Metánoia (Repentance): A Major Theme of the Gospel of Matthew ChoongJae Lee, 2020-04-13 Matthew describes the beginning of Jesus's ministry with the summary words, μετανοεῖτε (repent/turn), for the kingdom of heaven is at hand (3:2; 4:17). Why does Matthew use this command, μετανοεῖτε, at the beginning of his ministry, and how does it relate to the rest of the Gospel? What do μετανοέω and μετάνοια mean? Scholars have stated that μετανοέω in 4:17 has critical value for understanding Matthew because the verse functions as a summary statement (or key phrase) of Jesus's public ministry and teaching. This book argues the thematic significance of μετάνοια (turning/repentance) in the Gospel of Matthew. The lexical idea of μετανοέω and μετάνοια involves a turning of mind (or heart, will, thinking) and behavior, and so in turn of one's whole being and life. This opening commandment of turning (μετανοέω), especially the concept, the essence, and the contents is fully revealed throughout the body of Matthew in various ways. Discipleship, the language of righteousness, doing the will of God, changing one's heart and mind, the Great Commission, and Matthean soteriological theme convey the essence of μετάνοια and the contents of the fruit worthy of μετάνοια(3:2, 8; 4:17). The five major teaching blocks (5-7; 10; 13; 18; 23-25) teach the

theme and the content of μετάβοια.

The Theme of Temple Christology in John's Gospel Stephen Um, 2006-08-31 This study not only carefully investigates the Jewish tradition of water and Spirit as the normative background of John 4, but also develops temple Christology by connecting these distinct traditions of water and the Spirit as eschatological life for John's use of Spirit as the source of new creational life. The aim of this thesis is to answer the following three crucial questions in order to sustain the development of the temple Christological theme in John 4: 1) What does the image of water represent?; 2) What does it mean to worship in Spirit and truth?, and 3) How do the disparate parts (water scene [4:6-15] and the Spirit scene [4:20-26]) function as a whole?

Theme-Centered Interaction (TCI) in Higher Education Sylke Meyerhuber, Helmut Reiser, Matthias Scherer, 2019-04-26 This book presents thoughts on and experiences with the introduction of Theme-centered Interaction (TCI) into academia. TCI is a systematic didactic, 'living learning' approach originally developed by social psychologist and pedagogue Ruth C. Cohn. The book explains and introduces the method, attitude and theory of TCI to a broader, higher education audience and relates it to such questions as: How does a teacher in academia achieve a lively and engaging atmosphere in their seminars? How do young academics as leaders-to-be learn how to act socially sustainably in groups? Using practical examples, the book shows how TCI can work in higher education to achieve participation and integration, reflectivity and humane connectedness of academic teachers and students, and professional development of senior and junior academics.

Borrowed Theme Michael Evans, 2017-01-09 Watch any drug commercial, and watch as the actors and actresses distract your attention toward the end of the commercial as a voice elegantly lists the horrifying side effects. This can sum up the borrowed themea hidden world of lies with carefully placed distractions to divide your attention. In this book, we focus not on the pretty faces you're supposed to look at. We focus on that tiny text at the bottom of the screen. We lift the hood on the car and check the engine while the salesman is trying desperately to get you fixated on the shiny paint. When you are able to spot a lie, a distraction, or an embellishment of the truth, you are on your way to freethinking.

How Nature Speaks Yrjo Haila, Chuck Dyke, 2006-03-17 How Nature Speaks illustrates the convergence of complexity theory in the biophysical and social sciences and the implications of the science of complexity for environmental politics and practice. This collection of essays focuses on uncertainty, surprise, and positionality—situated rather than absolute knowledge—in studies of nature by people embedded within the very thing they purport to study from the outside. The contributors address the complicated relationship between scientists and nature as part of a

broader reassessment of how we conceive of ourselves, knowledge, and the world that we both inhabit and shape. Exploring ways of conceiving the complexity and multiplicity of humans' many interactive relationships with the environment, the contributors provide in-depth case studies of the interweaving of culture and nature in socio-historical processes. The case studies focus on the origin of environmental movements, the politicization of environmental issues in city politics, the development of a local energy production system, and the convergence of forest management practices toward a dominant scheme. They are supported by explorations of big-picture issues: recurring themes in studies of social and environmental dynamics, the difficulties of deliberative democracy, and the potential gains for socio-ecological research offered by developmental systems theory and Pierre Bourdieu's theory of intentionality. How Nature Speaks includes a helpful primer, "On Thinking Dynamically about the Human Ecological Condition," which explains the basic principles of complexity and nonlinear thinking. Contributors. Femininity and Authorship in the Novels of Elizabeth von Arnim Juliane Römhild, 2014-06-25 When Elizabeth von Arnim anonymously published her debut Elizabeth and Her German Garden (1898), she became a literary star overnight. The mystery surrounding the identity of this witty aristocratic diarist in her romantic garden kept readers guessing: Who was Elizabeth? A Prussian Princess? The daughter of Queen Victoria? Throughout her long and successful career as one of England's best satirical novelists, von Arnim never officially revealed her identity. Instead, to her readers and friends she simply became known as "Elizabeth." From her first book to her capricious autobiography All the Dogs of My Life (1936), throughout her career von Arnim would explore questions of identity and self-representation. And in spite of von Arnim's love of masquerades and guises, her books include funny and surprisingly personal meditations on the challenges of being a woman writer wrestling with a masculine literary tradition, of taking pride in one's commercial success while moving in Modernist circles, and of being both a hard-working professional and an elegant hostess. In tracing the conflict between femininity and authorship in von Arnim's works, this book engages with key literary issues of the time. Von Arnim's early books offer a witty critique of New Woman fiction. Von Arnim's self-positioning on the literary market and her relationships with writers like Katherine Mansfield, Henry James, and Virginia Woolf shed light on the relationship between middlebrow and modernist literature. Von Arnim's complex autobiography, finally, gives a tentative answer to the all-important question: can a writing woman be a lady?

Magic in the Web Robert B. Heilman, 2014-07-15 In his earlier work on King Lear, Mr. Heilman combined a number of critical procedures to form a new and important approach to Shakespearian criticism. His study of Othello displays the maturity of insight and skill in analysis the years have brought him in developing his critical method. Mr. Heilman takes account of stage effects; he traces out literal and symbolic meanings; he analyzes plot relationships; he examines characters in terms of both their psychological and their moral situations, and style in relation to both character and meaning. He traces some effects due to historical meanings which have now been lost by certain words, and he tries to measure the impact of the drama upon, and its significance for, the modern consciousness. Mr. Heilman argues that Othello is at once a play about love and a poem about love, and endeavors to find out how the poetry modifies and even helps determine the nature of the whole. He looks at numerous aspects of action (physical activity, psychological movement, intellectual operations) and language (speech habits, image types, recurrency in both literal and figurative language), and examines the essentially dramatic function of all of these. He finds the *dramatis personae* interwoven in relationships which may be seen, from one point of view, as plot and, from another, as the embodiment of complex themes. He treats Othello and Iago as figures that are not only fitted to a given stage but also represent permanent aspects of humanity—Iago with his strategies against the spiritual order and Othello with his readiness in the victim.
