The Making of Masterpieces: Chinese Painting and Calligraphy from the Palace Museum Raphael Wong, Jiang Fangting,2022-12-23 The Making of Masterpieces 226-1368

The Paper Road Erik Mueggler,2011-11-02 This exhilarating book interweaves the stories of two early twentieth-century botanists to explore the collaborative relationships each formed with Yunnan villagers in gathering botanical specimens from the borderlands between China, Tibet, and Burma. Erik Mueggler introduces Scottish botanist George Forrest, who employed Naxi adventurers in his fieldwork from 1906 until his death in 1932. We also meet American Joseph Francis Charles Rock, who, in 1924, undertook a dangerous expedition to Gansu and Tibet with the sons and nephews of Forrest's workers. Mueggler describes how the Naxi workers and their Western employers rendered the earth into specimens, notes, maps, diaries, letters, books, photographs, and ritual manuscripts. Drawing on an ancient metaphor of the earth as a book, Mueggler provides a sustained meditation on what can be copied, translated, and revised and what can be folded back into the earth.

**CHINESE DIALECTS AND CULTURE** ZHENHE ZHOU,RUJIE YOU,2017-09-08 This book mainly focuses on the close relationship between Chinese dialects and Chinese culture. It reveals, on the one hand, a long, rich and splendid Chinese culture from the perspective of Chinese dialects; on the other hand, it unveils the evolution, the development of Chinese dialects as well as their diversity and charm at the cultural angle. By combining the study of Chinese dialects with that of the history of Chinese culture, the author attempts to

explore the cultural background of Chinese dialects' formation and evolution, and at the same time, the author attempts to view Chinese dialects as the key access to find solutions to related questions appeared in the history of Chinese culture. Thus, it not only opens a new research scope for the Chinese dialectology, but it also finds a new path for the study of cultural history. The book is the first of its kind to create the concept of cultural linguistics, which leads to a new era of combined research on both language and culture.

**Spreading Buddha's Word in East Asia** Jiang Wu, Lucille Chia, 2015-12-15 A monumental work in the history of religion, the history of the book, the study of politics, and bibliographical research, this volume follows the making of the Chinese Buddhist canon from the fourth century to the digital era. Approaching the subject from a historical perspective, it ties the religious, social, and textual practices of canon formation to the development of East Asian Buddhist culture and enlivens Chinese Buddhist texts for readers interested in the evolution of Chinese writing and the Confucian and Daoist traditions. The collection undertakes extensive readings of major scriptural catalogs from the early manuscript era as well as major printed editions, including the Kaibao Canon, Qisha Canon, Goryeo Canon, and Taisho Canon. Contributors add fascinating depth to such understudied issues as the historical process of compilation, textual manipulation, physical production and management, sponsorship, the dissemination of various editions, cultic activities surrounding the canon, and the canon's reception in different East Asian societies. The Chinese Buddhist canon is one of the most enduring textual traditions in East Asian religion and culture, and through this exhaustive, multifaceted effort, an essential body of work

becomes part of a new, versatile narrative of East Asian Buddhism that has far-reaching implications for world history.

*The Varieties of Confucian Experience* Sébastien Billioud, 2018-07-17 The Varieties of Confucian Experience offers a number of ethnographic accounts of the popular Confucian revival taking place in China since the beginning of the 21st Century.

*A Chinese Jesuit Catechism* Anthony E. Clark, 2021-01-09 This book is the first scholarly study of the famous Jesuit Chinese children's primer, the Four Character Classic, written by Giulio Aleni (1582-1649) while living in Fujian, China. This book also includes masterful translations of both Wang Yinglin's (1551-1602) hallowed Confucian Three Character Classic and Aleni's Chinese catechism that was published during the Qing (1644-1911). Clark's careful reading of the Four Character Classic provides new insights into an area of the Jesuit mission in early modern China that has so far been given little attention, the education of children. This book underscores how Aleni's published work functions as a good example of the Jesuit use of normative Chinese print culture to serve the catechetical exigencies of the Catholic mission in East Asia, particularly his meticulous imitation of Confucian children's primers to promote decidedly Christian content.

