Kālacakra and the Tibetan Calendar Edward Henning,2007 Kalacakra and the Tibetan Calender describes the contents of current Tibetan almanacs, from basic mathematics to symbolic and historical information. Essential for understanding the Kalacakra Tantra's first chapter, this book describes the origin of the calendrical systems in this Tantra and translates and elucidates the relevant sections from its famous commentary, the Vimalaprabha. The main calenders in use in Tibet today have remained unchanged since the 15th century, when lamas in several different traditions tried to make sense of the calculation systems they had inherited from India, and to adjust them to remove increasingly obvious errors. This book analyzes the main systems that survive today, assesing their accuracy and comparing them with the methods described in the original Tantra. The Division of Heaven and Earth Shokdung,2017-01-01 This is a translation of one of the most influential and important books from Tibet in the modern era, a passionate indictment of Chinese policies and an eloquent analysis of protests that swept Tibet from March, 2008 - the 'Earth Rat' year according to the Tibetan calendar - as a re-awakening of Tibetan national consciousness and solidarity. The Division of Heaven and Earth was banned by the Chinese government on publication, and led to Shokdung being disappeared and imprisoned for nearly six months. This English translation is being made available for the first time since copies began to circulate underground in Tibet. The author, Tagyal -- who uses the pen name Shokdung, meaning morning conch-- one of Tibet's leading intellectuals, wrote his book in response to an unprecedented wave of bold demonstrations and expressions of Tibetan solidarity and national identity. In his foreword Matthew Akester, a Tibet specialist who translated this book into English, offers an account of the significance of these developments, which transformed the political landscape across the plateau and led to a sustained and violent crackdown by the Chinese authorities that continues to this day. Shokdung's book is regarded as the most daring and wide-ranging critique of China's policies in Tibet since the 10th Panchen

Illuminating the Path to Enlightenment His Holiness the Dalai Lama, 2011-01-01 About one thousand years ago, the great Indian pandit and yogi, Dipamkara Shrijnana (Atisha), was invited to Tibet to re-establish the Buddhadharma, which had been suppressed and corrupted for almost two centuries. One of Atisha's main accomplishments in Tibet was his writing of the seminal text, *A Lamp for the Path to Enlightenment*, in which he extracted the essence of all 84,000 teachings of the Buddha and organized them into a clear, step-like arrangement that makes it easy for any individual practitioner to understand and practice the Dharma. This genre of teachings is known as lam-rim, or steps of the path, and forms an essential part of every school of Tibetan Buddhism. In this book, His Holiness the Dalai Lama gives a commentary to not only Atisha's revolutionary work but also to *Lines of Experience*, a short text written by Lama Tsongkhapa, who was perhaps the greatest of all Tibetan lam-rim authors. In bringing together Atisha, Lama Tsongkhapa and His Holiness the Dalai Lama, this book offers readers one of the clearest and most authoritative expositions of the Tibetan Buddhist path ever published, and it is recommended for those at the beginning of the path, the middle and the end. This book is made possible by kind supporters of the Archive who, like you, appreciate how we make these teachings freely available in so many ways, including in our website for instant reading, listening or downloading, and as printed and electronic books. Our website offers immediate access to thousands of pages of teachings and hundreds of audio recordings by some of the greatest lamas of our time. Our photo gallery and our ever-popular books are also freely accessible there. Please help us increase our efforts to spread the Dharma for the happiness and benefit of all beings. You can find out more about becoming a supporter of the Archive and see all we have to offer by visiting our website. Thank you so much, and please enjoy this book.

How to Practice Dharma Lama Zopa Rinpoche, 2012 This expanded edition contains both of the very popular Lama Yeshe booklets, *Becoming Your Own Therapist* and *Make Your Mind an Ocean*. *Becoming Your Own Therapist* First published in 1998, this booklet contains three public talks by Lama Yeshe on the general topic of Buddhism. Each lecture is followed by a question and answer session. Lama and his audiences always enjoyed the give and take of these lively exchanges, and pretty much anything went. Although these talks were called lectures, Lama would have each of us use them as a mirror for our minds and look beyond the words, find ourselves, and become our own psychologist. *Make Your Mind an Ocean* The talks in this booklet are on the general topic of the mind. Two were lunchtime lectures at Melbourne and Latrobe Universities. One was an evening lecture given to the general public. Perhaps of greatest interest is the lecture entitled *A Buddhist Approach to Mental Illness*. Lama presented this talk to a group of psychiatrists at Prince Henry's Hospital who were delighted to meet and question Lama, and this historic exchange underscores the difference between Western and Buddhist concepts of mental health.

A Guide to the Bodhisattva's Way of Life Shantideva, 2017-01-01 Shantideva's *Bodhisattvacharyavatara* (A Guide to the Bodhisattva's Way of Life) holds a unique place in Mahayana Buddhism akin to that of the *Dhammapada* in Hinayana Buddhism and the *Bhagavadgita* in Hinduism. In combining those rare qualities of scholastic precision, spiritual depth and poetical beauty, its appeal extends to a wide audience of Buddhists and non-Buddhists alike. Composed in India during the 8th century of the Christian era, it has since been an inspiration to millions of people throughout the world. This present translation by Stephen Batchelor is based upon a 12th century Tibetan commentary as orally explained by Ven. Geshe Ngawang Dhargyey. The ninth chapter on wisdom has been expanded for this edition with relevant commentarial passages.

Calendrical Calculations Edward M. Reingold, Nachum Dershowitz, 2018-04-05 An invaluable resource for working programmers, as well as a fount of useful algorithmic tools for computer scientists, astronomers, and other calendar enthusiasts, *The Ultimate Edition* updates and expands the previous edition to achieve more accurate results and present new calendar variants. The book now includes coverage of Unix dates, Italian time, the Akan, Icelandic, Saudi Arabian Umm al-Qura, and Babylonian calendars. There are also expanded treatments of the observational Islamic and Hebrew calendars and brief discussions of the Samaritan and Nepalese calendars. Several of the astronomical functions have been rewritten to produce more accurate results and to include calculations of moonrise and moonset. The authors frame the calendars of the world in a completely algorithmic form, allowing easy conversion among these calendars and the determination of secular and religious holidays. LISP code for all the algorithms is available in machine-readable form.

Tibetan History Qingying Chen, 2003

A History of Modern Tibet, Volume 4 Melvyn C. Goldstein, 2019-10-22 It is not possible to understand contemporary politics between China and the Dalai Lama without understanding what happened in the 1950s, especially the events that occurred in 1957–59. The fourth volume of Melvyn C. Goldstein's *History of Modern Tibet* series, *In the Eye of the Storm*, provides new perspectives on Sino-Tibetan history during the period leading to the Tibetan Uprising of 1959. The volume also reassesses issues that have been widely misunderstood as well as stereotypes and misrepresentations in the popular realm and in academic literature (such as in Mao's policies on Tibet). Volume 4 draws on important new Chinese government documents, published and unpublished memoirs, new biographies, and a large corpus of in-depth, specially collected political interviews to reexamine the events that produced the March 10th uprising and the demise of Tibet's famous Buddhist civilization. The result is a heavily documented analysis that presents a nuanced and balanced account of the principal players and their policies during the critical final two years of Sino-Tibetan relations under the Seventeen-Point Agreement of 1951.
