*The Smarter Legal Model* Trevor Faure, 2010 The Smarter Legal Model is a practical toolbox of complementary methodologies which have been applied on a multi-million dollar scale and proven to: \*Reduce legal costs. \*Increase the legal work covered without increasing cost or headcount, by maximising individual potential. \*Improve both compliance and client satisfaction at the same time. \*Replace the traditional law firm-client tension with a mutually profitable partnership. The Smarter Legal Model applies world-class business and behavioral principles, such as Six Sigma, return on invested capital, zero-sum game theory and neuro-linguistic programming to the practice of law for the first time with tangible results. Recently reported benefits of the Model include a 27% reduction in legal fees, a 60% reduction in litigation volume and demonstrable improvements in client satisfaction. The Smarter Legal Model will be of use to in-house lawyers, private practitioners and even professionals from non-legal disciplines. The Smarter Legal Model has been adopted by major concerns and has been the subject of extensive analysis across the world. The Author has lectured on the Model at Harvard Law School, Oxford University, Georgetown Law School; in Washington, New York, London, Amsterdam, Brussels, Stockholm and Sydney.

Hepburn, 2010-01-01 Remedies in Equity - The Laws of Australia is a comprehensive reference for practitioners and students regarding the power of courts to award equitable relief in Australia. This up-to-date text provides a clear and simple overview of key remedies in equity, grouped into the following topics: Declarations; Specific performance; Rescission; Injunctions; Compensation and damages; Tracing; Taking accounts; and Delivery up, cancellation and rectification. Extensive case examples and

factual discussion complement a thorough examination of established principles. This includes coverage of the latest judicial decisions and any statutory modification of the remedies in equity. This work also identifies the critical matters which can affect the exercise of a court's discretion and when remedies in equity may or may not be available. Authors David Wright, Senior Lecturer of the School of Law of the University of Adelaide, and Dr Samantha Hepburn, Associate Professor of Deakin University, have compiled a readable and authoritative analysis of the practical issues that arise in seeking remedies in equity. This material is also published as part of Title 15 Equity of The Laws of Australia legal encyclopaedia.

An emerging theme in family law is that a thorough appreciation of social science research is essential. This book stands apart from others because it has a comprehensive chapter on social science which not only summarises the latest research but also analyses the case law to demonstrate how this research is used in family law decision-making. It also has a chapter touching on international family law, an area of increasing importance. The author team brings a unique blend of practice experience and academic expertise, to ensure this text will have a broad appeal to all readers. Students, academics, new practitioners, and also more experienced practitioners looking for a refresher, will all find Family Law Principles a useful resource.