**A School in Every Village** Elizabeth R. VanderVen, 2012-01-15 In the early 1900s, the Qing dynasty implemented a nationwide school system to buttress its power. Although the Communists, contemporary observers, and more recent scholarship have all depicted rural society as feudal and these educational reforms a failure, Elizabeth VanderVen draws on untapped archival materials to show that villagers and local officials capably integrated foreign ideas and models into a system that was at once traditional and modern, Chinese and

Western. Her portrait of education reform both challenges received notions about the modernity-tradition binary in Chinese history, and addresses topics central to debates on modern China, including state making and the impact of global ideas on local society.

Engraving Virtue: The Printing History of a Premodern Korean Moral Primer  
Young Kyun Oh, 2013-05-24 In *Engraving Virtue*, Young Kyun Oh investigates the publishing history of the *Samgang Haengsil-to* (Illustrated Guide to the Three Relations), a moral primer of Chosŏn (1392-1910), and traces the ways in which woodblock printed books contributed to shaping premodern Korea.

*China Reinterpreted* Leo Shingchi Yip, 2016-04-04 *China Reinterpreted* is the first comprehensive study on the representation of Chinese figures and motifs in Muromachi Japanese noh theater. Given that China had a strong influence on Japanese culture from the sixth to the early seventeenth centuries, research on Japanese reception of Chinese culture abounds. This book examines how noh theater integrated earlier reception of Chinese culture in various disciplines to produce its reinterpretation of China and Chinese culture on stage. Centering on a group of noh plays that features Chinese characters and motifs, *China Reinterpreted* explores not only the different means and methods of adaptation, but also the intricate (re)construction of diverse and complex images of China. This study situates the selected Chinese plays in the context of the dramaturgy and artistic conventions of noh, as well as the sociopolitical stances and artistic preferences of the audiences, and thus highlights the aesthetics, cultural, and sociopolitical agendas of noh theater of the time. By analyzing the various images of China (Japan's cultural Other) staged in Muromachi noh theater, *China Reinterpreted* offers a case study of the representation of the Other in an intra-Asia context.

**Codes of Modernity** Uluğ Kuzuoğlu, 2023-11-28 In the late nineteenth century, Chinese reformers and revolutionaries believed that there was something fundamentally wrong with the Chinese writing system. The Chinese characters, they argued, were too cumbersome to learn, blocking the channels of communication, obstructing mass literacy, and impeding scientific progress. What had sustained a civilization for more than two millennia was suddenly recast as the root cause of an ongoing cultural suicide. China needed a new script to survive in the modern world. *Codes of Modernity* explores the global history of Chinese script reforms—efforts to alphabetize or simplify the writing system—from the 1890s to the 1980s. Examining the material conditions and political economy underlying attempts to modernize scripts, Uluğ Kuzuoğlu argues that these reforms were at the forefront of an emergent information age. Faced with new communications technologies and infrastructures as well as industrial, educational, and bureaucratic pressures for information management, reformers engineered scripts as tools to increase labor efficiency and create alternate political futures. Kuzuoğlu considers dozens of proposed scripts, including phonetic alphabets, syllabaries, character simplification schemes, latinization, and pinyin. Situating them in a transnational framework, he stretches the geographical boundaries of Chinese script reforms to include American behavioral psychologists, Soviet revolutionaries, and Central Asian typographers, who were all devising new scripts in pursuit of informational efficiency. *Codes of Modernity* brings these experiments together to offer new ways to understand scripts and rethink the shared experiences of a global information age.

*The Annals of King T'aejo* , 2014-06-09 Never before translated into English, this official history of the reign of King T'aejo--founder of Korea's

illustrious Chosŏn dynasty (1392-1910 CE)--is a unique resource for reconstructing life in late-fourteenth-century Korea. It includes a wealth of detail not just about politics and war but also religion, astronomy, and the arts.

