and themes. Towles is not a one-trick pony. Like all the best storytellers, he has range. He takes inspiration from famous hero's journeys, including *The Iliad*, *The Odyssey*, *Hamlet*, *Huckleberry Finn*, and *Of Mice and Men*. He seems to be saying that our personal journeys are never as linear or predictable as an interstate highway. But, he suggests, when something (or someone) tries to steer us off course, it is possible to take the wheel." – Bill Gates

6th International Munich Chassis Symposium 2015 Peter Pfeffer, 2015-06-18
Connectivity has arrived in the vehicle - whether it is in-car internet or car-to-car communication. For the chassis too, the connected car is increasingly becoming a driver of innovation. Predictive and intelligent chassis systems and automated driving are just some of the topics being addressed. In addition to enhancing driving comfort and safety, interconnecting the powertrain with the chassis can also provide new functions, not only in cars but also in commercial vehicles. What is more, modularization, electrification of the powertrain, intelligent development methods and efforts to reduce fuel consumption are also driving innovations in chassis systems.

Objects, Bodies and Work Practice Dennis Day, Johannes Wagner, 2019-07-15
What role do material objects play in the in-situ, embodied and spatial circumstances of interaction? How do people organize their embodied conduct with regard to such objects, and how is this consequential in and for their work practices? In this volume, contributors focus on these questions in terms of connections between ongoing courses of interaction within work practices, object materiality and mobility in space, bodily movement and manipulation of objects, and language. The chapters in this book address a broad range of settings and actions (including dressmaking, foreign language teaching, international business meetings and forklift driving) where a variety of objects become relevant.

Trucking Magic Mick Twemlow, 2017-08-17 In the 1970s and 1980s Pro-Motor (Europe) Ltd were one of the most highly successful and respected transport companies in Great Britain. Their vehicles operated to every country in Europe as well as the Middle East, North Africa and Russia. They were experts in

international haulage, exhibition transport, show tours and specialised vehicle transport. The Author, Mick Twemlow, a highly experienced international truck driver, drove for Pro-Motor between 1978 and 1983. His narrative, written on a country by country basis, describes the adventures and incidents that he and his fellow drivers experienced during those five years. At the time, Europe was divided by the Iron Curtain and operating in the Soviet dominated Eastern Europe brought its own challenges, which are described in detail. The corrupt nature of officials and the inherent dangers of truck driving in Turkey and Iraq are also fully explained. Although the work entailed facing dangerous situations it also had its lighter side. In summing up his five years driving for Pro-Motor Mick refers to the corporate logo of the company and declares that it was truly Trucking Magic.
