Equality in the Secondary School Mike Cole,2009-10-22 Drawing on a wealth of knowledge from a diverse group of contributors, this volume addresses the importance of going beyond equal opportunities. The contributors provide a compelling argument for promoting equality in secondary schools. Issues covered include: social class; race; gender; sexual orientation; disability and special educational needs with reference to all subjects taught at secondary school level.

UNMUTE! Lauren Sergy,2021-07-07 Have virtual meetings become the most dreaded part of your workday? You open your calendar and feel your heart rate spike as you stare at them. Virtual meeting after virtual meeting, replete with all-to-familiar irritations: technical glitches, awkward conversations, Bob's nose hairs. (Seriously, doesn't Bob know his camera is pointed right up his nose?) Like it or not, being able to mug for the webcam is now an important addition to your CV. But there's more to having a good videoconference than turning on your webcam. And UNMUTE! will show you how to do it. In this hilarious and fast-paced book, communication expert Lauren Sergy takes you on a deep-dive into virtual meetings: what works, what doesn't, and how to make the most of this communication medium without it taking over your life. With energy, wit, and a bucketful of relatable stories, Lauren will help you - Polish not-so-small on-camera skills like eye contact, gesture, and speaking mannerisms - Set up your virtual meeting space like a pro...without turning your office into a production studio - Boost meeting attendees' focus and engagement - Manage those annoying technical glitches - Dial down your stress and kick Zoom Fatigue to the curb UNMUTE! is a must-read book for anyone who uses videoconferencing at work. You and your colleagues can master virtual meetings; it's time to take action!

Progressive Dystopia Savannah Shange,2019-11-15 San Francisco is the endgame of gentrification, where racialized displacement means that the Black population of the city hovers at just over 3 percent. The Robeson Justice Academy opened to serve the few remaining low-income neighborhoods of the city, with the mission of offering liberatory, social justice--themed education to youth of color. While it features a progressive curriculum including Frantz Fanon and Audre Lorde, the majority Latinx school also has the district's highest suspension rates for Black students. In *Progressive Dystopia* Savannah Shange explores the potential for reconciling the school's marginalization of Black students with its sincere pursuit of multiracial uplift and solidarity. Drawing on ethnographic fieldwork and six years of experience teaching at the school, Shange outlines how the school fails its students and the community because it operates within a space predicated on antiblackness. Seeing San Francisco as a social laboratory for how Black communities survive the end of their worlds, Shange argues for abolition over revolution or progressive reform as the needed path toward Black freedom.

Death Comes for the Fat Man Reginald Hill,2009-12-15 There was no sign of life. But not for a second did Pascoe admit the possibility of death. Dalziel was indestructible. Dalziel is, and was, and forever shall be, world without end, amen. Chief constables might come and chief constables might go, but Fat Andy went on forever. Caught in the full blast of a huge explosion, Detective Superintendent Andy Dalziel lies on a hospital bed, with only a life support system and his indomitable will between him and the Great Beyond. His colleague, Detective Chief Inspector Peter Pascoe, is determined to bring those responsible to justice. Pascoe suspects a group called The Templars, and the deeper he digs, the more certain he is that The Templars are getting help from within the police force. The plot is complex, the pace fast, the jokes furious, and the climax astounding. And above it all, like a huge dirigible threatening to break from its moorings, hovers the disembodied spirit of Andy Dalziel.

Modernizing the Academic Teaching and Research Environment Jorge Marx Gómez,Sulaiman Mouselli,2018-03-30 This book constitutes a valuable manual for young and seasoned business researchers alike, and provides a comprehensive summary for the whole research journey. It is a must-read for all researchers who need to understand the basics of business research, from identifying research topics, to planning and organizing the research process, and selecting the most appropriate methodology for the topic at hand. This book also provides insights on how to avoid common pitfalls in business research and outlines the research skills needed to write a fine piece of research. In order to capture the innovative element of research, the book also highlights methods for thinking outside the box. It also stresses the importance of respecting ethics while conducting business research. Lastly, it presents important cases and provides hands-on training for preparing survey tools. Readers looking to master business research won't want to miss out on this unique and insightful book.