**A History of the Girl** Mary O'Dowd, June Purvis, 2018-04-10 This book is centered on the history of the girl from the medieval period through to the early twenty-first century. Authored by an international team of scholars, the volume explores the transition from adolescent girlhood to young womanhood, the formation and education of girls in the home and in school, and paid work undertaken by girls in different parts of the world and at different times. It highlights the value of a comparative approach to the history of the girl, as the contributors point to shared attitudes to girlhood and the similarity of the experiences of girls in workplaces across the world. Contributions to the volume also emphasise the central role of girls in the global economy, from their participation in the textile industry in the eighteenth century, through to the migration of girls to urban centres in twentieth-century Africa and China.

**Religion and Spirituality** Martin Dowson, Stuart Devenish, 2010-06-01 Religion and spirituality make critical contributions to an inclusive vision for the welfare of minorities, the marginalized and other disadvantaged groups in societies and cultures around the globe. Religious movements and spiritual traditions work to improve social outcomes for disenfranchised groups by enriching educational, political, and social agendas, and by providing a wide variety of justice-driven programs and services. Values underpinning these services include the dignity of the human person, the sanctity of human life, the foundational role of families and communities, the transformative power

of learning, and the advancement of shared personal and social rights and responsibilities. These values act as a counter-balance to other attitudes and values that may impede pro-social cohesion and development. Drawing on diverse religious and spiritual perspectives and traditions, this new volume provides exciting and enriching examples of theory, research and practice that directly contribute to our understanding of how religion and spirituality promote and facilitate social justice and equity in diverse social and cultural contexts - with a particular focus on educational settings, contexts, processes and outcomes. Religious communities invest heavily in schools, colleges and universities in the belief that these educational institutions enable them to inculcate into their membership the kinds of moral values and qualities that lie at the heart of their spiritual teachings. Looking beyond the sacred-secular impasse, religious organisations attempt to provide a education for life which draws from both the scientia of science and the sapientia of religion and spirituality. These depth-dimensions provide the pool of values which enable citizens to enact equity, mercy and justice in society in the name of God and for the sake of humanity. The chapters which comprise this volume demonstrate the possibility of a healthy integration between religion and education from a truly global, transdisciplinary and ecumenical perspective. From contexts within Asia, Africa, the USA and Australia, and from disciplines ranging from ethics to social work, from health to educational curriculum, from personal identity to community-consciousness; this volume makes a unique contribution to the theory and practice of the educational and religious inter-face. It is a contribution which holds a great deal of promise for being pro-humanitas.

**Rulin waishi and Cultural Transformation in Late Imperial China** Shang

Wei, 2020-10-26 *Rulin waishi* (The Unofficial History of the Scholars) is more than a landmark in the history of the Chinese novel. This eighteenth-century work, which was deeply embedded in the intellectual and literary discourses of its time, challenges the reader to come to grips with the mid-Qing debates over ritual and ritualism, and the construction of history, narrative, and lyricism. Wu Jingzi's (1701-54) ironic portrait of literati life was unprecedented in its comprehensive treatment of the degeneration of mores, the predicaments of official institutions, and the Confucian elite's futile struggle to reassert moral and cultural authority. Like many of his fellow literati, Wu found the vernacular novel an expressive and malleable medium for discussing elite concerns. Through a close reading of *Rulin waishi*, Shang Wei seeks to answer such questions as What accounts for the literati's enthusiasm for writing and reading novels? Does this enthusiasm bespeak a conscious effort to develop a community of critical discourse outside the official world? Why did literati authors eschew publication? What are the bases for their social and cultural criticisms? How far do their criticisms go, given the authors' alleged Confucianism? And if literati authors were interested solely in recovering moral and cultural hegemony for their class, how can we explain the irony found in their works?

