## Understanding TIAA-CREF Irving S.

Schloss, Deborah V. Abildsoe, 2001-03-01 TIAA-CREF is the largest private pension plan in the world, with more than \$260 billion under management, including an estimated 1% of all shares traded on the New York Stock Exchange. And yet, while there is a wealth of information on IRAs, 401(k)s and other investment vehicles, until now there has been little guidance for the millions of TIAA-CREF plan participants and their advisors. The TIAA-CREF Book offers the definitive guide to TIAA-CREF for participants, estate planners, and financial advisors. Simply and clearly--and with a droll sense of humor--the authors explain the often complex legal and financial aspects of how the TIAA-CREF plan works, how the investment choices new participants make can affect the funds available at retirement, what the distribution options are for withdrawing money either before or after retirement, and how to leave the fund as an inheritance. For participants in the accumulation stage of their careers, the authors explain the important differences between fixed income securities (TIAA) and equity securities (CREF), and examine the investment choices for both. They address such important issues as how to allocate contributions, how portable an account really is, and how plans differ from employer to employer. In addition to the valuable primer on estate planning--from how to quantify assets, needs, and income to how the Federal Estate Tax affects TIAA-CREF accounts--the authors explore in detail the distribution options available and help weigh the

pros and cons of each choice. Drawing on their extensive work in the field of estate planning, the authors cover the gamut of what it takes to make the most out of a TIAA-CREF plan. TIAA-CREF is a registered trademark of the Teachers Insurance and Annuity Association/College Retirement Equities Fund Corporation.

**Qualified Domestic Relations Order Handbook** Gary A. Shulman, 2006-01-01 Distilled from years of Fortune 500 consulting practice, Shulman's administrative tools and techniques in *Qualified Domestic Relations Order Handbook* help plan administrators streamline the entire QDRO review and compliance process, while cutting the risk of errors, penalties, and litigation. They include model policies and procedures, review checklists, staff training cases, and more. Contains new models and guidelines for drafting airtight QDROs that speed approval, maximize your clients' rights, and steer you through the malpractice minefields of ERISA and the IRC. New Frontiers of Philanthropy Lester M. Salamon,2014-06-13 The resources of both governments and traditional philanthropy are either barely growing or in decline, yet the problems of poverty, ill-health, and environmental degradation balloon daily. It is therefore increasingly clear that we urgently need new models for financing and promoting social and environmental objectives. Fortunately, a significant revolution appears to be underway on the frontiers of philanthropy and social investing, tapping not only philanthropy, but also private investment capital, and providing at least a partial response to this dilemma. This book examines the new actors and new tools that form the heart of this revolution, and shows how they are reshaping the way we go about supporting solutions to social and environmental problems throughout the world. With contributions from leading experts in the field, *New Frontiers of Philanthropy* provides a comprehensive analysis of

the many new institutions that have surfaced on this new frontier of philanthropy and social investment; the new tools and instruments these institutions are bringing to bear; the challenges that these actors and tools still encounter; and the steps that are needed to maximize their impact. The result is a powerful and accessible guide to developments that are already bringing significant new resources into efforts to solve the world's problems of poverty, ill-health, and environmental degradation; unleashing new energies and new sources of ingenuity for social and environmental problem-solving; and generating new hope in an otherwise dismal scenario of lagging resources and resolve. Investors, philanthropists, social entrepreneurs, nonprofit leaders, business executives, government officials, and students the world over will find much to build on in these pages.