Pivot Thinking and the Differential Sharing of Information Within New Product Development Teams Mark F. Schar,2011 Functionally diverse team members bring unique sets of cognitive styles to team interaction; it is less clear how these differences affect the exchange of critical, mutually required team information. This cognitive diversity in new product design (NPD) teams increases the likelihood that individual team members will perceive the team's task differently, leading to cognitive representational gaps between teammates' interpretations of both the task and potential solution. This research shows that cognitively diverse NPD teams develop representational gaps based on individual cognitive preferences between convergent and divergent information types and these cognitive preferences influence both task definition and solution. A second experiment shows that team leadership that bridges cognitive preferences, called pivot thinking, can overcome this limiting behavior. Understanding these general mechanisms deepens understanding of group information processing and conflict in cognitively diverse NPD teams. Implications for design education are discussed.

Covid-19: The Great Reset Thierry Malleret,Klaus Schwab,2020-07-09 The Corona crisis and the Need for a Great Reset is a guide for anyone who wants to understand how COVID-19 disrupted our social and economic systems, and what changes will be needed to create a more inclusive, resilient and sustainable world going forward. Thierry Malleret, founder of the Monthly Barometer, and Klaus Schwab, founder and executive Chairman of the World Economic Forum, explore what the root causes of these crisis were, and why they lead to a need for a Great Reset.Theirs is a worrying, yet hopeful analysis. COVID-19 has created a great disruptive reset of our global social, economic, and political systems. But the power of human beings lies in being foresighted and having the ingenuity, at least to a certain extent, to take their destiny into their hands and to plan for a better future. This is the purpose of this book: to shake up and to show the deficiencies which were manifest in our global system, even before COVID broke out.

Introduction to ISDN ,1987

The Fourth Industrial Revolution Klaus Schwab,2017-01-03 World-renowned economist Klaus Schwab, Founder and Executive Chairman of the World Economic Forum, explains that we have an opportunity to shape the fourth industrial revolution, which will fundamentally alter how we live and work. Schwab argues that this revolution is different in scale, scope and complexity from any that have come before. Characterized by a range of new technologies that are fusing the physical, digital and biological worlds, the developments are affecting all disciplines, economies, industries and governments, and even challenging ideas about what it means to be human. Artificial intelligence is already all around us, from supercomputers, drones and virtual assistants to 3D printing, DNA sequencing, smart thermostats, wearable sensors and microchips smaller than a grain of sand. But this is just the beginning: nanomaterials 200 times stronger than steel and a million times thinner than a strand of hair and the first transplant of a 3D printed liver are already in development. Imagine “smart factories” in which global systems of manufacturing are coordinated virtually, or implantable mobile phones made of biosynthetic materials. The fourth industrial revolution, says Schwab, is more significant, and its ramifications more profound, than in any prior period of human history. He outlines the key technologies driving this revolution and discusses the major impacts expected on government, business, civil society and individuals. Schwab also offers bold ideas on how to harness these changes and shape a better future—one in which technology empowers people rather than replaces them; progress serves society rather than disrupts it; and in which innovators respect moral and ethical boundaries rather than cross them. We all have the opportunity to contribute to developing new frame-works that advance progress.

Organizational Behavior Steven Lattimore McShane,Mary Ann Young Von Glinow,2025 In this new edition have new conceptual content and literature foundation; a few chapters have completely new sections and reorganization. All chapters have new examples and either new or revised factoids--

The Rhetoric of Science Alan G. Gross,1996 Alan Gross applies the principles of rhetoric to the interpretation of classical and contemporary scientific texts to show how they persuade both author and audience. This invigorating consideration of the ways in which scientists--from Copernicus to Darwin to Newton to James Watson--establish authority and convince one another and us of the truth they describe may very well lead to a remodeling of our understanding of science and its place in society.
