**The Encyclopedia of Restaurant Training** Lora Arduser, Douglas Robert Brown, 2005 Book & CD-ROM. Training is an investment for the future, the only foundation on which success can be built. Training delivers excellence in product and performance, elevating a good restaurant into a great one. Training will keep the skills of its employees and management sharp. But in no other industry is its absence or presence as obvious as it is in the food service industry. It is hard to find good, qualified employees, and even harder to keep them. In addition, unemployment levels are low, and competition for qualified workers is tough. What's the answer? Training! Constant training and re-enforcement keeps employees and management sharp and focused, and demonstrates the company cares enough to spend time and subsequently money on them. And that's precisely what this encyclopaedic book will do for you -- be your new training manager. The first part of the book will teach you how to develop training programs for food service employees, and how to train the trainer. The book is full of training tips, tactics and how-to's that will show you proper presentation, and how to keep learners motivated both during and after the training. The second part of the book details specific job descriptions and detailed job performance skills for every position in a food service operation, from the general manager to dishwasher. There are study guides and tests for all positions. Some of the positions include General Manager, Kitchen Manager, Server, Dishwasher, Line Cook, Prep Cook, Bus Person, Host/Hostess, Bartender, Wine & Alcohol Service, Kitchen Steward, Food Safety, Employee Safety, Hotel Positions, etc. Specific instructions are provided for using equipment as well.

It illuminates the French way of life as well as showing what the popular cooking shows, such as Julia Child's, were based on. Readers will find the basics discussed in narrative chapters on food history, major foods and ingredients, cooking, typical meals, eating out, and diet and health. The information-packed volume is also indispensable for learning about regional cultivation and specialties that France is so famous for. The French appreciation for seasonal food is illuminated in descriptions of shopping, cooking, and eating habits. All students of French culture and language and Francophiles will benefit from the overview presented here.

*Front of the House, Back of the House* Eli Revelle Yano Wilson, 2020-12-29 How workers navigate race, gender, and class in the food service industry Two unequal worlds of work exist within the upscale restaurant scene of Los Angeles. White, college-educated servers operate in the front of the house--also known as the public areas of the restaurant--while Latino immigrants toil in the back of the house and out of customer view. In *Front of the House, Back of the House*, Eli Revelle Yano Wilson shows us what keeps these workers apart, exploring race, class, and gender inequalities in the food service industry. Drawing on research at three different high-end restaurants in Los Angeles, Wilson highlights why these inequalities persist in the twenty-first century, pointing to discriminatory hiring and supervisory practices that ultimately grant educated whites access to the most desirable positions. Additionally, he shows us how workers navigate these inequalities under the same roof, making sense of their jobs, their identities, and each other in a world that reinforces their separateness. *Front of the House, Back of the House* takes us behind the scenes of the food service industry, providing a window into the unequal lives of white and Latino restaurant workers.