**Reinventing the Tripitaka** Jiang Wu, Greg Wilkinson, 2017-09-20 This volume examines the significance of the Chinese Buddhist canon in modern East Asian Buddhism. Exploring how the Chinese Buddhist canon has evolved and how it is currently utilized, each chapter of this book provides new insights and essential information into the Chinese Buddhist canon during the modern and contemporary periods.

**Fu Shan's World** Qianshen Bai, 2020-03-23 For 1,300 years, Chinese

calligraphy was based on the elegant art of Wang Xizhi (A.D. 303–361). But the seventeenth-century emergence of a style modeled on the rough, broken epigraphs of ancient bronzes and stone artifacts brought a revolution in calligraphic taste. By the eighteenth century, this led to the formation of the stele school of calligraphy, which continues to shape Chinese calligraphy today. A dominant force in this school was the eminent calligrapher and art theorist Fu Shan (1607–1685). Because his work spans the late Ming–early Qing divide, it is an ideal prism through which to view the transformation in calligraphy. Rather than seek a single explanation for the change in calligraphic taste, the author demonstrates and analyzes the heterogeneity of the cultural, social, and political processes behind it. Among other subjects, the book covers the late Ming interaction between high and low culture; the role of publishing; the Ming loyalist response to the Qing; and early Qing changes in intellectual discourse. In addition to the usual approach of art historians, it adopts the theoretical perspectives of such fields as material culture, print culture, and social and intellectual history.

The Literary Field of Twentieth Century China Michel Hockx, 2019-05-08 At least since the late nineteenth century onwards, Chinese literature as a form of cultural production has been taking place within a specific social space, including writers, critics, journalists, editors, publishers, printers and booksellers. Focusing on people as well as on texts, and looking at what writers did as well as at what they wrote, the essays in this volume draw a vivid and variegated picture of Chinese literary life throughout the modern period. The book treats differences between periods, but also traces the continuities that have characterised modern Chinese literary practice and its

discourses from the beginning to the present, including ties of allegiance, utilisation of 'the people' and appropriation of the west. The book places modern Chinese literature firmly within its socio-historical context, thereby increasing the reader's awareness of the hidden assumptions behind literary production. In doing so, it opens new perspectives on Chinese culture as a whole, and on literature as a cosmopolitan concept.

**Biographical Dictionary of Chinese Women** Lily Xiao Hong Lee, Sue Wiles, 2014-03-13 This volume of the Biographical Dictionary of Chinese Women completes the four-volume project and contains more than 400 biographies of women active in the Tang through Ming dynasties (618-1644). Many of the entries are the result of original research and will form the only substantial information on women available in English. The volume includes a Guide to Chinese Words Used, a Chronology of Dynasties and Major Rulers, a Finding List by Background or Fields of Endeavor, and a Glossary of Chinese Names.

The Qing Dynasty and Traditional Chinese Culture Richard J. Smith, 2015-10-23 The Qing dynasty (1636-1912)—a crucial bridge between “traditional” and “modern” China—was remarkable for its expansiveness and cultural sophistication. This engaging and insightful history of Qing political, social, and cultural life traces the complex interaction between the Inner Asian traditions of the Manchus, who conquered China in 1644, and indigenous Chinese cultural traditions. Noted historian Richard J. Smith argues that the pragmatic Qing emperors presented a “Chinese” face to their subjects who lived south of the Great Wall and other ethnic faces (particularly Manchu, Mongolian, Central Asian, and Tibetan) to subjects in other parts of their vast multicultural empire. They were attracted by many

aspects of Chinese culture, but far from being completely “sinicized” as many scholars argue, they were also proud of their own cultural traditions and interested in other cultures as well. Setting Qing dynasty culture in historical and global perspective, Smith shows how the Chinese of the era viewed the world; how their outlook was expressed in their institutions, material culture, and customs; and how China’s preoccupation with order, unity, and harmony contributed to the civilization’s remarkable cohesiveness and continuity. Nuanced and wide-ranging, his authoritative book provides an essential introduction to late imperial Chinese culture and society.
