Specters of Marx Jacques Derrida,2012-10-12 Prodigiously influential, Jacques Derrida gave rise to a comprehensive rethinking of the basic concepts and categories of Western philosophy in the latter part of the twentieth century, with writings central to our understanding of language, meaning, identity, ethics and values. In 1993, a conference was organized around the question, 'Whither Marxism?', and Derrida was invited to open the proceedings. His plenary address, 'Specters of Marx', delivered in two parts, forms the basis of this book. Hotly debated when it was first published, a rapidly changing world and world politics have scarcely dented the relevance of this book.

Spectres of Antiquity James Uden,2020-09-10 Gothic literature imagines the return of ghosts from the past. But what about the ghosts of the classical past? Spectres of Antiquity is the first full-length study to describe the relationship between Greek and Roman culture and the Gothic novels, poetry, and drama of the eighteenth and early nineteenth centuries. Rather than simply representing the opposite of classical aesthetics and ideas, the Gothic emerged from an awareness of the lingering power of antiquity. The Gothic reflects a new and darker vision of the ancient world: no longer inspiring modernity through its examples, antiquity has become a ghost, haunting contemporary minds rather than guiding them. Through readings of works by authors including Horace Walpole, Ann Radcliffe, Matthew Lewis, Charles Brockden Brown, and Mary Shelley, Spectres of Antiquity argues that these authors' plots and ideas preserve the remembered traces of Greece and Rome. James Uden provides evidence for many allusions to ancient texts that have never previously been noted in scholarship, and he offers an accessible guide both to the Gothic genre and to the classical world to which it responds. In fascinating and compelling detail, Spectres of Antiquity rewrites the history of the Gothic, demonstrating that the genre was haunted by a far deeper sense of history than has previously been assumed.
